A portion of the disclosure of this patent document contains material which is subject to copyright protection. The copyright owner has no objection to the photocopy or facsimile reproduction by anyone of the patent document for the patent disclosure in exactly the form it appears in the U.S. Patent and Trademark Office patent file or records, but otherwise reserves all copyright rights whatsoever.

FIG. 1 is a front view of a first image in a sequence of a display screen or portion thereof with graphical user interface showing our new design; and, FIG. 2 is a front view of a second image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 to 2 and FIGS. 2 to 1. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The remaining broken lines, illustrating portions of the graphical user interface, form no part of the currently claimed design.
