1.4. Animated graphical user interface for mobile phone
1.1 is a front view of a first embodiment of a mobile phone with animated graphical user interface;
1.2 is a variation state view 1 thereof;
1.3 is a variation state view 2 thereof;
1.4 is a variation state view 3 thereof;
2.1 is a front view of a second embodiment of a mobile phone with animated graphical user interface;
2.2 is a variation state view 1 thereof;
2.3 is a variation state view 2 thereof;
2.4 is a variation state view 3 thereof;
3.1 is a front view of a third embodiment of a mobile phone with animated graphical user interface;
3.2 is a variation state view 1 thereof;
3.3 is a variation state view 2 thereof;
3.4 is a variation state view 3 thereof;
4.1 is a front view of a fourth embodiment of a mobile phone with animated graphical user interface;
4.2 is a variation state view 1 thereof;
4.3 is a variation state view 2 thereof;
4.4 is a variation state view 3 thereof.

The Product incorporating the design is mainly used for running program, interaction and mobile communication; the graphical user interface of the design is used for the notification displayed on the screen.

The appearance of the transitional image sequentially transitions between the images shown in Figs. 1.1-1.4; 2.1-2.4; 3.1-3.4; and 4.1-4.4 respectively. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines showing portions of the mobile phone, as well as the broken lines showing portions of the graphical user interface, form no part of the claimed design.
