(57) **CLAIM**

The ornamental design for a display screen or portion thereof with set of graphical user interfaces, as shown and described.

**DESCRIPTION**

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

The sole FIGURE is a front view of two portions of a display screen or portion thereof with set of graphical user interfaces showing the claimed design.

The peripheral dashed broken lines illustrate the perimeters of two portions of the display screen and form no part of the claimed design.

The bracket indicates a set; the bracket itself forms no part of the claimed design. The elements of the set are arranged relatively on the drawing sheet for the convenience of illustration, and the placement of each element relative to another, or to the drawing sheet, forms no part of the claimed design.

The claim is directed to the collective appearance of the set of graphical user interfaces.
