(57) **CLAIM**

The ornamental design for a mounting bracket for image sensor, as shown and described.

DESCRIPTION

FIG. 1 is a top, front, and right side perspective view of a mounting bracket for image sensor showing our new design; FIG. 2 is a bottom, rear, and left side perspective view thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a left side view thereof;

FIG. 5 is a right side view thereof;

FIG. 6 is a top view thereof;

FIG. 7 is a bottom view thereof;

FIG. 8 is another bottom view thereof, showing the plane from which FIG. 9 cross-section is taken;

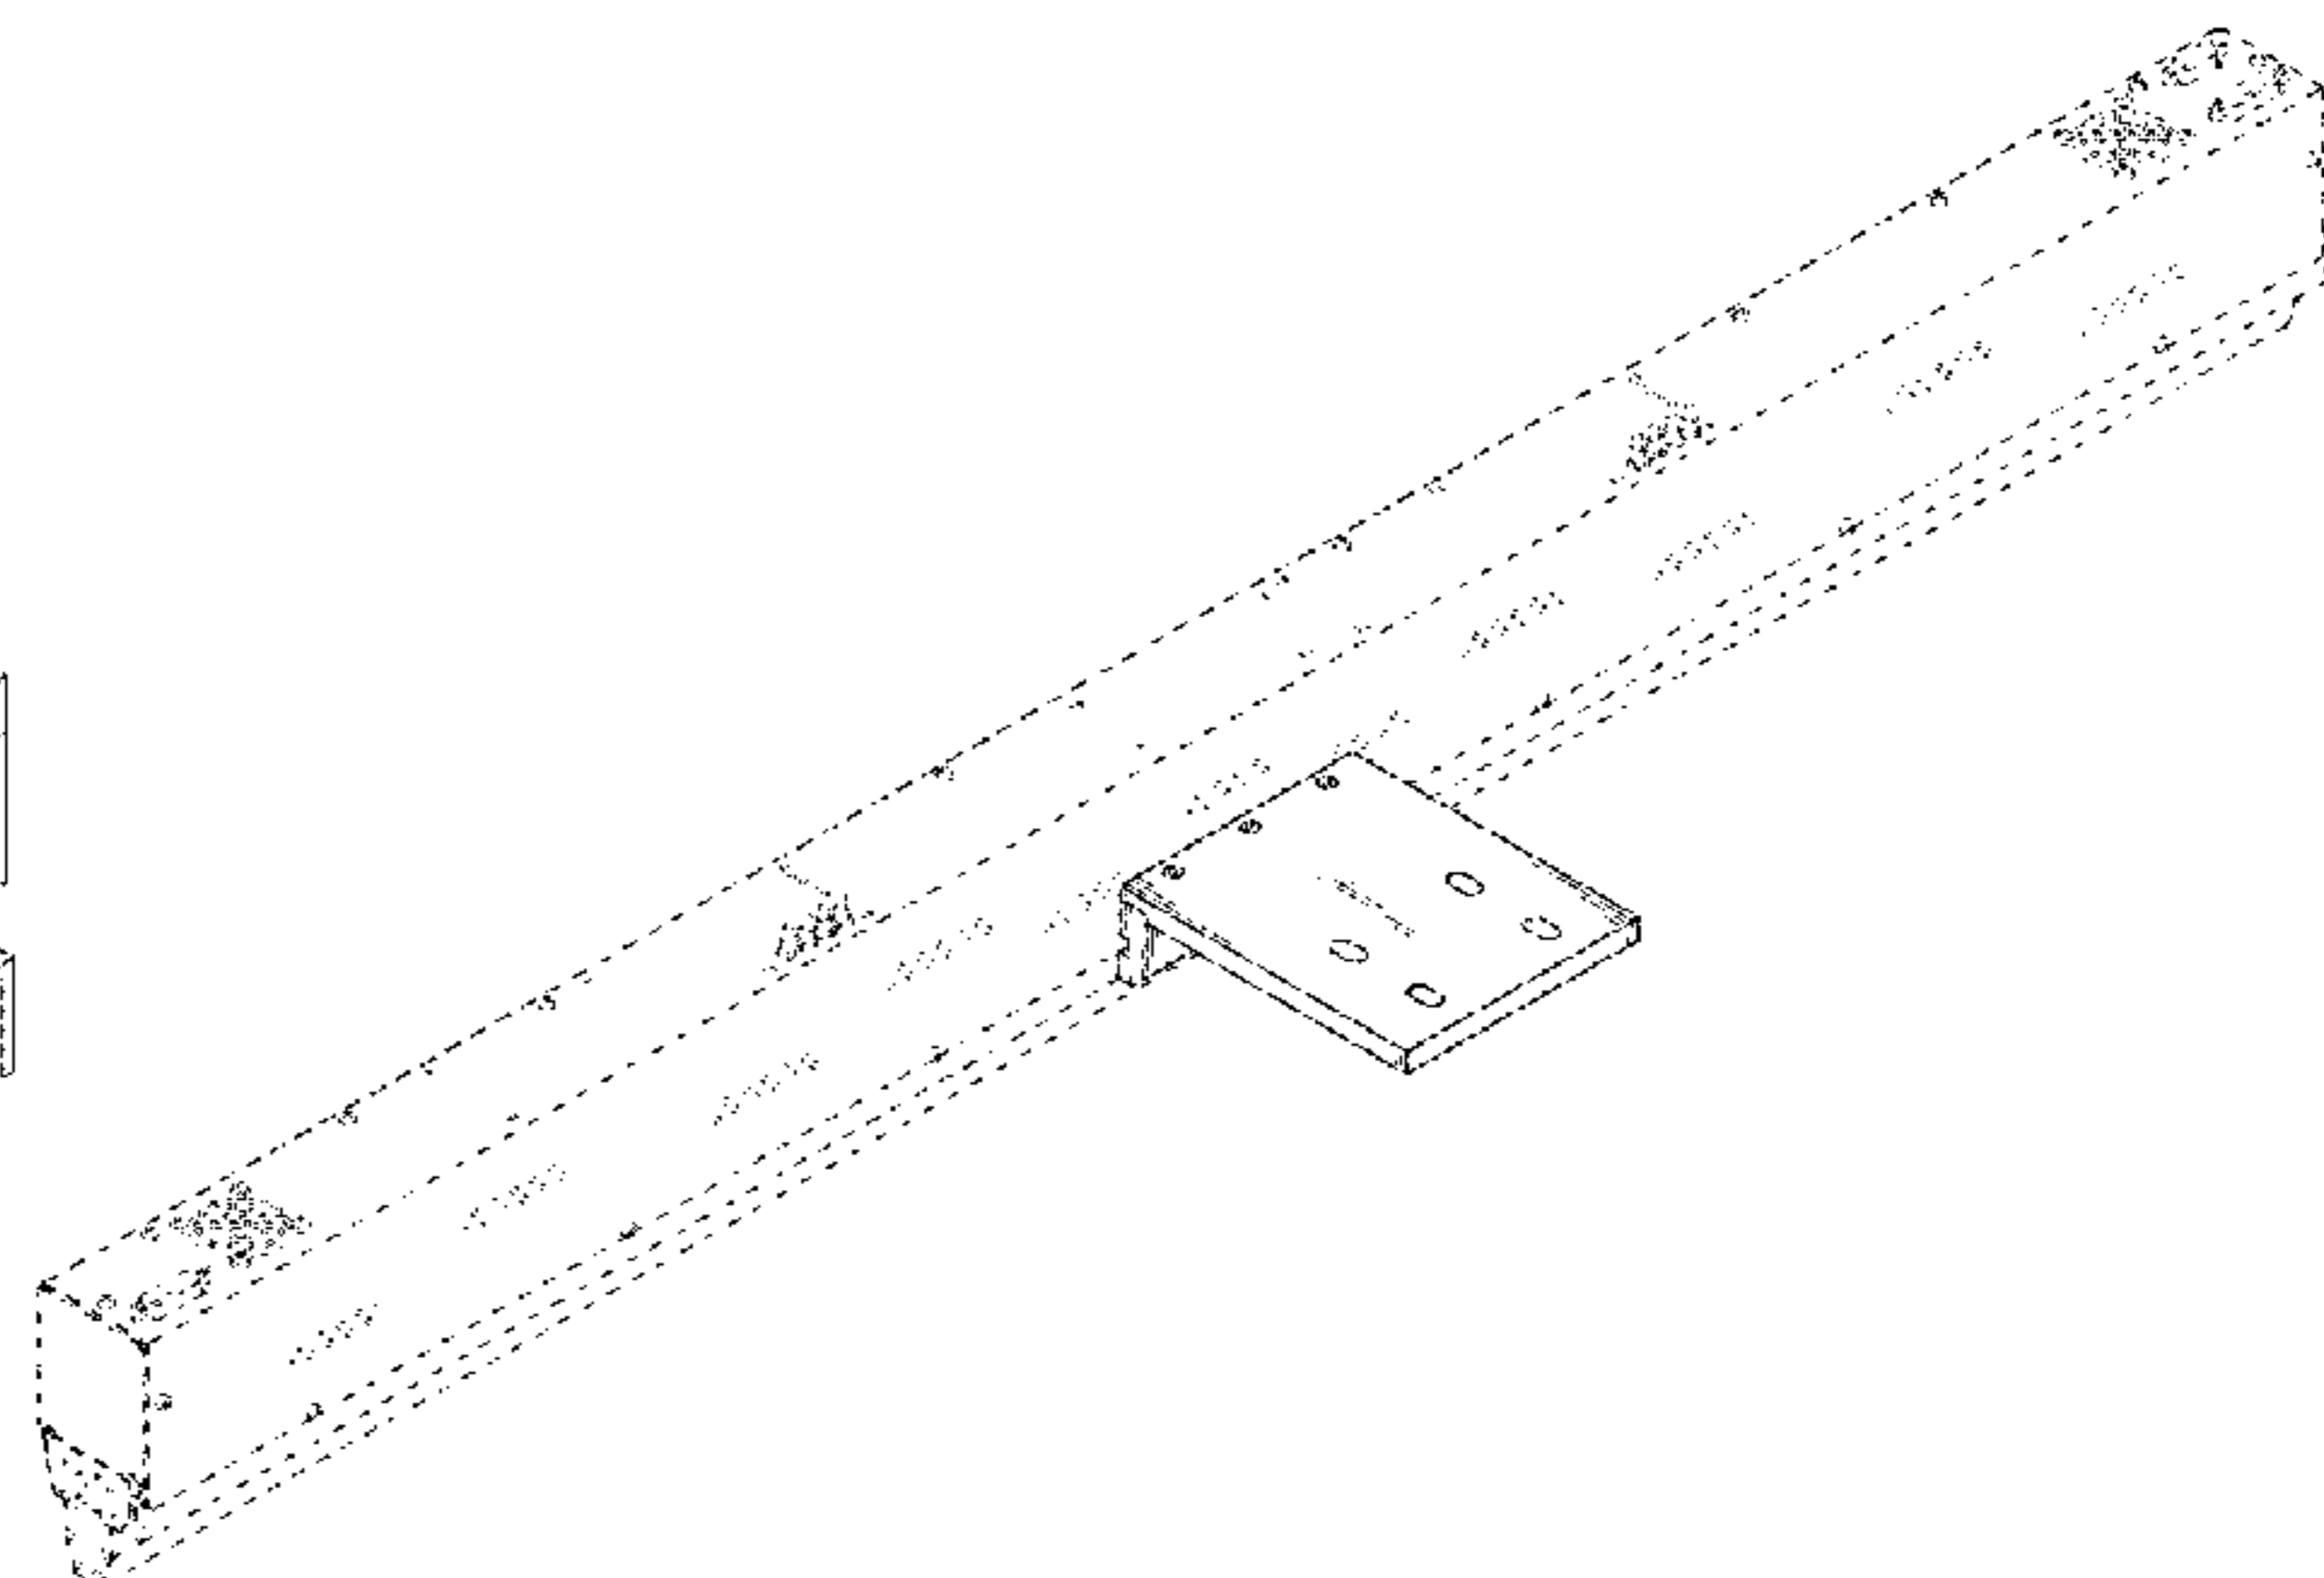

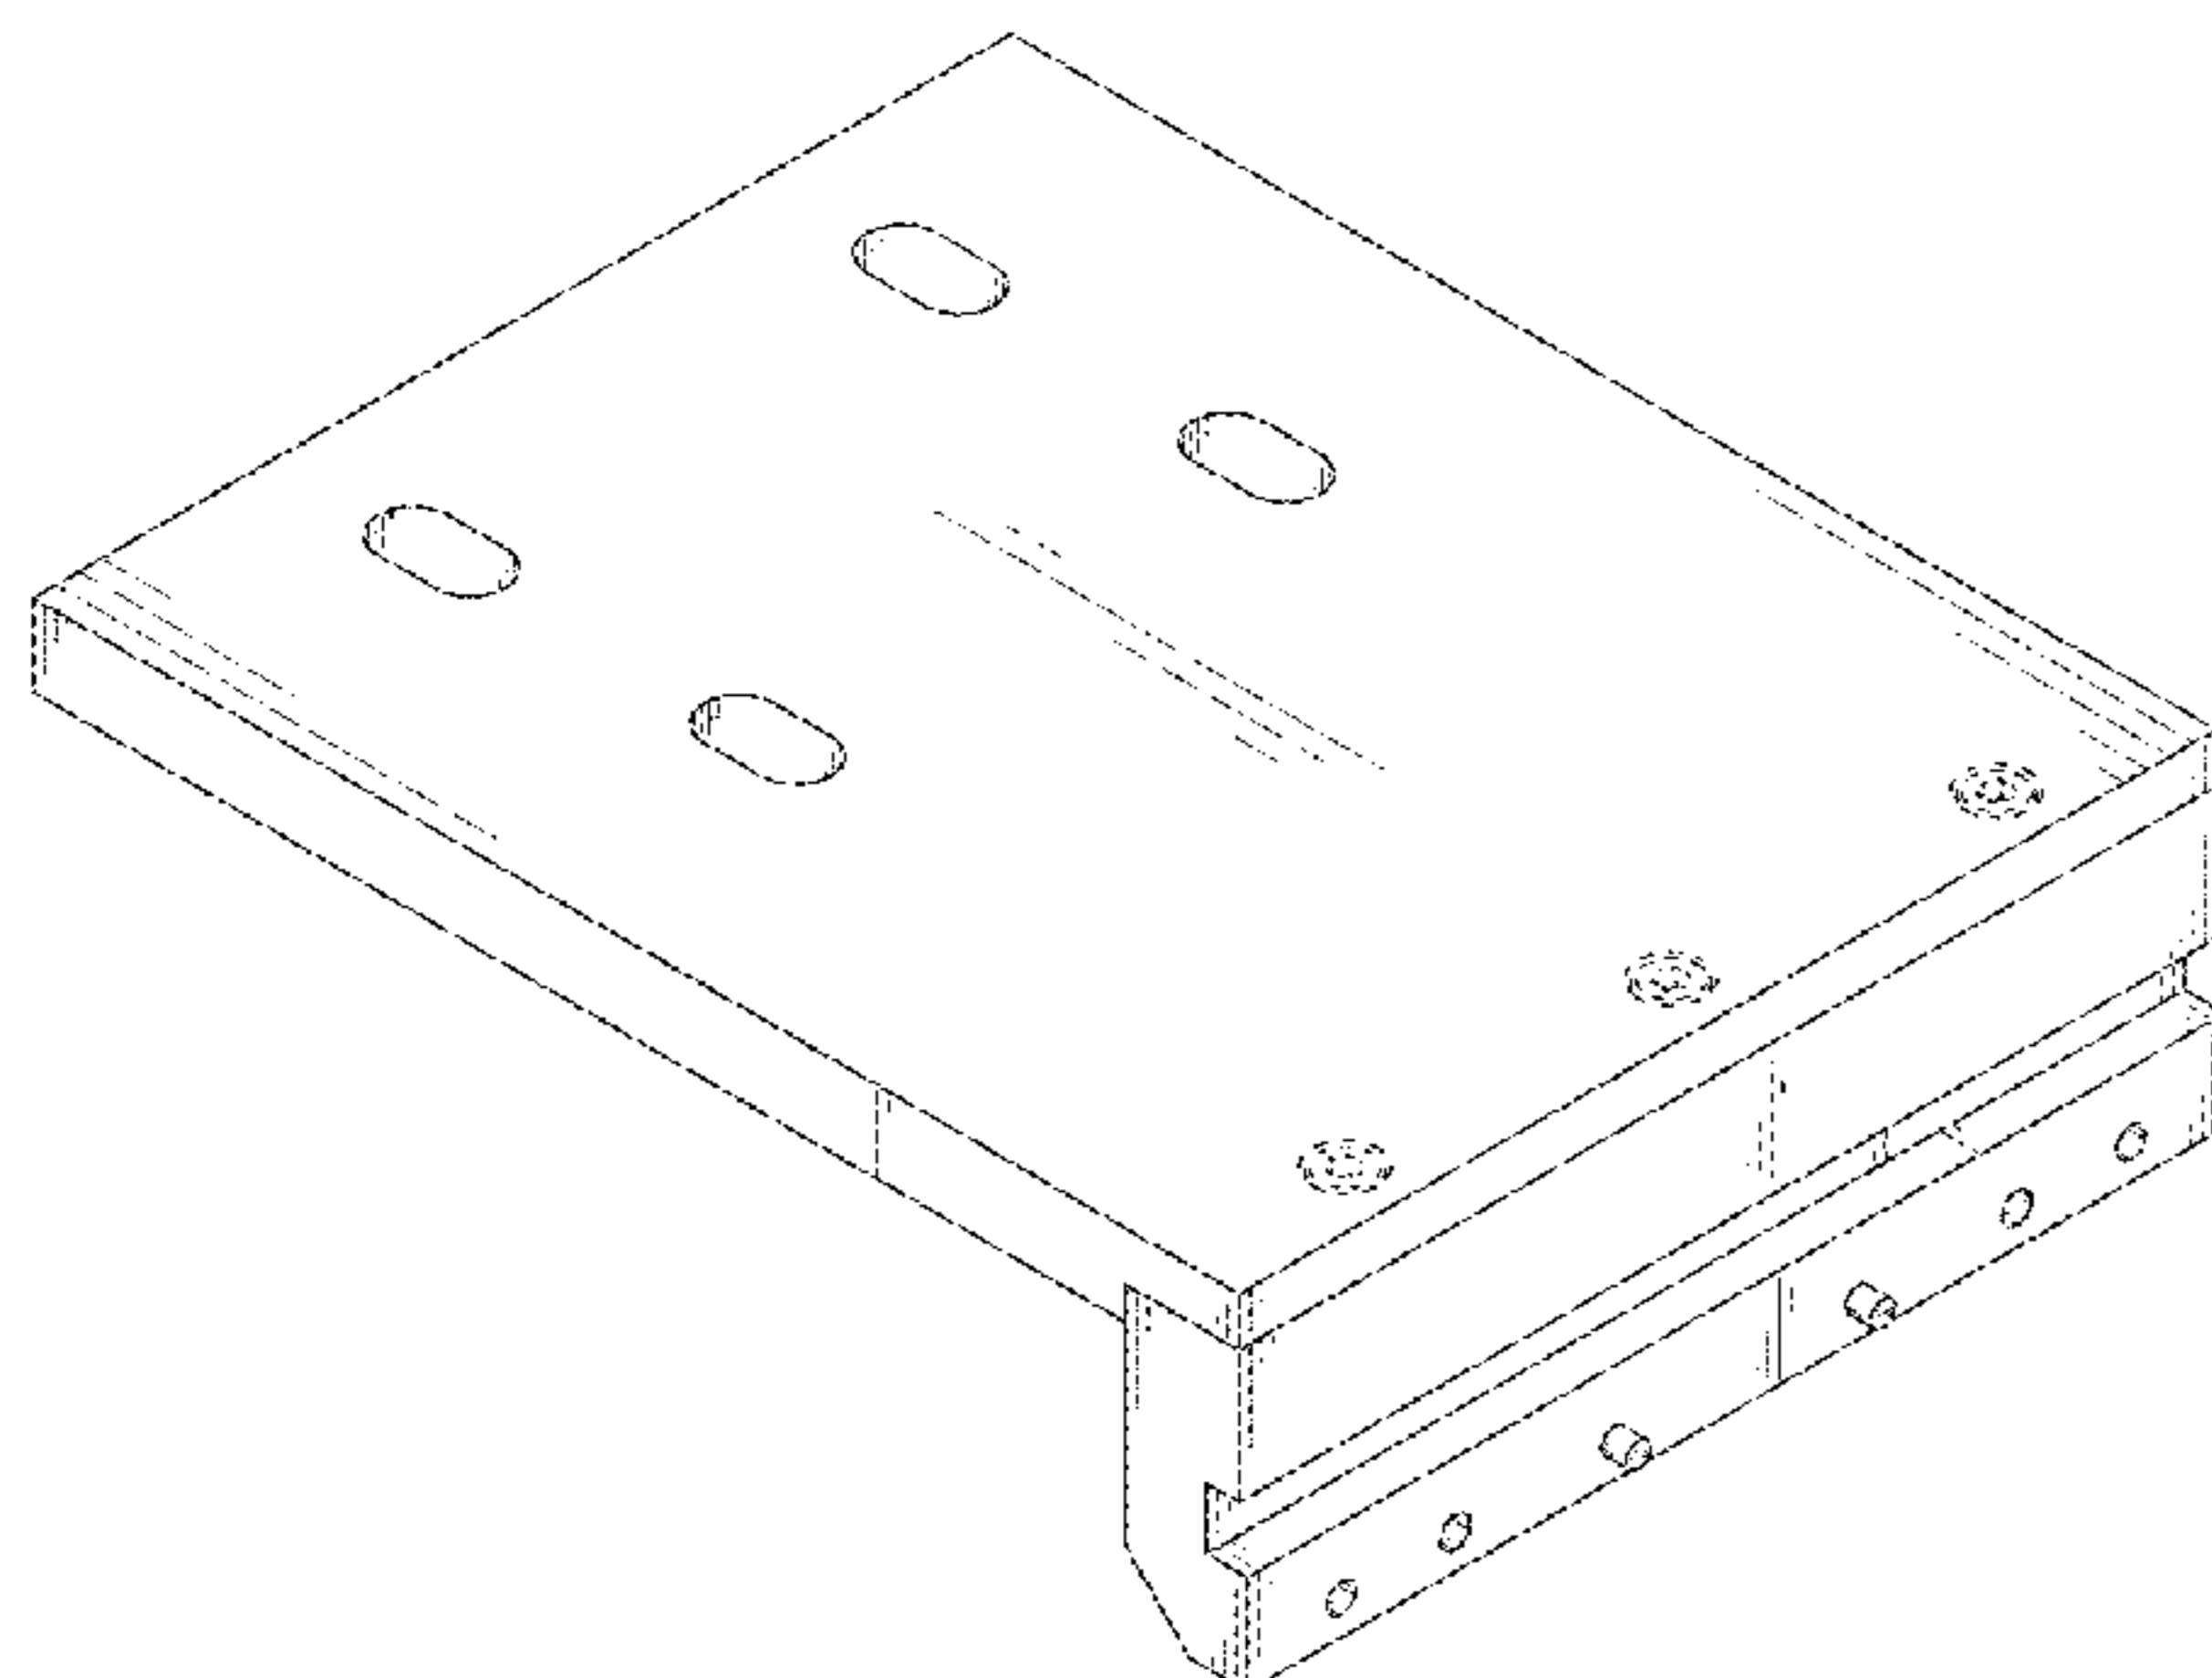

FIG. 9 is a sectional view taken along combined line A-B-C-D of FIG. 8; and,

FIG. 10 is an alternate perspective view thereof, shown in use.

The rear view is omitted because the rear view is symmetrical to the front view.

The broken line showing of the bar in FIG. 10 is included for the purpose of illustrating environment of the article; all other broken lines illustrate portions of the mounting bracket for image sensor which form no part of the claimed design.

1 Claim, 10 Drawing Sheets
