(57) **CLAIM**

The ornamental design for a computer mouse, as shown and described.

DESCRIPTION

FIG. 1 is a front top perspective view of my computer mouse;

FIG. 2 is a top view thereof;

FIG. 3 is a bottom view thereof;

FIG. 4 is a right side view thereof;

FIG. 5 is a left side view thereof;

FIG. 6 is a front view thereof;

FIG. 7 is a back view thereof; and,

FIG. 8 is a bottom perspective view thereof.

As illustrated in FIGS. 1-8, the computer mouse can include honeycomb openings on each side. In some implementations, a filigree ornamentation extends symmetrically on each side of a wheel within the fork lines and outside the fork lines at the base of the fork lines (e.g., FIGS. 1, 2, and 4-6). In some implementations, the ornamentation is engraved in the computer mouse.

The broken lines illustrate features of the computer mouse that form no part of the claimed design.

1 Claim, 7 Drawing Sheets
