(57) **CLAIM**

The ornamental design for a signage layering pin, as shown and described.

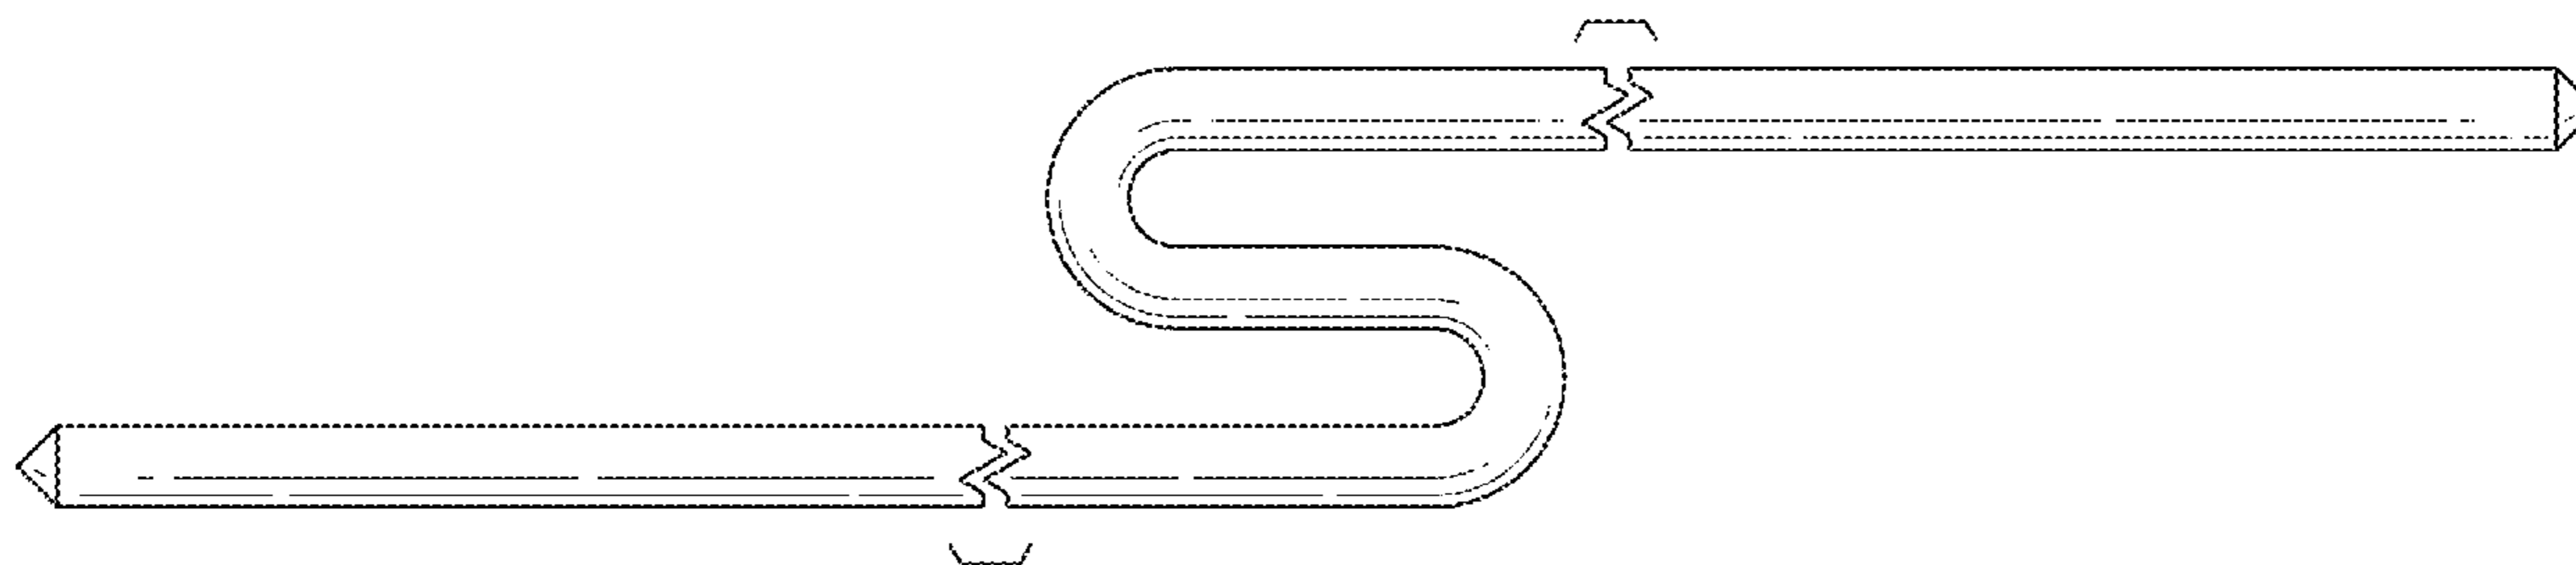

DESCRIPTION

FIG. 1 is a front left top perspective view of the signage layering pin, showing our new design; FIG. 2 is a front elevation view thereof; FIG. 3 is a rear elevation view thereof; FIG. 4 is a left side elevation view thereof; FIG. 5 is a right side elevation view thereof; FIG. 6 is a top plan view thereof; and, FIG. 7 is a bottom plan view thereof.

The claimed signage layering pin can be used as a vertical fastener between two or more signs to be stacked, with the ends of the signage layering pin each being insertable into a flute of a sign.

The signage layering pin is shown with symbolic breaks in its length. The appearance of any portion of the signage layering pin between the break lines forms no part of the claimed design.
