(57) **CLAIM**

The ornamental design for a display screen with a machine learning graphical user interface, as shown and described.

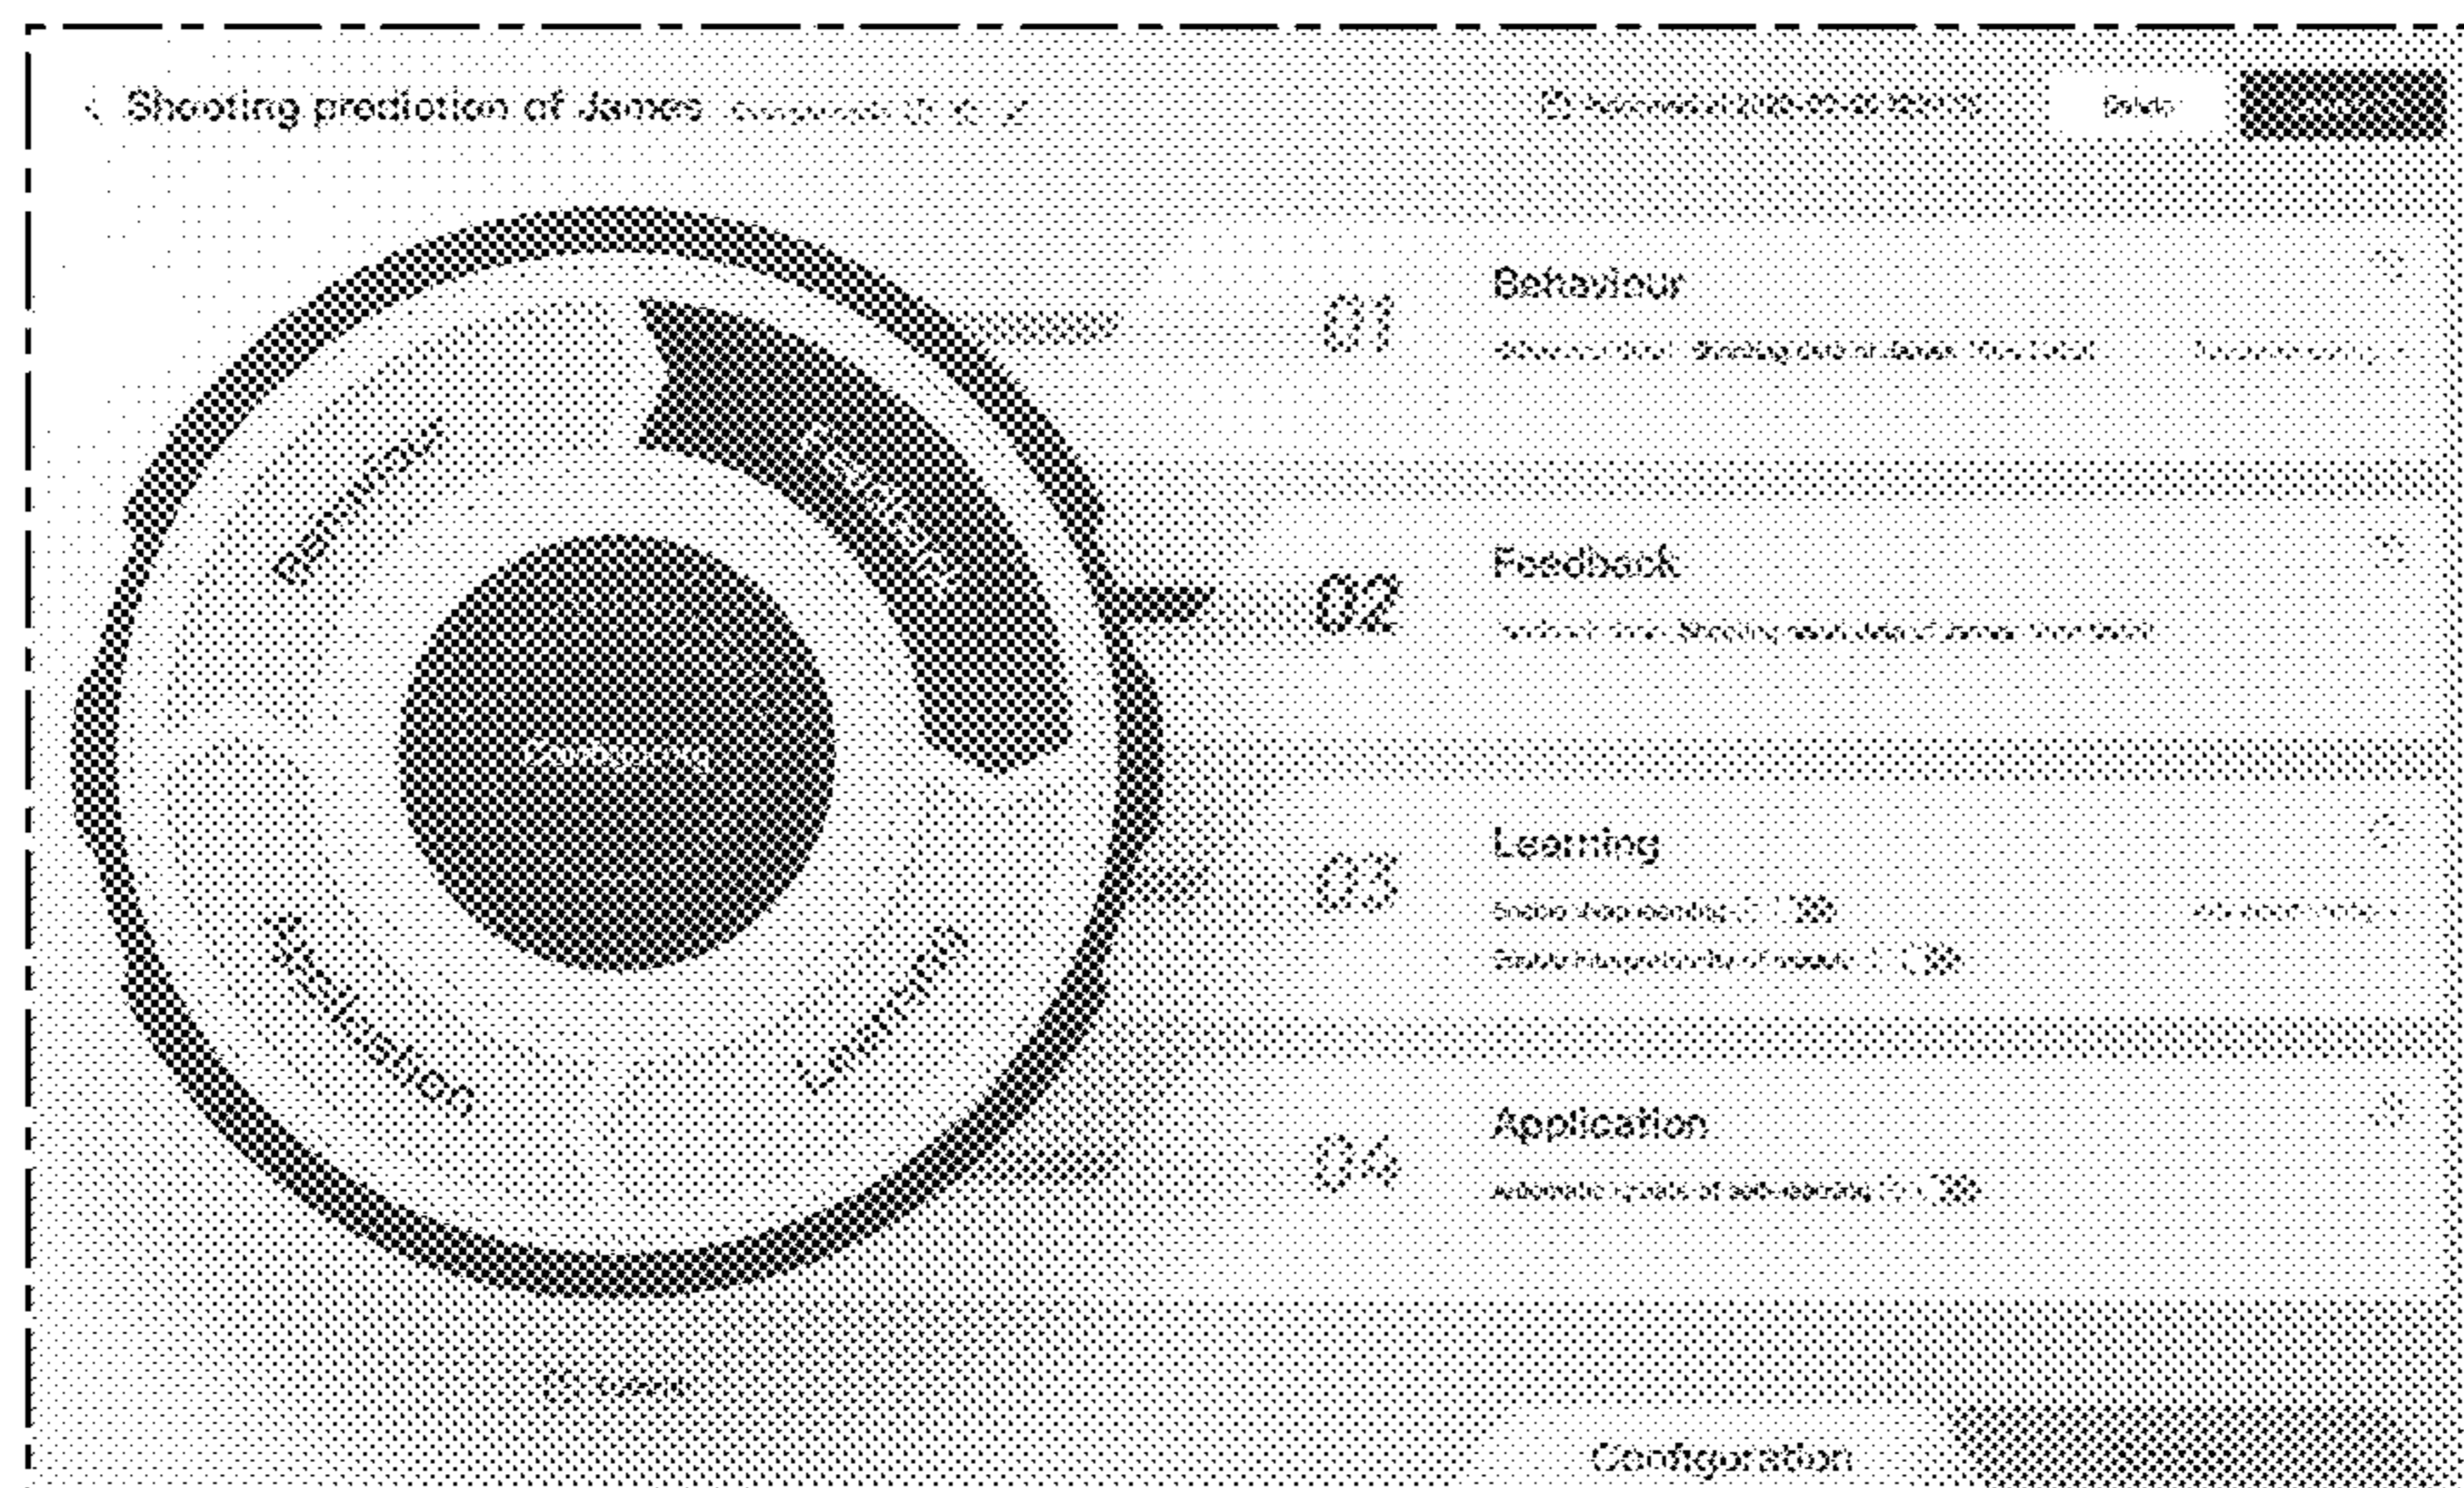

**DESCRIPTION**

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

Fig. 1 is a front view of a display screen with a machine learning graphical user interface, showing our new design. The long dash-short dash lines indicate the boundary of the display screen.

The long dash-short dash lines indicate the boundary of the underlying display screen and form no part of the claimed design.
