(57) **CLAIM**

(30) **Foreign Application Priority Data**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

Sep. 22, 2020 (CN) 202030566364.2

(51) **LOC (13) Cl.** **14-04**

DESCRIPTION

(52) **U.S. Cl.**
USPC **D14/488**

FIG. 1 is a master front view of a display screen with transitional graphical user interface according to my new design.

The outermost parallel broken lines depict an electronic device with display screen and form no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.

FIGS. 1-3 show a change in size of an electronic device with display screen. The graphical user interface on the display screen responds to the change in size. The process or period in which one image transitions to another image forms no part of the claimed design.
