(57) **CLAIM**

The ornamental design for display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface showing our new design; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; FIG. 4 is a front view of a fourth image thereof; FIG. 5 is a front view of a fifth image thereof; FIG. 6 is a front view of a sixth image thereof; and, FIG. 7 is a front view of a seventh image thereof.

The appearance of the graphical user interface transitions sequentially between the images shown in FIGS. 1-7, including the reverse order. The process or period in which one image transitions to another forms no part of the claimed design.

The broken lines showing an electronic device illustrate environmental subject matter, whereas the remaining broken lines showing elements of the graphical user interface illustrate portions of the article. None of the broken lines form part of the claimed design.

1 Claim, 7 Drawing Sheets
