

US00D963164S

(12) **United States Design Patent**
Marsala

(10) **Patent No.:** **US D963,164 S**
(45) **Date of Patent:** **** Sep. 6, 2022**

(54) **SURGICAL NEEDLE**
(71) Applicant: **The Regents of the University of California, Oakland, CA (US)**
(72) Inventor: **Martin Marsala, Solana Beach, CA (US)**
(73) Assignee: **The Regents of the University of California, Oakland, CA (US)**

Primary Examiner — David G Muller
(74) *Attorney, Agent, or Firm* — Foley & Lardner LLP

(57) **CLAIM**
The ornamental design for a surgical needle, as shown and described.

DESCRIPTION

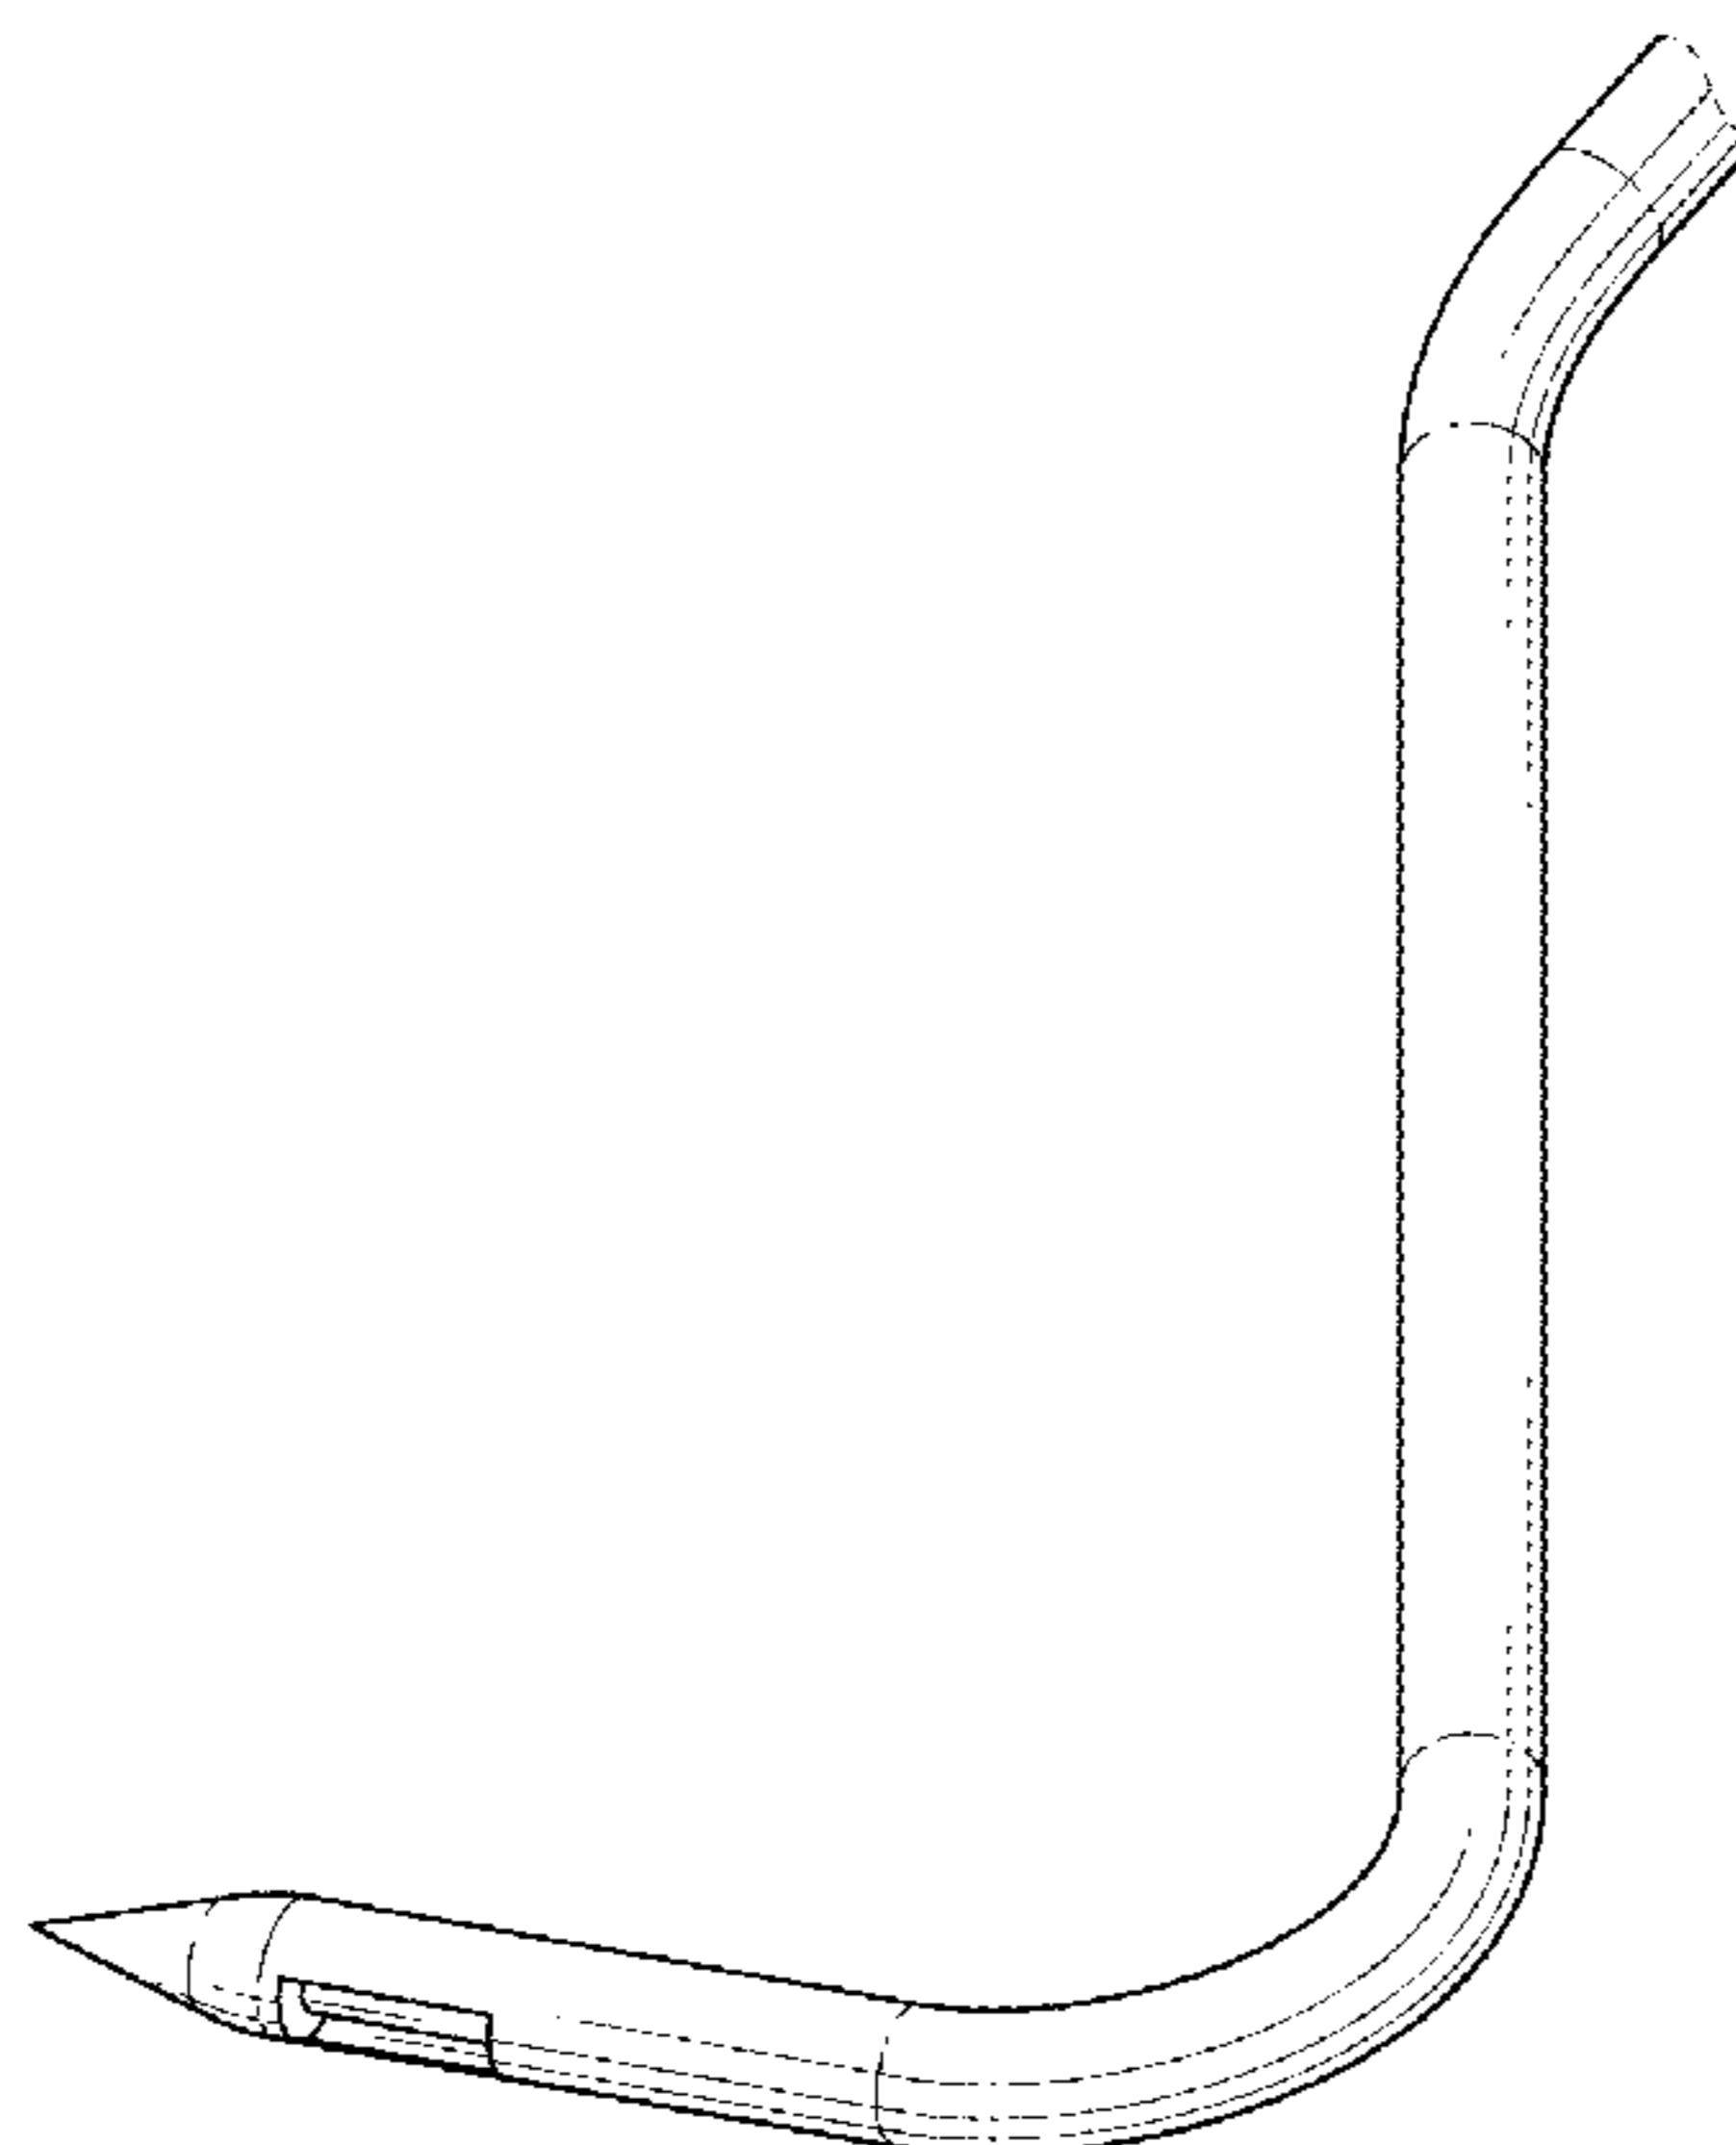

FIG. 1 is a rear, left, and bottom perspective view of a surgical needle;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a rear elevational view thereof;
FIG. 4 is a right side elevational view thereof;
FIG. 5 is a left side elevational view thereof;
FIG. 6 is a top plan view thereof;
FIG. 7 is a bottom plan view thereof; and,
FIG. 8 is a rear, left, bottom perspective view of the surgical needle shown disposed within a holder.
The broken lines in the figures represent portions of the article or environment that form no part of the claimed design.
