(57) **CLAIM**

The ornamental design for a wheel assembly with contrasting color ring, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front, and right-side perspective view of a wheel assembly with contrasting color rings with portions disclaimed, embodying the new design; FIG. 2 is a bottom, back, and left side perspective view thereof; FIG. 3 is a front view thereof; FIG. 4 is a back view thereof; FIG. 5 is a left-side view thereof; FIG. 6 is a right-side view thereof; FIG. 7 is a top view thereof; and, FIG. 8 is a bottom view thereof.

Broken lines, where utilized, are for illustrative purposes only, form no part of the claimed design. All features illustrated in broken line are expressly disclaimed and form no part of the claimed design.

Additionally, some portions of some embodiments are illustrated with solid black surface shading for indicating that such portions have a contrasting color relative to the portions adjacent thereto, the portions illustrated with such solid black surface shading being either darker or lighter to the adjacent portions that have no surface shading.
