CLAIM

The ornamental design for a display screen with transitional graphical user interface for integrated travel itinerary planning, booking, and viewing, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for a display screen with transitional graphical user interface for integrated travel itinerary planning, booking, and viewing showing our new design; and,

FIG. 2 is a front view of a second image thereof. The broken lines showing the display screen form no part of the claimed design. The remaining broken lines showing text, numbers, and portions of the graphical user interface form no part of the claimed design. The appearance of the transitional graphical user interface transitions sequentially between the images as shown in FIGS. 1 to 2. The process and period in which one image transitions to another image forms no part of the claimed design.
