(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface for media playback control, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a display screen or portion thereof with graphical user interface for media playback control showing a first image in a sequence;

FIG. 2 is a front elevational view of the display screen or portion thereof with graphical user interface for media playback control showing a second image in the sequence;

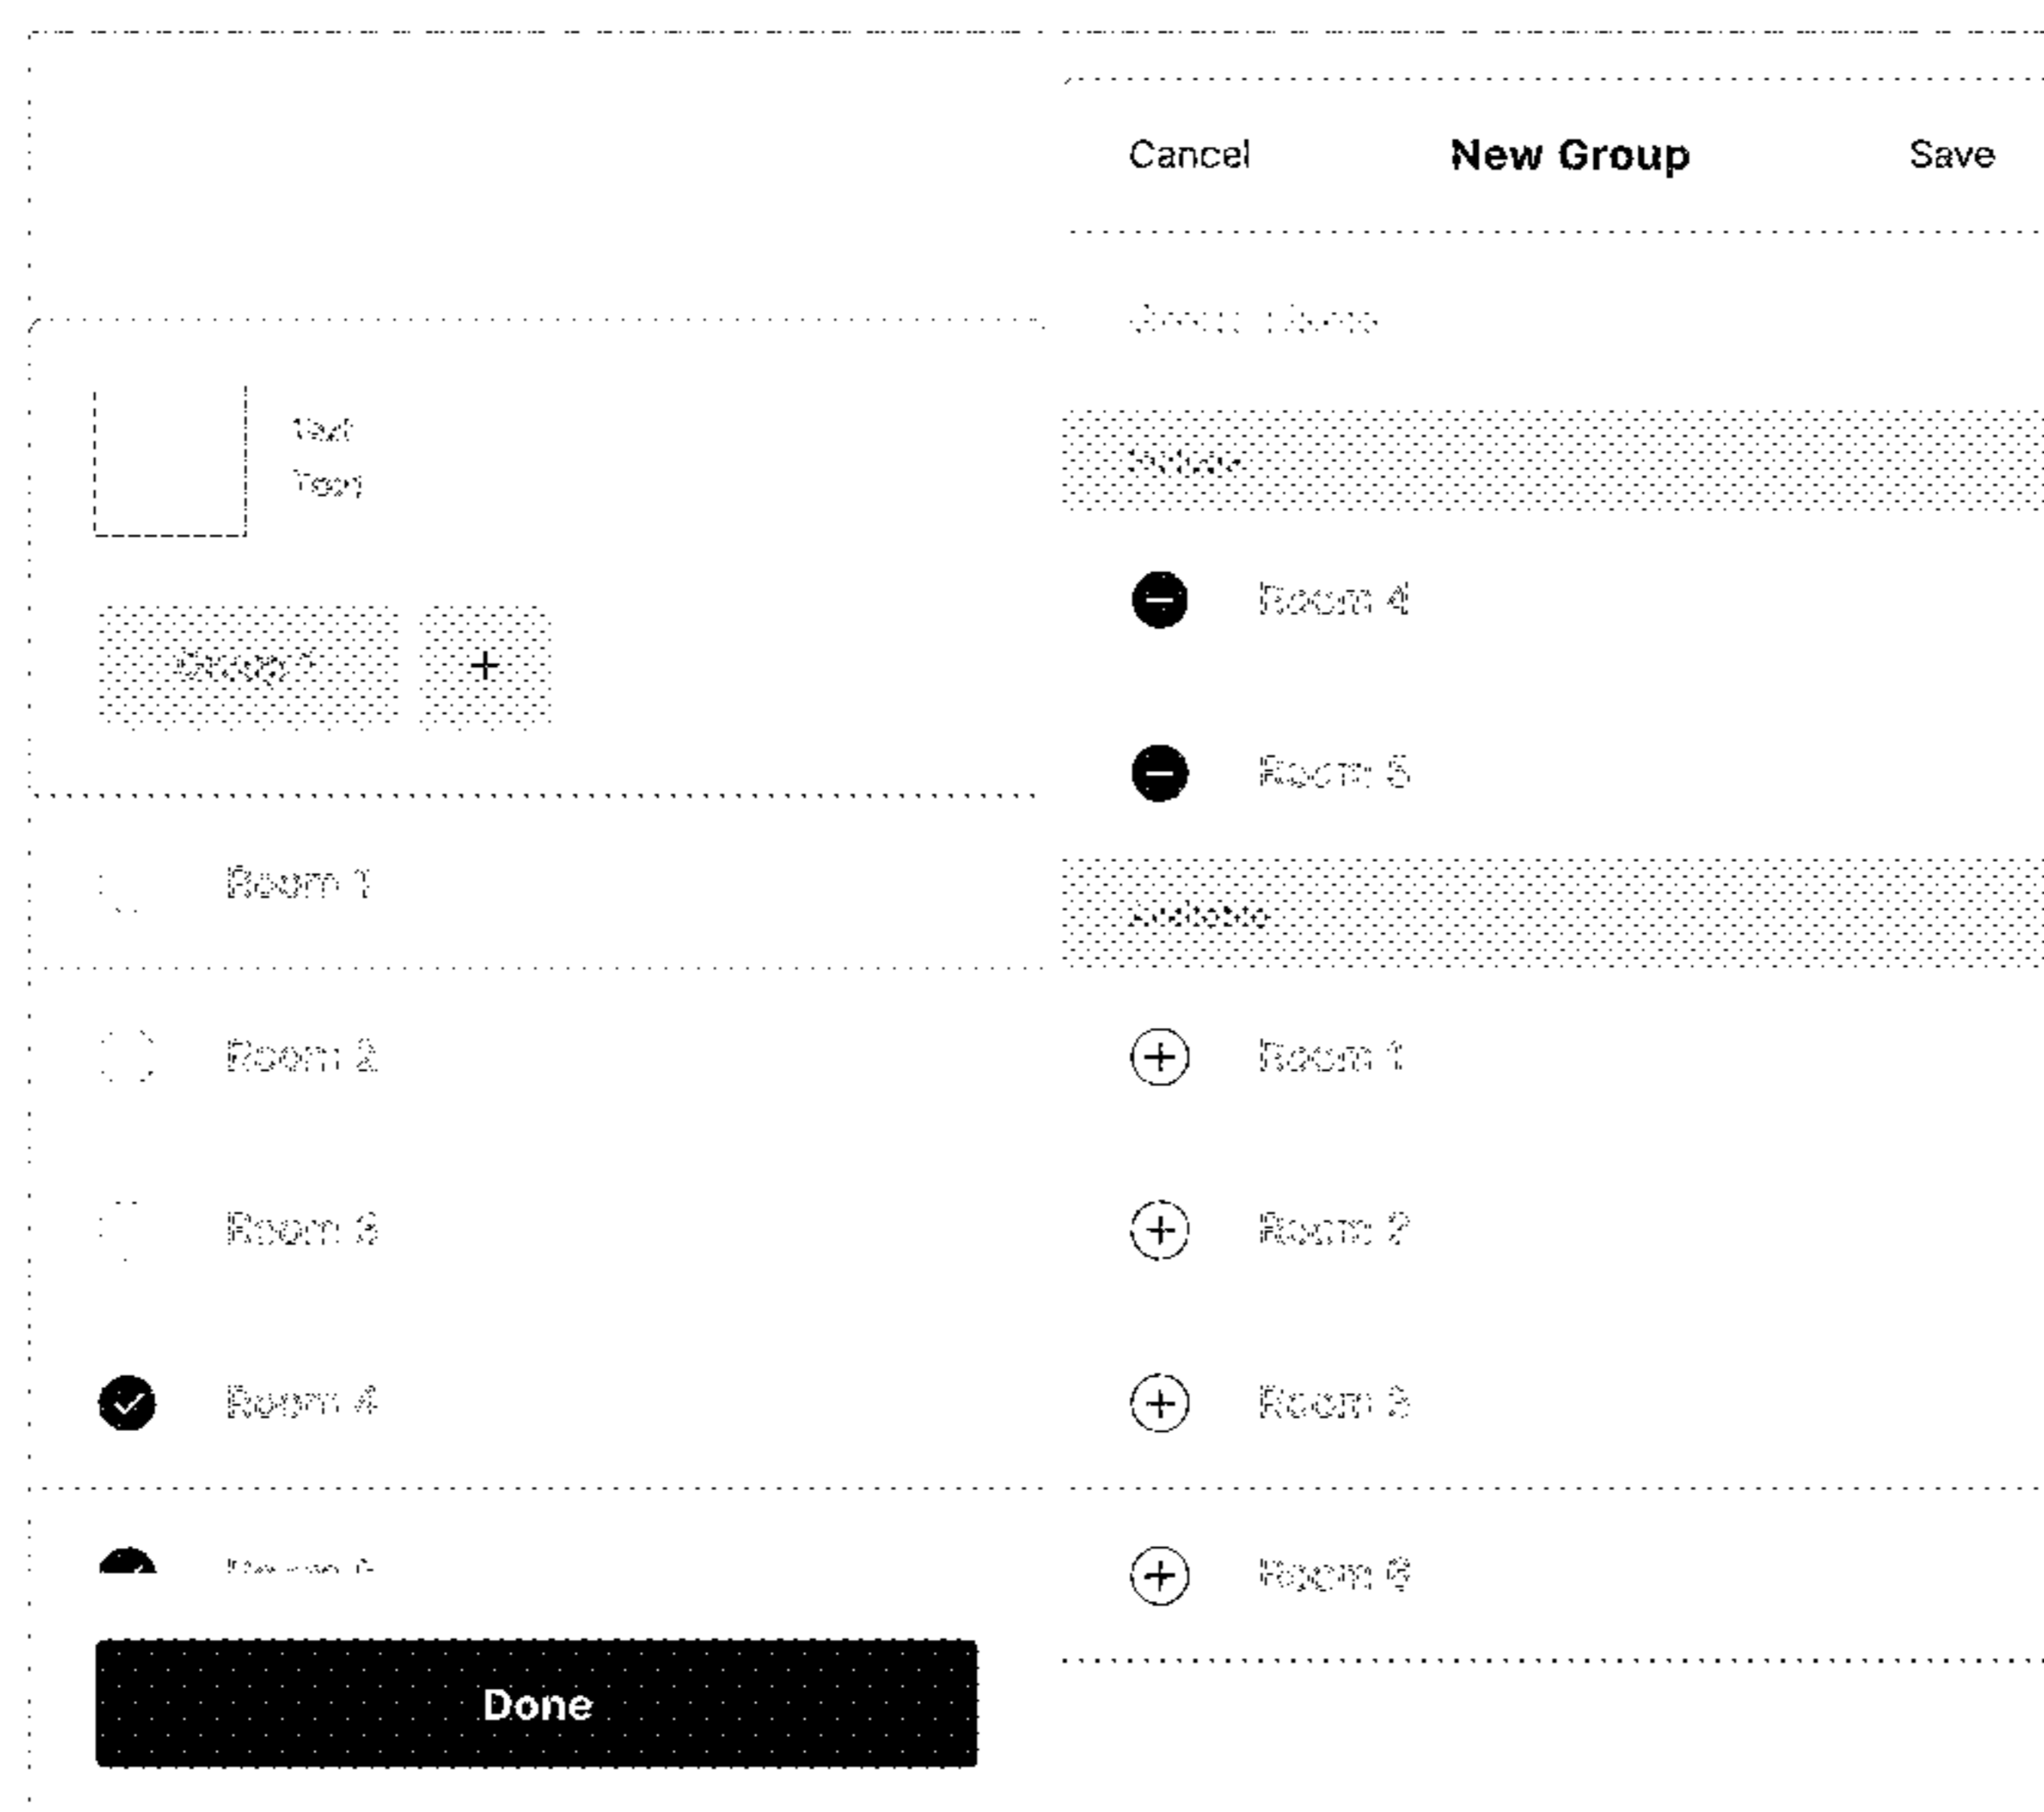

FIG. 3 is a front elevational view of the display screen or portion thereof with graphical user interface for media playback control showing a third image in the sequence; and,

FIG. 4 is a front elevational view of the display screen or portion thereof with graphical user interface for media playback control showing a fourth image in the sequence.

The dot-dash broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The dashed broken lines illustrate portions of the graphical user interface and form no part of the claimed design.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-4. The process or period in which one image transitions to another forms no part of the claimed design.
