FIG. 1 is a front, right side perspective view of a facial contact pad for mask type air purifier showing our new design;

FIG. 2 is a rear, right side perspective view thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a rear view thereof;

FIG. 5 is a left side view thereof;

FIG. 6 is a right side view thereof;

FIG. 7 is a top view thereof;

FIG. 8 is a bottom view thereof; and,

FIG. 9 is an exploded perspective view showing the design of FIG. 1 within a mask type air purifier.

The present design is a facial contact pad for mask type purifier which includes a number of perforations on the skin contact surface that decrease in size towards the center of the article. The internal air of the purifier can circulate through these perforations.

The broken lines showing portions of a mask type air purifier in FIG. 9 are for the purpose of illustrating environmental structures that form no part of the claimed design.

See application file for complete search history.
