See application file for complete search history.

FIG. 1 is a front view of a first image in a sequence for a display screen with a transitional graphical user interface; FIG. 2 is a front view of a second image thereof; and, FIG. 3 is a front view of a third image thereof.

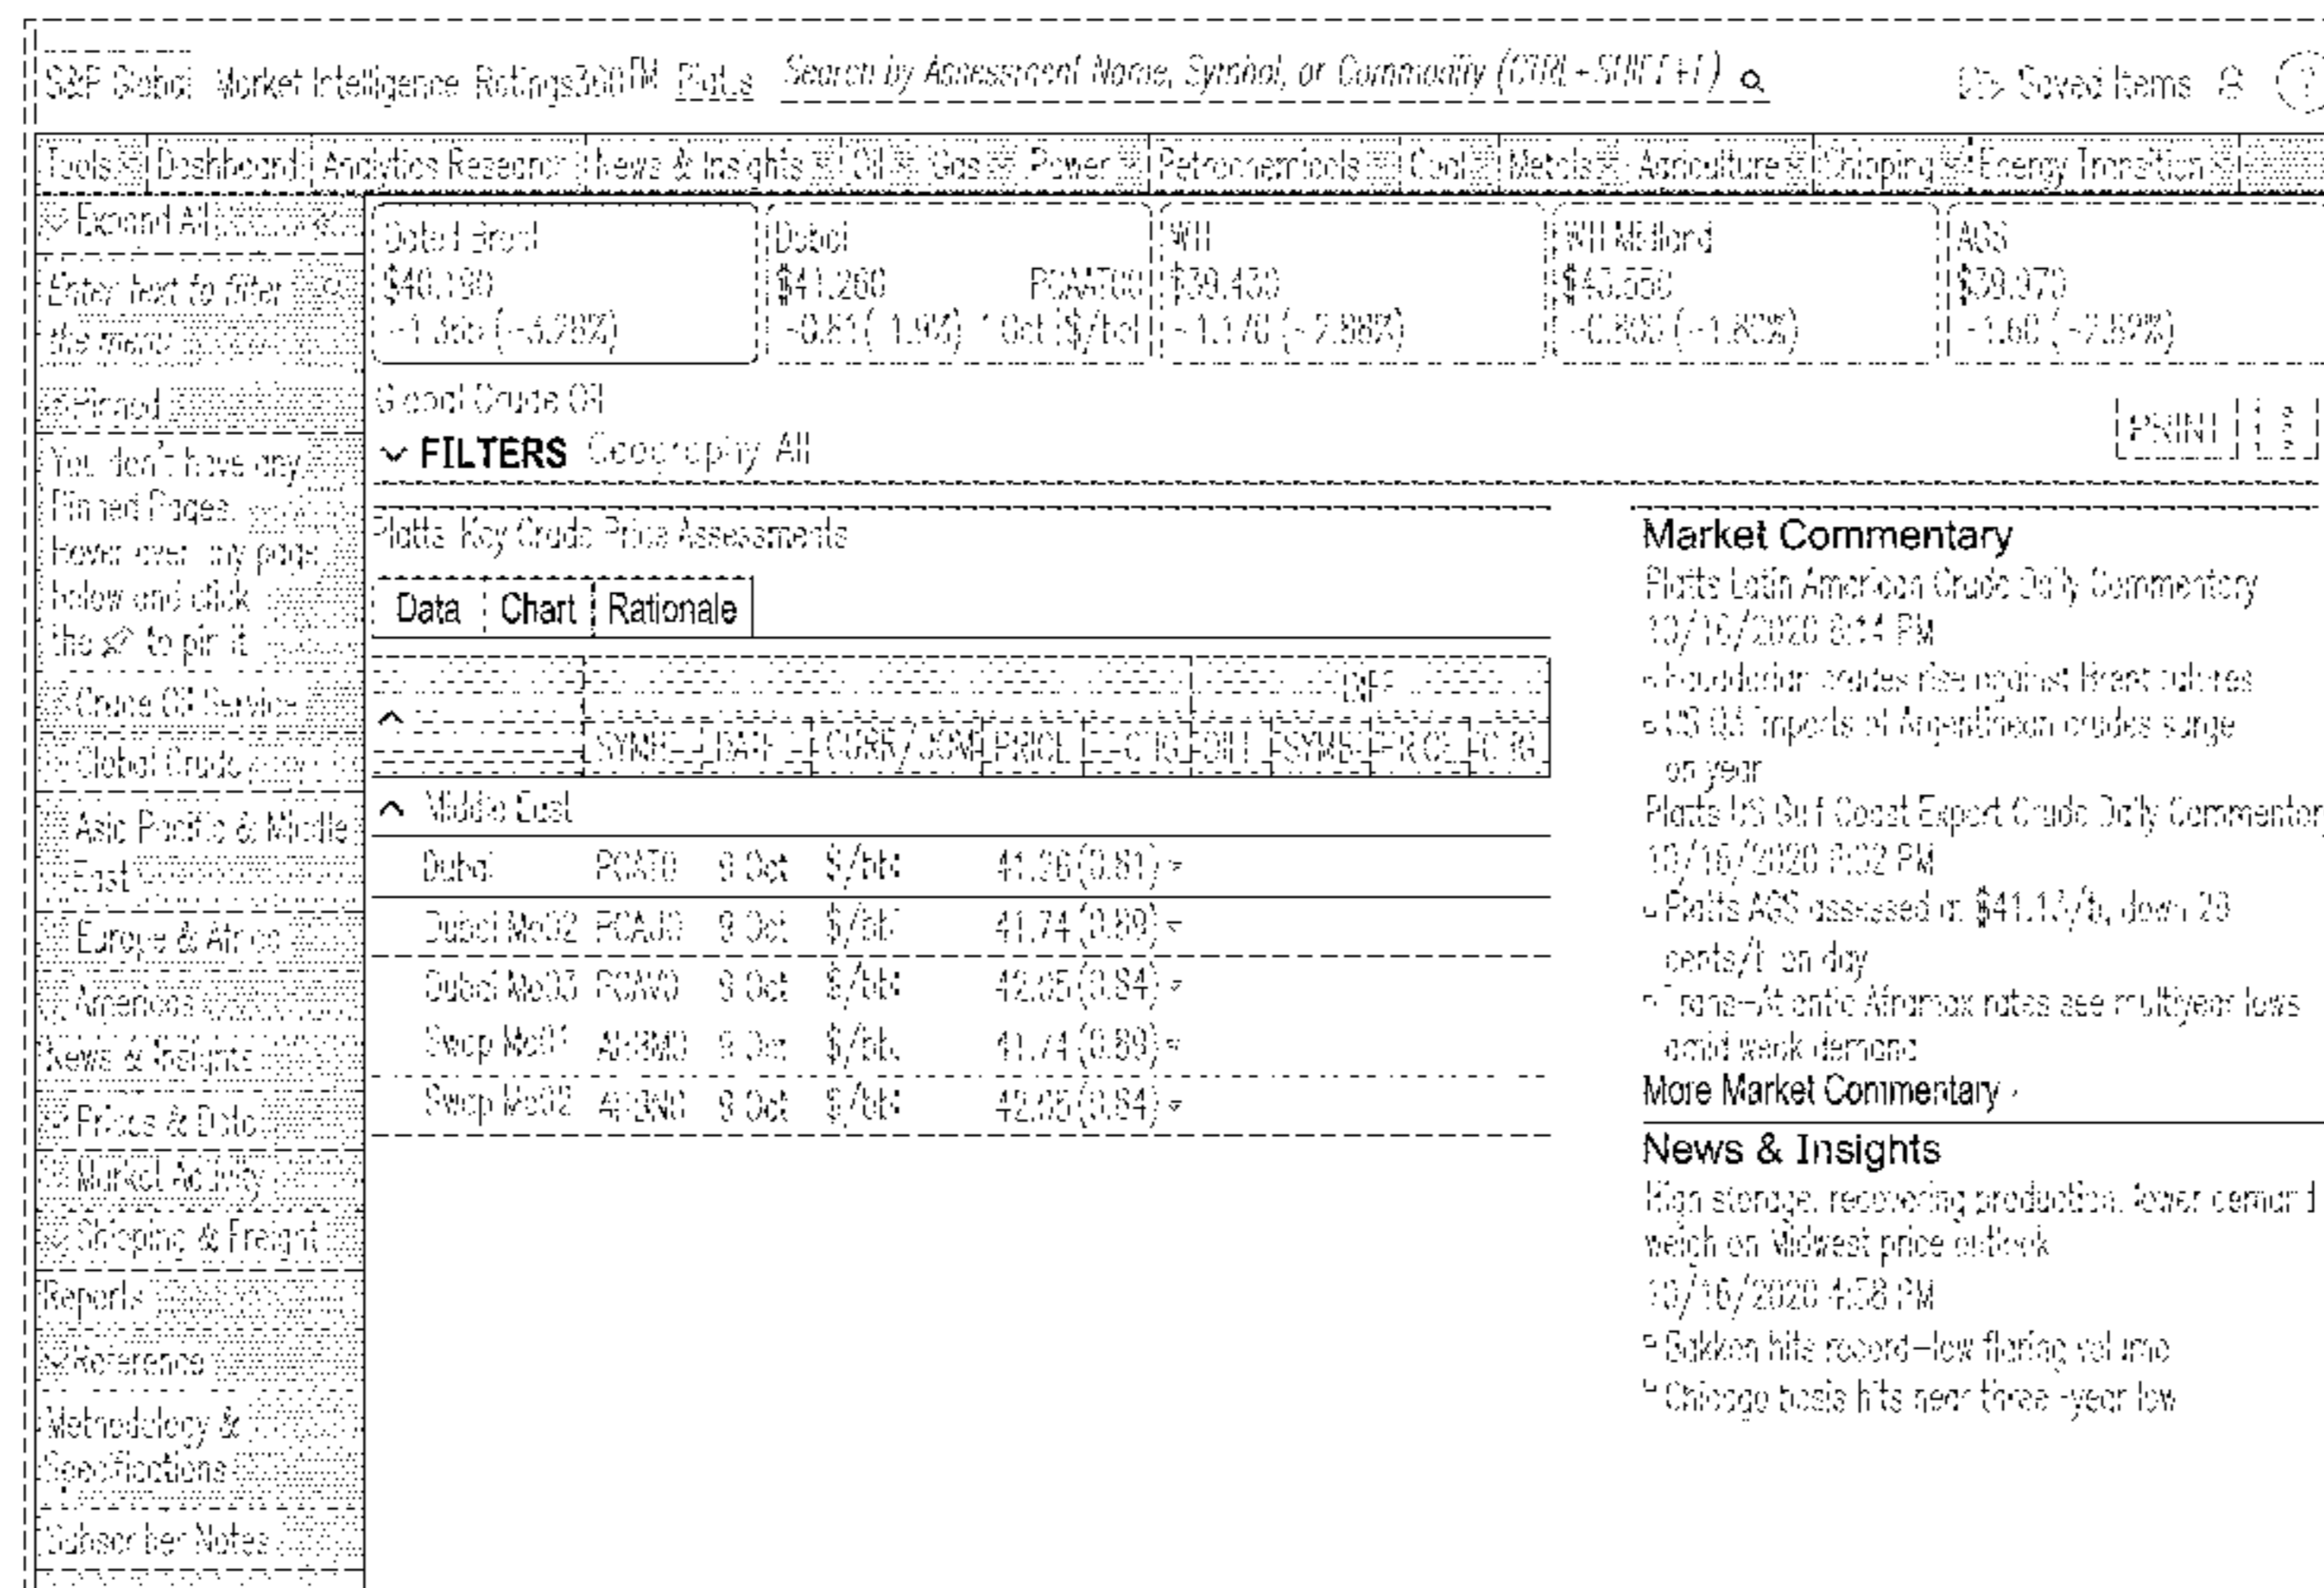

The outermost broken line showing of a display screen in all views is for the purpose of illustrating environment and forms no part of the claimed design. The broken lines of text, numbers, icons, and boxes demonstrating portions of a graphical user interface displayed on the display screen in all views form no part of the claimed design. The areas filled in with dotted pattern illustrate contrasting appearance representing a black background fill and form a part of the claimed design. The areas filled in with horizontal fill lines illustrate an additional contrasting appearance representing a gray background fill and form a part of the claimed design. The appearance of the image transitions between images shown in FIGS. 1 through 3. The process or period in which one image changes to another forms no part of the claimed design.
