(57) **CLAIM**

The ornamental design for a display screen or portion thereof having an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof having an animated graphical user interface showing a first image;

FIG. 2 is a front view of the display screen or portion thereof having the animated graphical user interface showing a second image;

FIG. 3 is a front view of the display screen or portion thereof having the animated graphical user interface showing a third image;

FIG. 4 is a front view of the display screen or portion thereof having the animated graphical user interface showing a fourth image;

FIG. 5 is a front view of the display screen or portion thereof having the animated graphical user interface showing a fifth image;

FIG. 6 is a front view of the display screen or portion thereof having the animated graphical user interface showing a sixth image;

FIG. 7 is a front view of the display screen or portion thereof having the animated graphical user interface showing a seventh image;

FIG. 8 is a front view of a display screen or portion thereof having an animated graphical user interface showing an eighth image;

FIG. 9 is a front view of the display screen or portion thereof having the animated graphical user interface showing a ninth image;

FIG. 10 is a front view of the display screen or portion thereof having the animated graphical user interface showing a tenth image;

FIG. 11 is a front view of the display screen or portion thereof having the animated graphical user interface showing an eleventh image;

FIG. 12 is a front view of the display screen or portion thereof having the animated graphical user interface showing a twelfth image;

FIG. 13 is a front view of the display screen or portion thereof having the animated graphical user interface showing a thirteenth image;

FIG. 14 is a front view of the display screen or portion thereof having the animated graphical user interface showing a fourteenth image;

FIG. 15 is a front view of the display screen or portion thereof having the animated graphical user interface showing a fifteenth image;

(Continued)

