(57) **CLAIM**

The ornamental design for a compact water bottle filling station, as shown and described.

DESCRIPTION

FIG. 1 is a front left perspective view of a compact water bottle filling station according to our new design; FIG. 2 is front right perspective view of the compact water bottle filling station seen in FIG. 1; FIG. 3 is another front right perspective view of the compact water bottle filling station seen in FIG. 1; FIG. 4 is a front elevational view of the compact water bottle filling station seen in FIG. 1; FIG. 5 is a rear elevational view of the compact water bottle filling station seen in FIG. 1; FIG. 6 is a left side view of the compact water bottle filling station seen in FIG. 1, the right side view being a mirror image thereof; FIG. 7 is a top plan view of the compact water bottle filling station seen in FIG. 1; and, FIG. 8 is a bottom plan view of the compact water bottle filling station seen in FIG. 1.

(Continued)

Broken lines in the figures illustrate portions of the compact water bottle filling station that form no part of the claimed design.
