(57) **CLAIM**

The ornamental design for a portable non-destructive test instrument, as shown and described.

DESCRIPTION

FIG. 1 is a first isometric view of a portable non-destructive test instrument, showing a side door in a closed position.

FIG. 2 is the first isometric view of the portable non-destructive test instrument, showing the side door in an open position.

FIG. 3 is a second isometric view of the portable non-destructive test instrument, showing the side door in the closed position.

FIG. 4 is the second isometric view of the portable non-destructive test instrument, showing the side door in the open position.

FIG. 5 is a front view of the portable non-destructive test instrument, showing the side door in the open position.

FIG. 6 is a back view of the portable non-destructive test instrument, showing the side door in the open position.

FIG. 7 is a right side view of the portable non-destructive test instrument, showing the side door in the open position.

FIG. 8 is a left side view of the portable non-destructive test instrument, showing the side door in the open position.

FIG. 9 is the left side view of the portable non-destructive test instrument, showing the side door in the closed position.

FIG. 10 is a top view of the portable non-destructive test instrument, showing the side door in the open position; and,

FIG. 11 is a bottom view of the portable non-destructive test instrument, showing the side door in the open position.

(Continued)

The broken lines illustrate unclaimed or environmental subject matter, and the broken lines form no part of the claimed design.

1 Claim, 10 Drawing Sheets
