Primary Examiner — Katherine A Holbrow

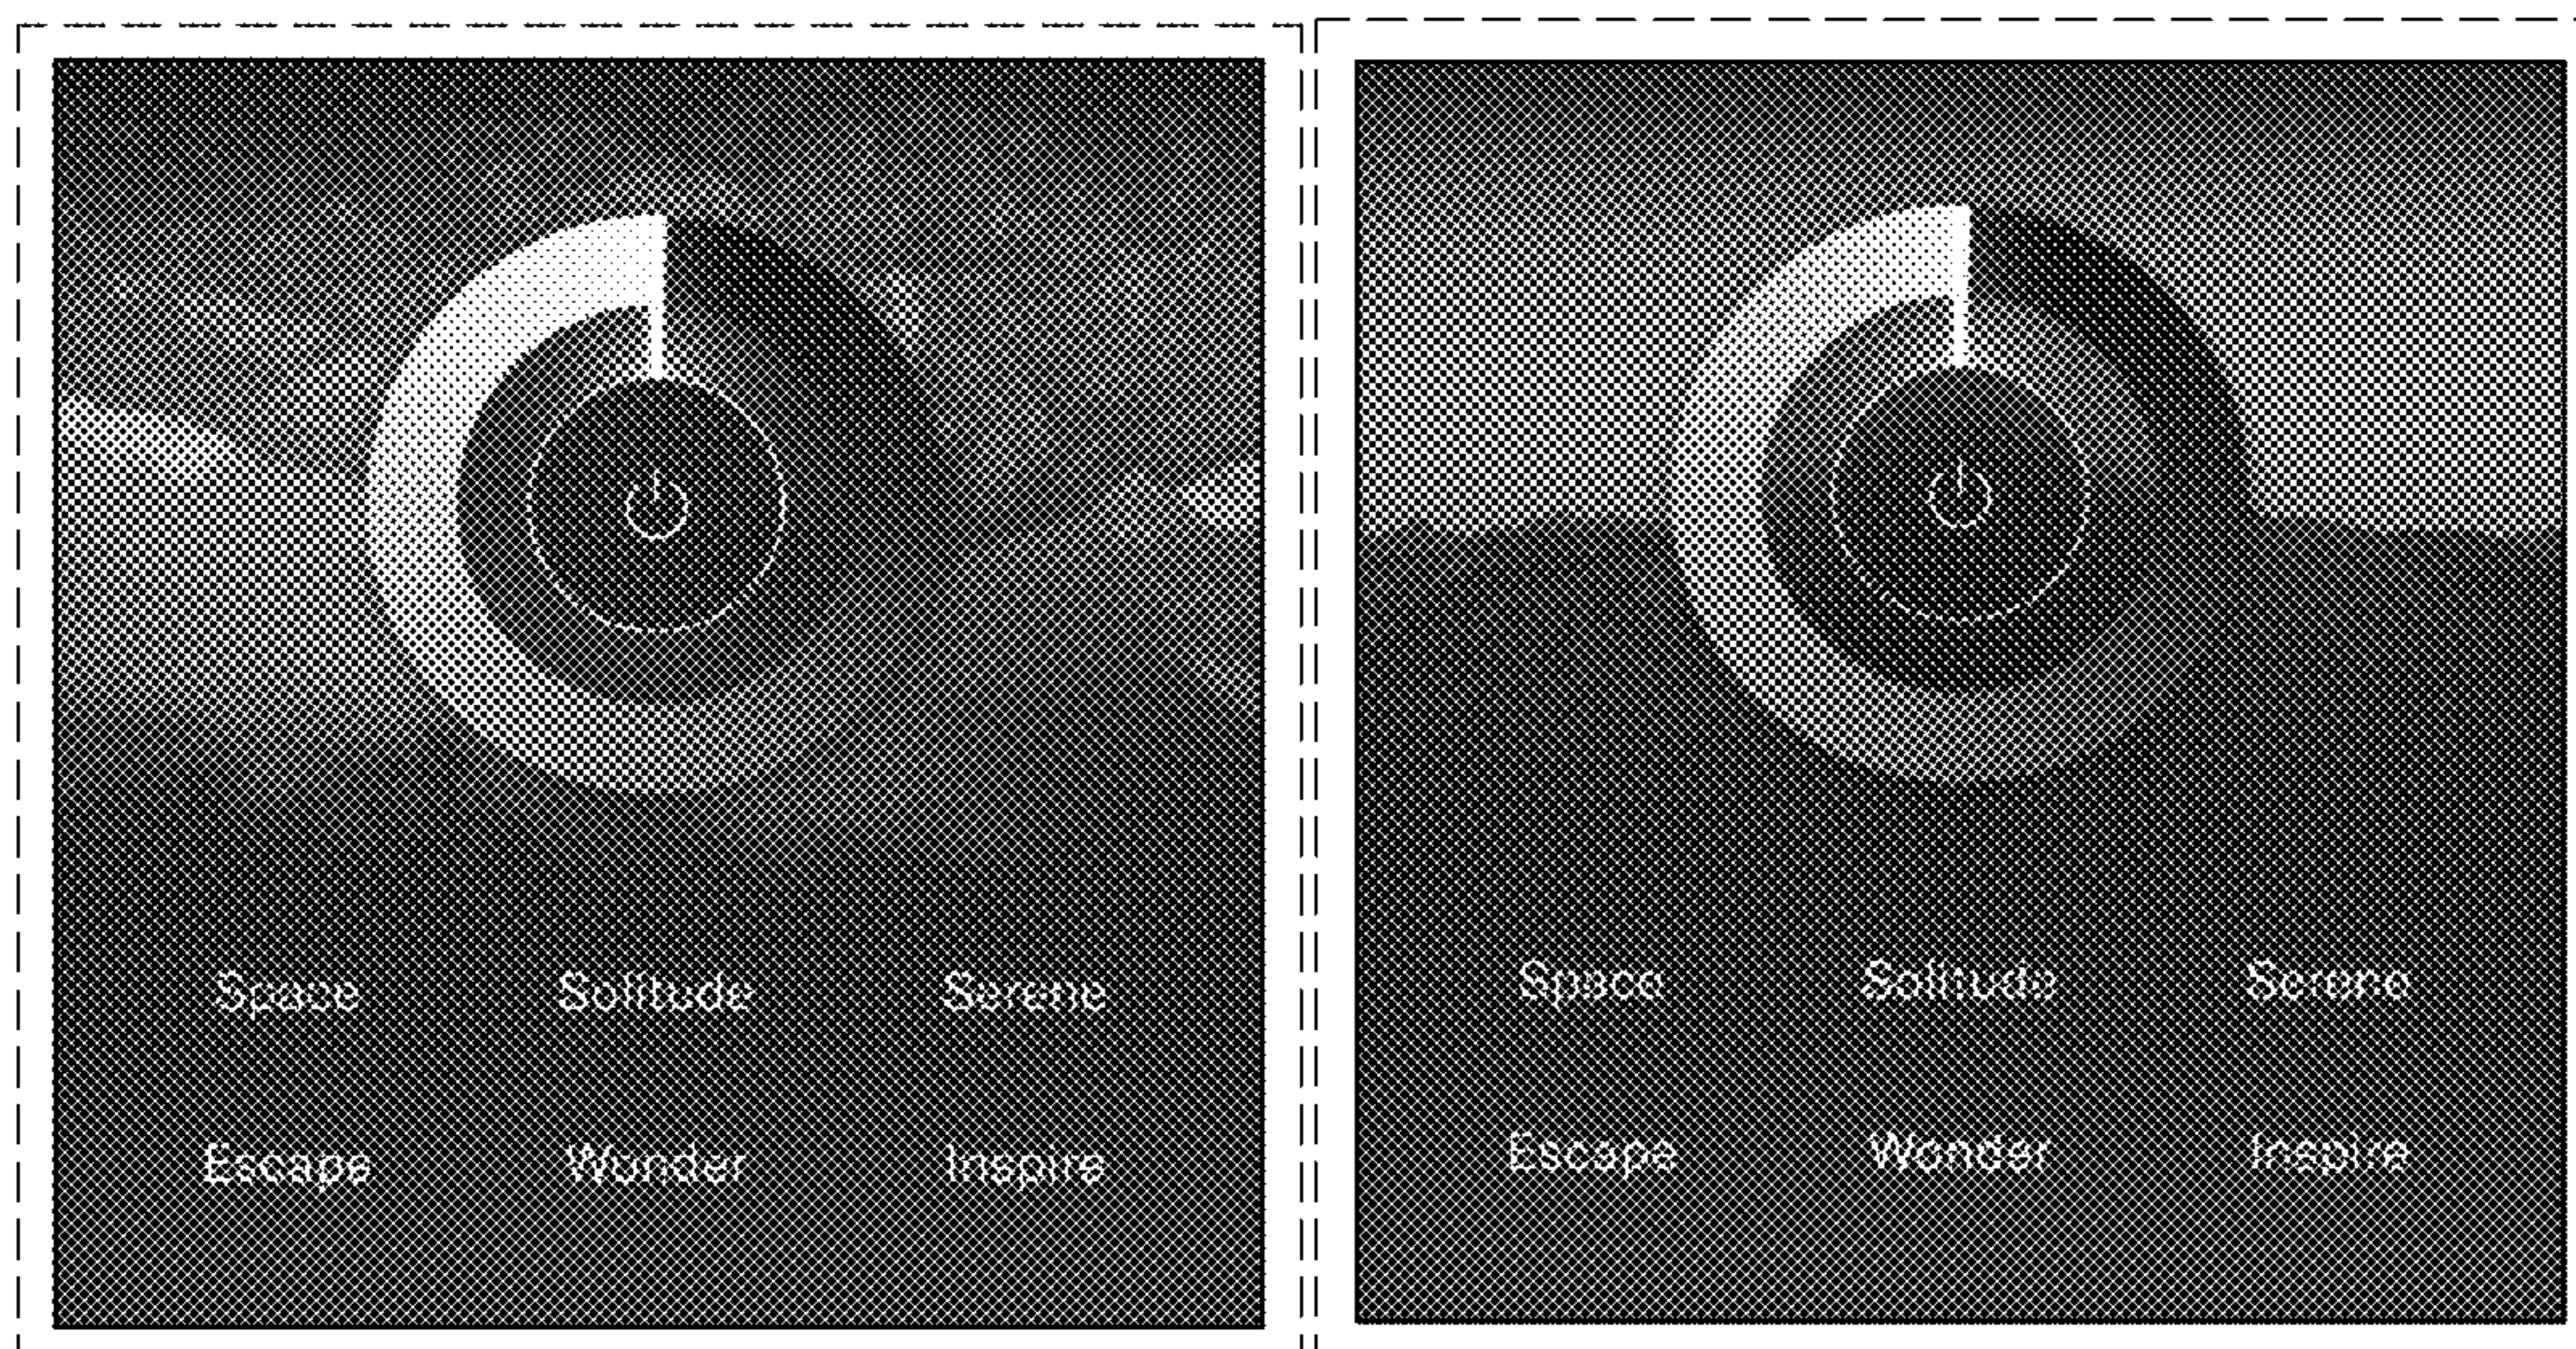

(57) **CLAIM**

We claim the ornamental design for an automotive vehicle display screen with a graphical user interface for ambient lighting, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in a sequence for an automotive vehicle display screen with graphical user interface for ambient lighting;
FIG. 2 is a front view showing a second image thereof;
FIG. 3 is a front view showing a third image thereof;
FIG. 4 is a front view showing a fourth image thereof;
FIG. 5 is a front view showing a fifth image thereof; and,
FIG. 6 is a front view showing a sixth image thereof.
The outermost broken line rectangle shows the display screen, and forms no part of the claimed design. The subject matter in this patent includes a process or period in which an image changes to another image. The appearance of the transitional image sequentially transitions between the images shown in the figures. The process or period in which one image transitions to another image forms no part of the claimed design.
