(57) **CLAIM**

The ornamental design for a display panel or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

The sole FIGURE is a front view of a display screen or portion thereof with graphical user interface according to our new design.

The dot-dash broken lines illustrate a display panel or portion thereof and form no part of the claimed design. The elements that include four short solid line segments and are positioned at each end of the diagonal solid line illustrate a portion of a graphical user interface and are meant to form part of the claim.

The display panel may be a display screen or any other suitable display panel. The display panel may be used with an ultrasound probe.
