(57) **CLAIM**

The ornamental design for a computer display screen or portion thereof with graphical user interface, as shown and described.

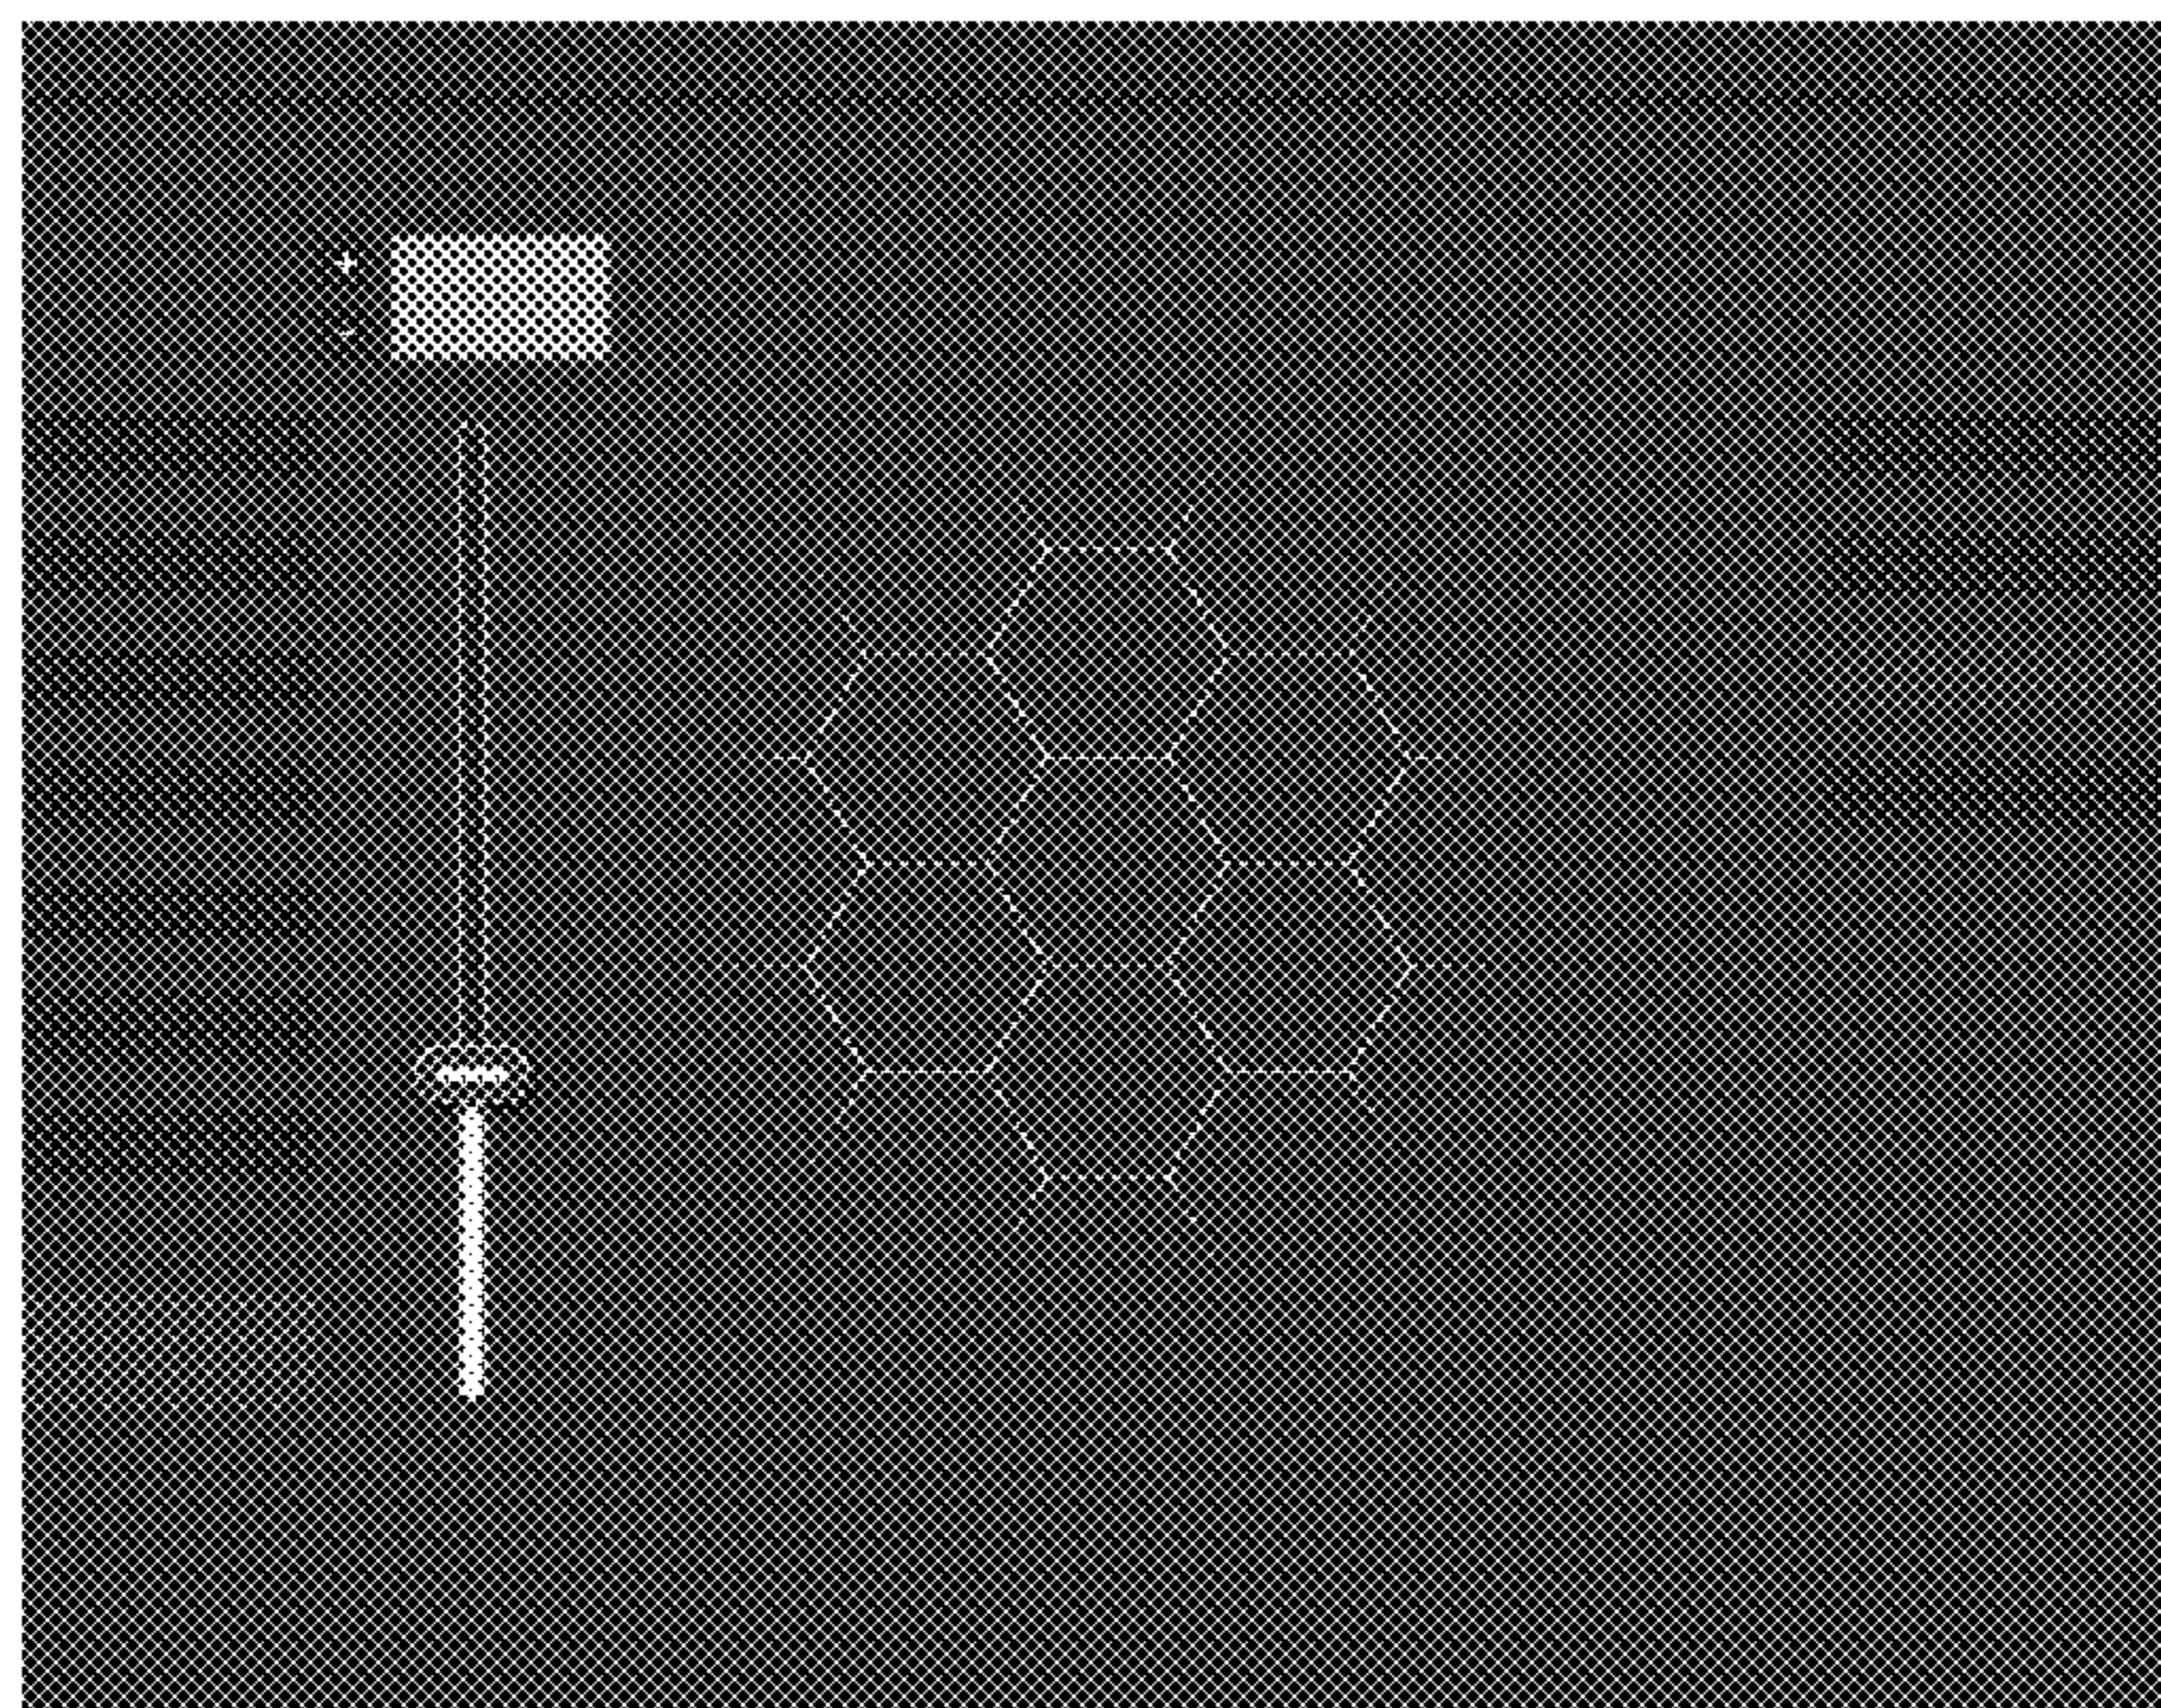

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a front view of the computer display screen or portion thereof with graphical user interface.

The FIGURE is a front view of the computer display screen or portion thereof with graphical user interface according to the present invention. The outer edge of the underlying computer display screen or portion thereof is understood to be congruent with the rectangular border of the graphical user interface.
