(57) **CLAIM**

The ornamental design for an electronic device or portion thereof with animated graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image in a sequence for an electronic device or portion thereof with animated-graphical user interface showing our new design; and,

FIG. 2 is a second image thereof.

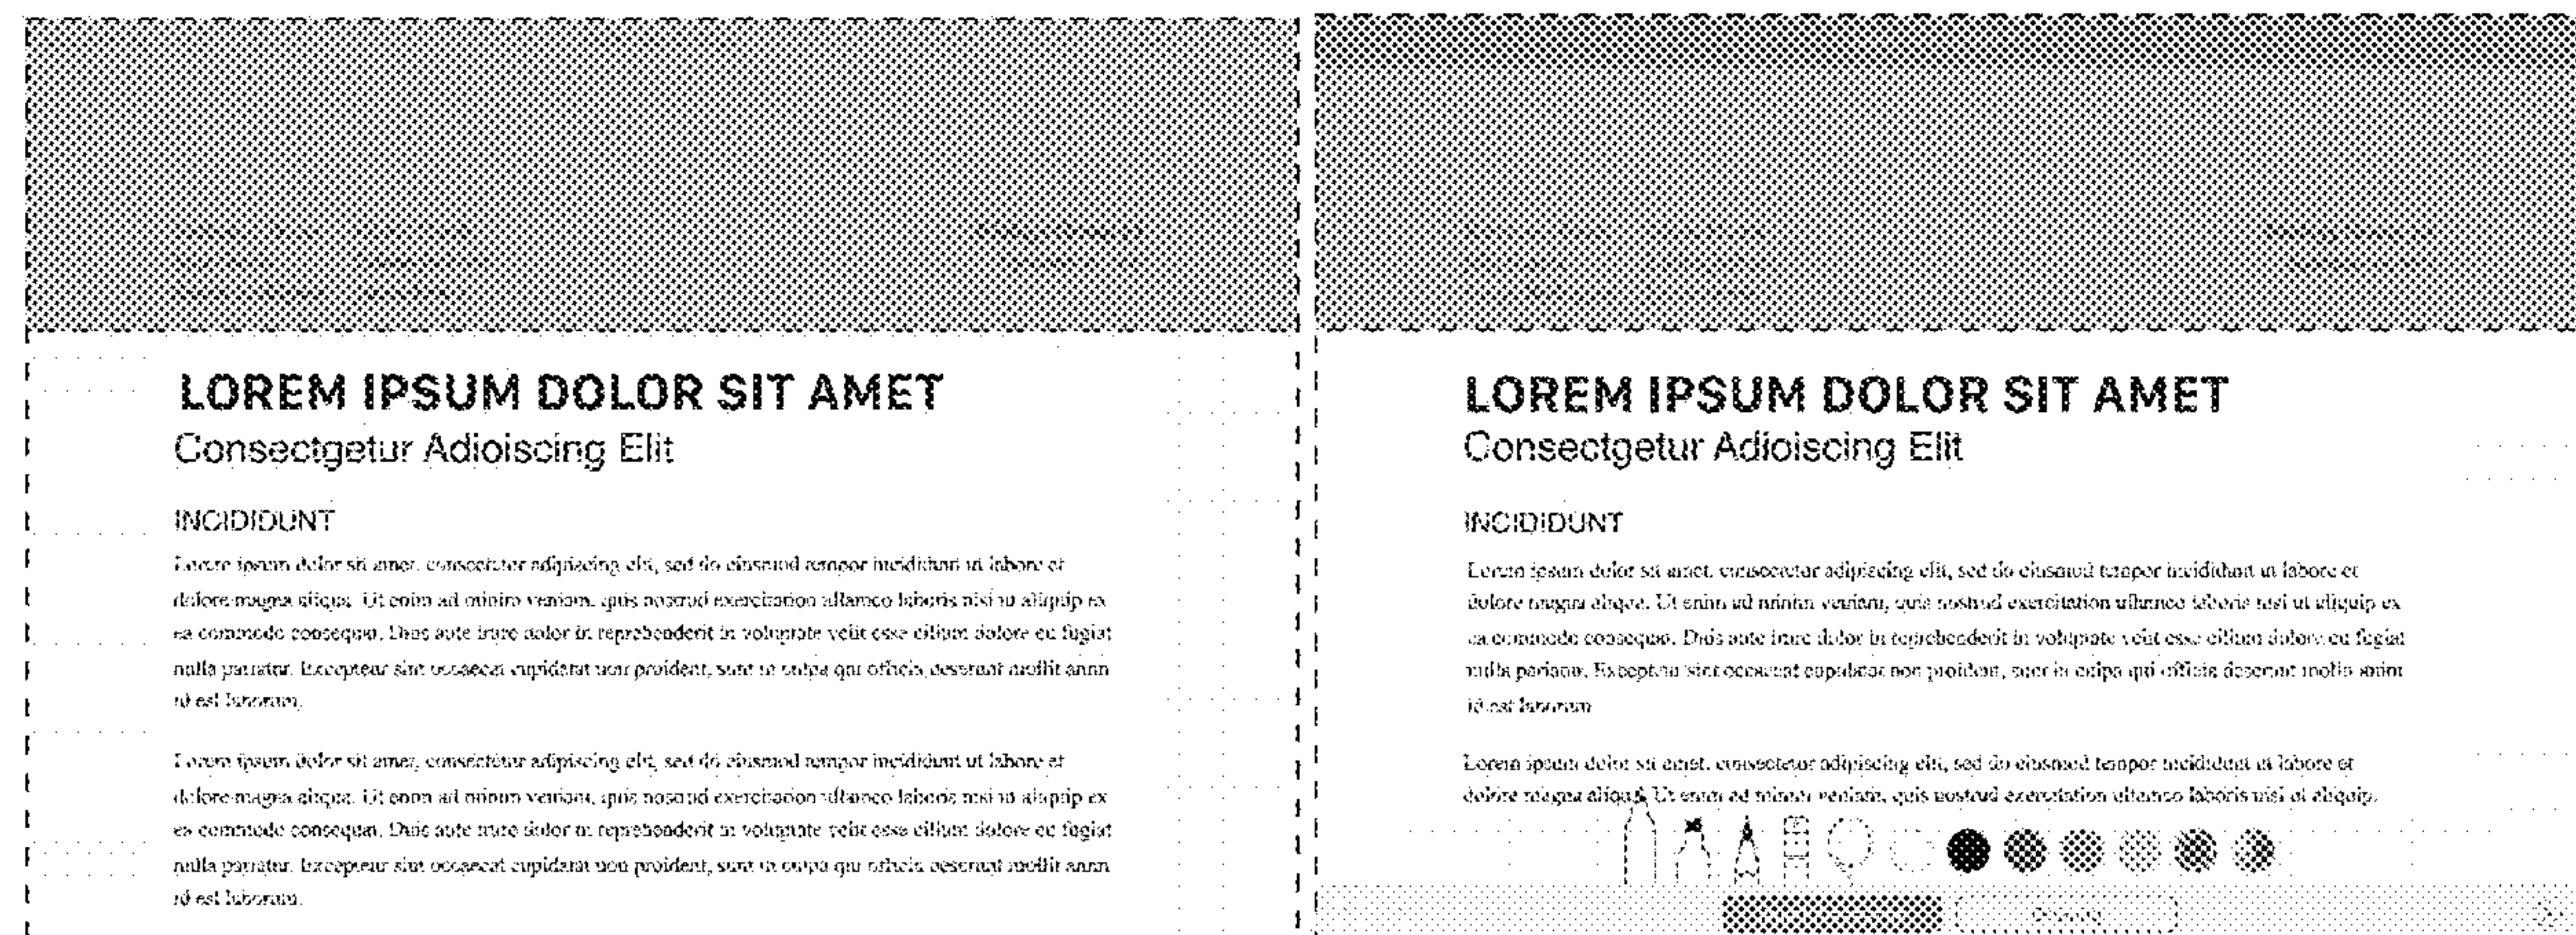

The peripheral dashed broken lines illustrate a display screen or portion thereof, and form no part of the claimed design.

The horizontal dashed broken line within the peripheral dashed broken lines illustrate the upper boundary of the claimed design and forms no part of the claimed design. The portion of the graphical user interface above the boundary illustrated in faded gray forms no part of the claimed design.

The remaining broken lines illustrate portions of the graphical user interface and form no part of the claimed design.

The appearance of the graphical user interface transitions sequentially between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design.
