(57) **CLAIM**

The ornamental design for a patient transfer mat, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a top-front-right side perspective view of a patient transfer mat showing my new design;
FIG. 2 is a top-rear-right side perspective view thereof;
FIG. 3 is a bottom-rear-left side perspective view thereof;
FIG. 4 is a front elevational view thereof;
FIG. 5 is a rear elevational view thereof;
FIG. 6 is a left side elevational view thereof;
FIG. 7 is a right side elevational view thereof;
FIG. 8 is a top plan view thereof;
FIG. 9 is a bottom plan view thereof;
FIG. 10 is a perspective view thereof where the cover part is unfolded to cover the body mat part and one side traction straps are stretched to the outside of the body mat part or the side pad parts;
FIG. 11 is a perspective view thereof where the cover part is unfolded close to the body mat part or the side pad parts; and,
FIG. 12 is a perspective view thereof showing the patient transfer mat in a fully folded configuration.
