(Continued)

FIG. 1 is a first view of a first embodiment of a display panel of a programmed computer system with a graphical user interface;

FIG. 2 is a second view thereof;

FIG. 3 is a first view of a second embodiment of a display panel of a programmed computer system with a graphical user interface; and,

FIG. 4 is a second view thereof.

The outermost broken line showing an electronic device illustrates environment and forms no part of the claimed design. The broken lines within the display screen illustrate portions of the graphical user interface that form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2 and FIGS. 3-4. The process or period in which one image transitions to another forms no part of the claimed design.
