(57) **CLAIM**

The ornamental design for an electronic device with transi-
tional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of an electronic device with transi-
tional graphical user interface showing a first image in a
sequence, showing our new design in a state that the
electronic device is unfolded;

FIG. 2 is a front view showing a second image thereof,
shown in a state that the electronic device is partially folded
inward;

FIG. 3 is a perspective view of FIG. 1;

FIG. 4 is a perspective view of FIG. 2;

FIG. 5 is a right-side view of FIG. 1; and,

FIG. 6 is a right-side view of FIG. 2.

The outermost broken lines illustrating portions of an elec-
tronic device form no part of the claimed design. The
remainder of the broken lines illustrating portions of the
graphical user interface forms no part of the claimed design.
The appearance of the transitional graphical user interface
sequentially transitions between the images shown in FIGS.
1-2. The process or period in which one image transitions to
another image forms no part of the claimed design.
