(57) **CLAIM**

I claim the ornamental design for a display screen with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with a graphical user interface showing a first image in a sequence of my new design;

FIG. 2 is a second image thereof; and,

FIG. 3 is a third image thereof.

The broken line showing of all of the text except for “Last accessed:” in FIG. 1, the face in the circle and the square boxes representing icons is for the purpose of illustrating portions of the graphical user interface and forms no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
