(57) **CLAIM**

The ornamental design for a lighting fixture, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a lighting fixture showing the new design. This fixture has six-way, sixty degree overall rotational symmetry, and the canopy, stem candles, and center piece each have a circular horizontal cross-section. The opposed frame members form circular vertical cross-sections.

FIG. 2 is a bottom view of the lighting fixture of FIG. 1; and, FIG. 3 is a fragmentary side elevation view of the lighting fixture of FIG. 1 showing a portion of the centerpiece, one outer frame member, and one candle arm.

The dashed lines on the drawings depict portions of the lighting fixture that form no part of the claimed design. The interior of the centerpiece of the lighting fixture as illustrated with section lines in FIG. 3 forms no part of the claimed design. The dot-dash lines in FIG. 3 represent the locations on the fixture where the fragmentary view is cut.
