(57) **CLAIM**

The ornamental design for an electronic device display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of an electronic device display screen with transitional graphical user interface according to the claimed design;

FIG. 2 is a front view of the second image thereof;

FIG. 3 is a front view of the third image thereof;

FIG. 4 is a front view of the second embodiment of an electronic device display screen with transitional graphical user interface according to the claimed design;

FIG. 5 is a front view of the second image thereof; and,

FIG. 6 is a front view of the third image thereof.

The broken line showing of the display screen in all views forms no part of the claimed design.

The appearance of the transition is sequential from FIG. 1 to FIG. 3 in the first embodiment, from FIG. 4 to FIG. 6 in the second embodiment. The process or period in which an image transitions to another image forms no part of the claimed design.
