(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with animated graphical user interface of a first image in a sequence, showing my new design;

FIG. 2 is a front view of a display screen with animated graphical user interface of a second image thereof; and, FIG. 3 is a front view of a display screen with animated graphical user interface of a third image thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-3. The broken lines depict environmental subject matter only and form no part of the claim. The process or period in which one image transitions to another image forms no part of the claimed design. The outer peripheral broken lines represent a display screen or portion thereof and form no part of the claimed design.
