(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

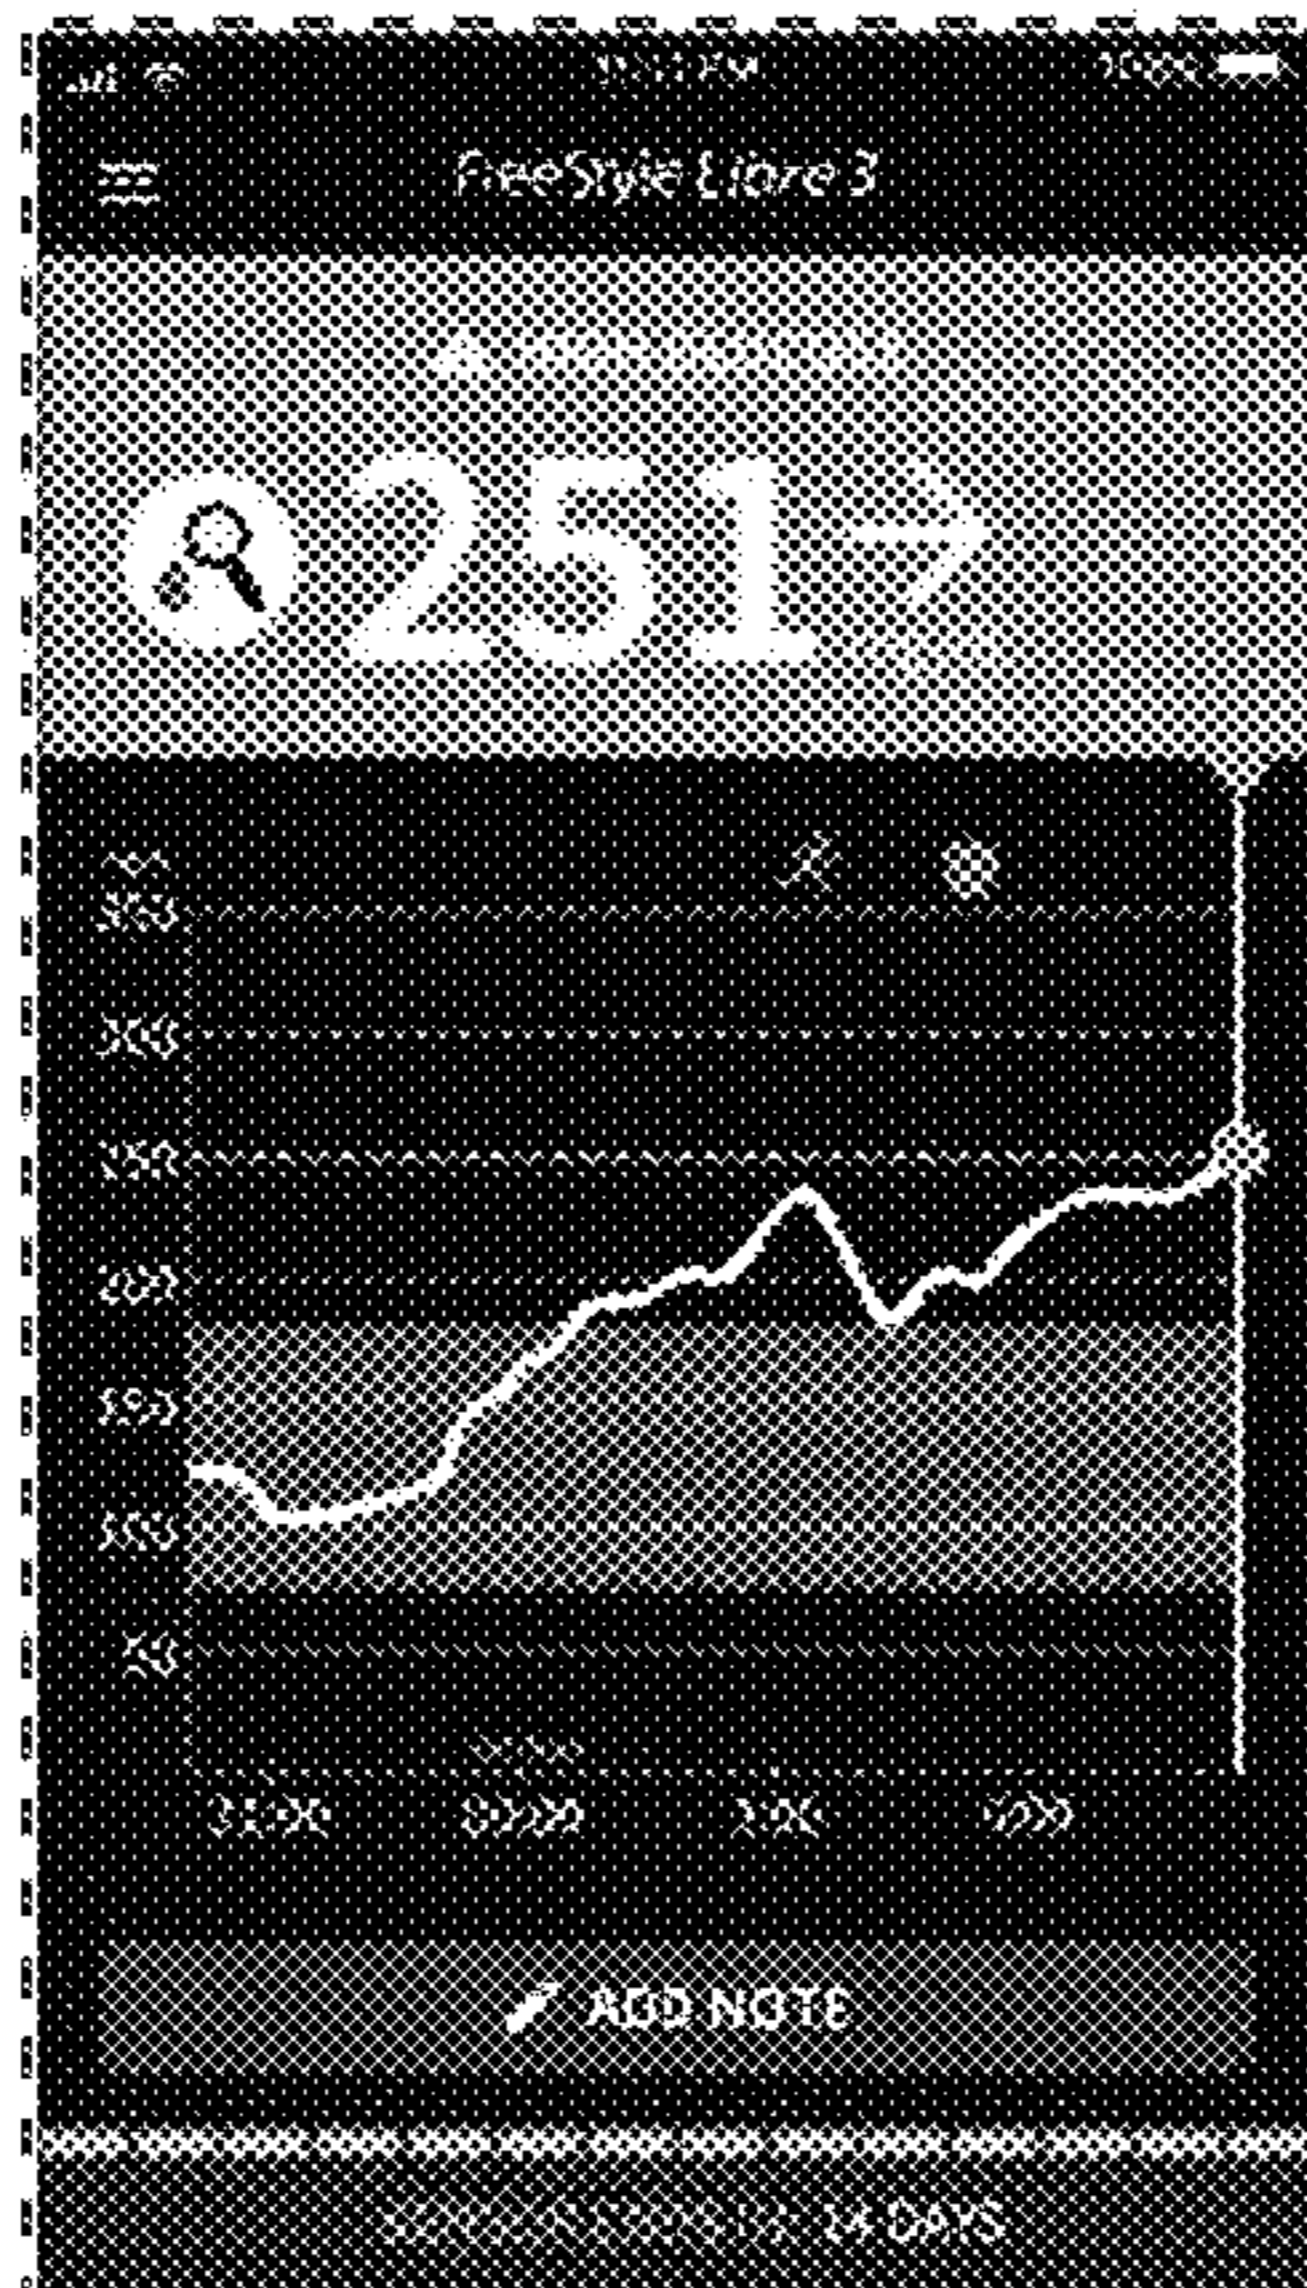

The patent file contains at least one drawing executed in color. Copies of this patent with color drawings will be provided by the Office upon request and payment of the necessary fee.

This design patent application incorporates by reference in their entirety: U.S. patent application Ser. No. 16/433,931, filed Jun. 6, 2019.

The FIGURE is a front view of a display screen or portion thereof with graphical user interface showing our new design.

The outer perimeter shown in broken lines in the drawing illustrates a display screen or portion thereof that forms no part of the claimed design.
