(57) **CLAIM**

I claim the ornamental design for a safety helmet, as shown and described.

(Continued)

FIG. 20 is a bottom perspective view of the safety helmet according to the second embodiment in which a chin strap has been removed to reveal certain details of the helmet interior.

The cross-hatch shading and stipple shading as used in this application are drafting conventions used to show contrast with adjacent surfaces.

The broken lines immediately adjacent to the shaded areas depict the bounds of the claimed design, while all other broken lines are directed to environment. The broken lines form no part of the claimed design.