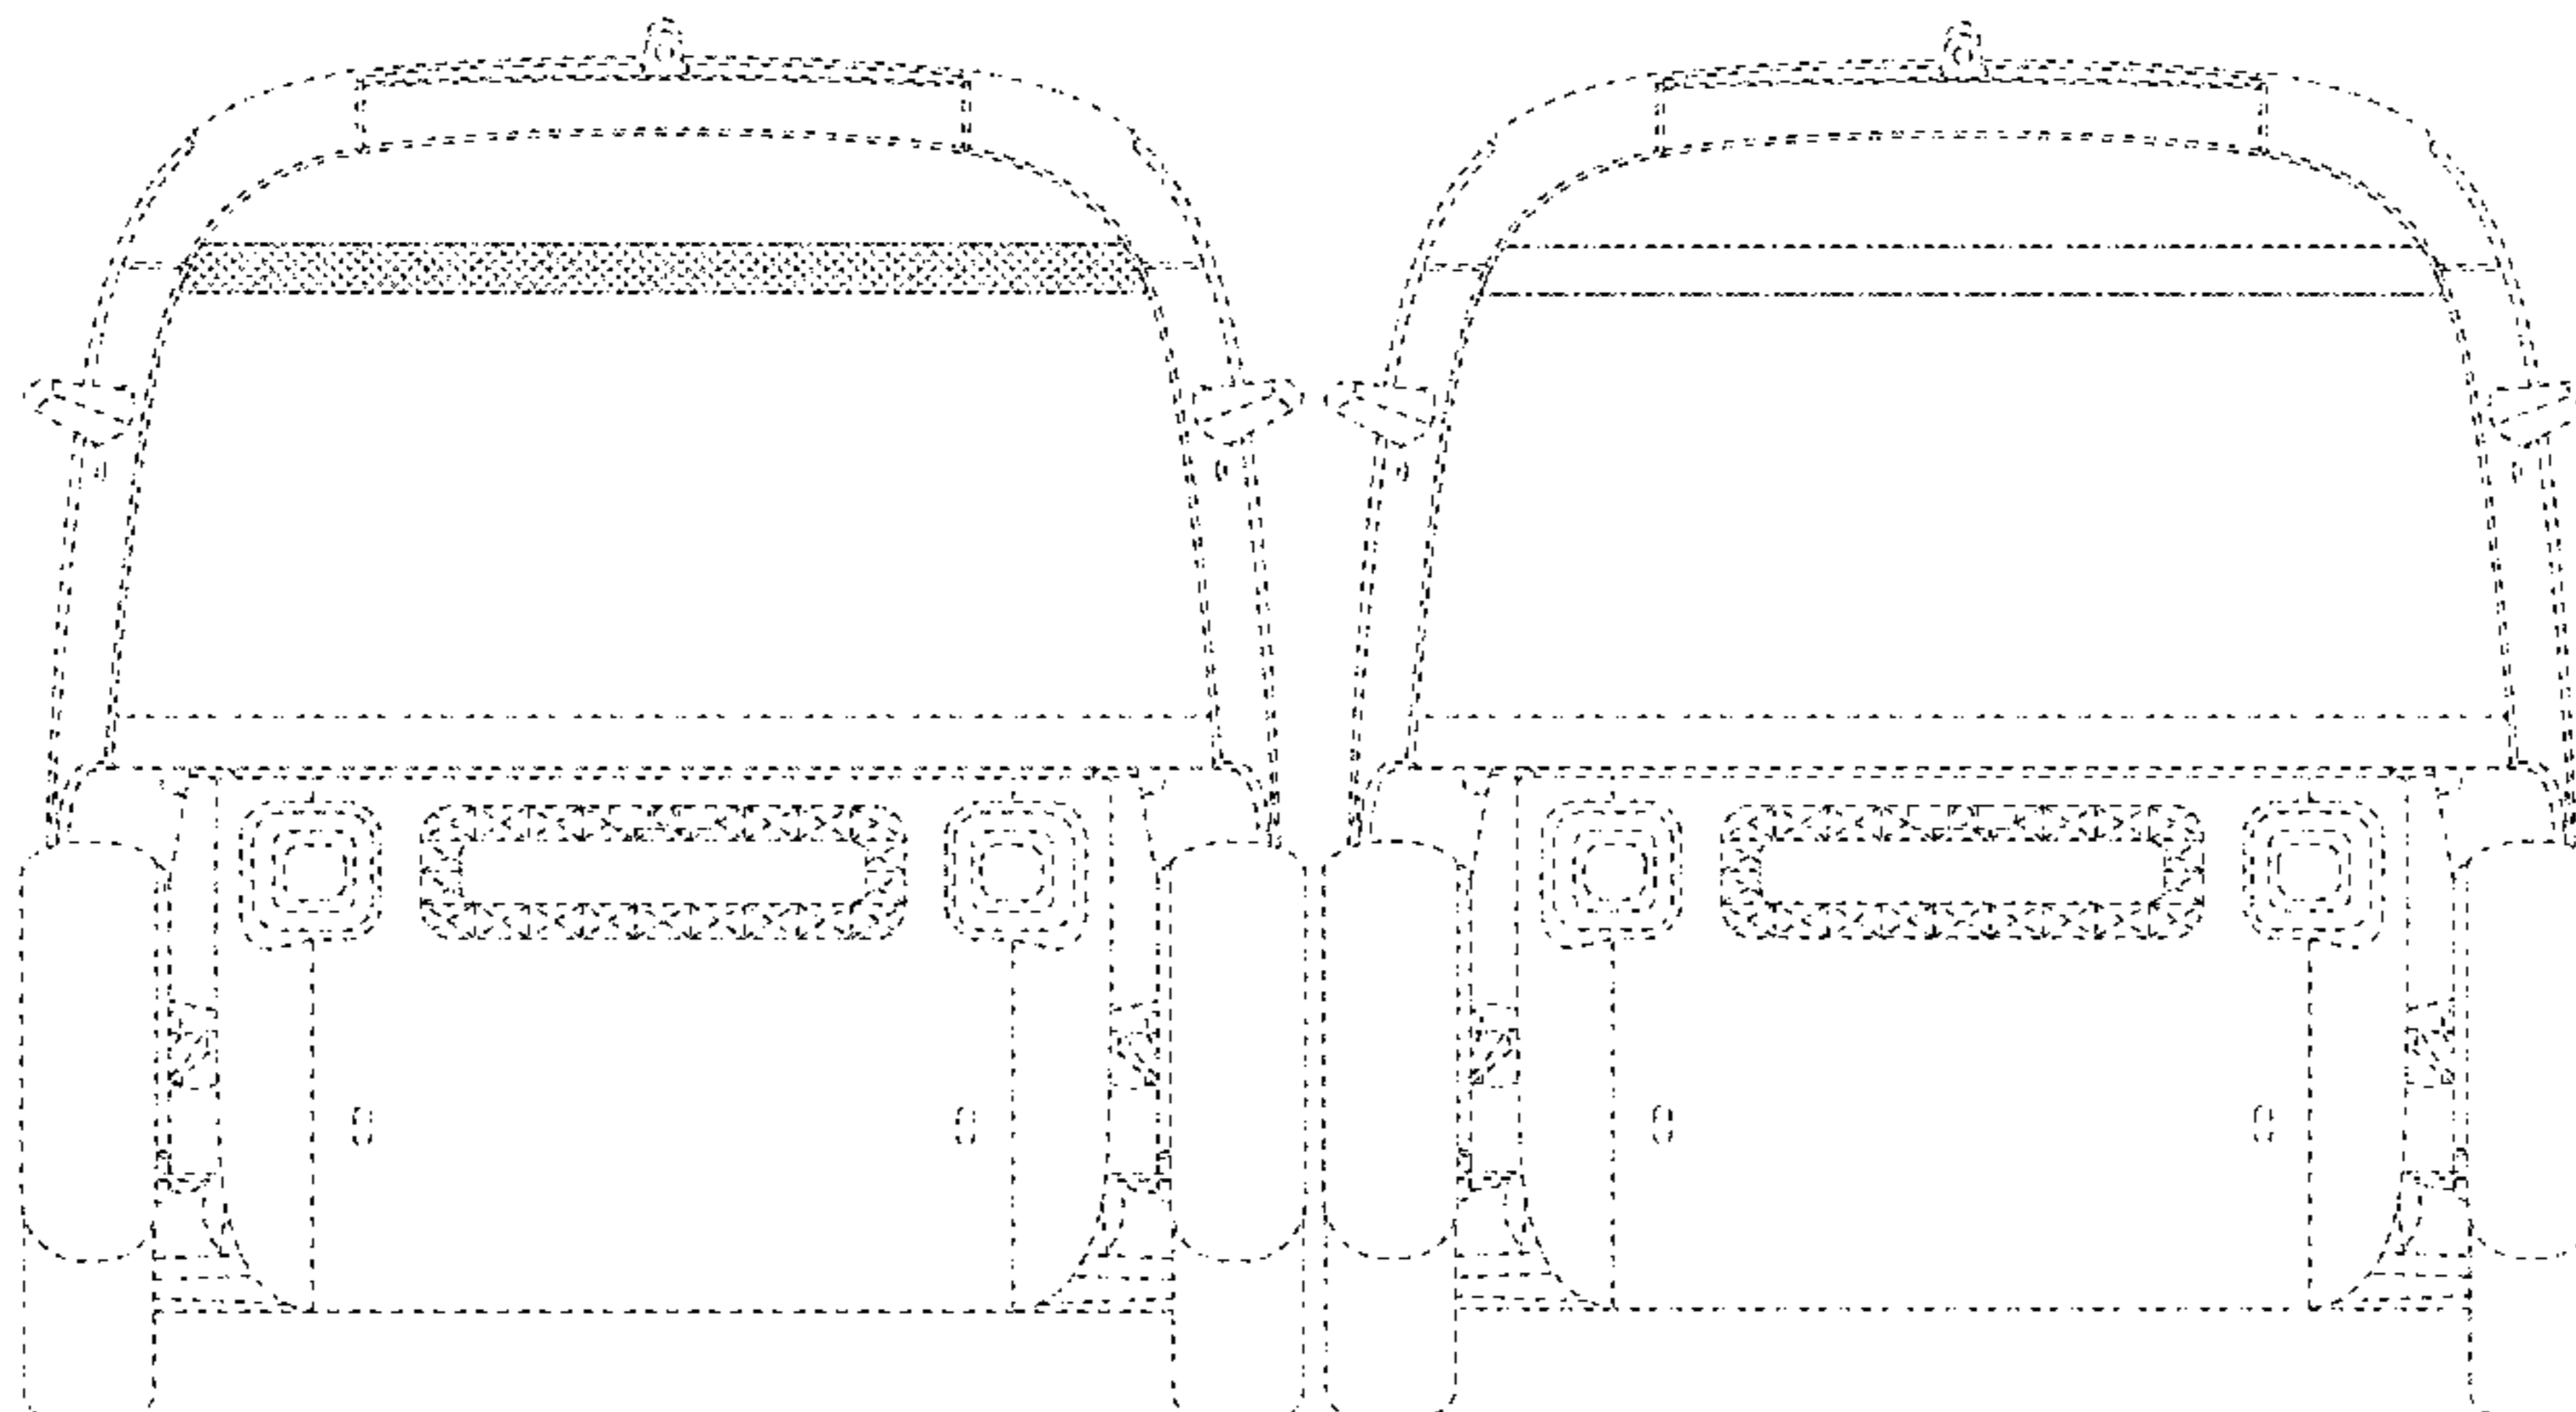

FIG. 16 is a front view of the display screen or portion thereof having the animated graphical user interface showing a sixteenth image; and,

FIG. 17 is a front view of the display screen or portion thereof having the animated graphical user interface showing a seventeenth image.

The appearance of the animated graphical user interface transitions sequentially between FIGS. 1 to 17. The process or period in which one image transitions to another forms no part of the claimed design.

The dot-dashed broken lines depict a boundary of the display screen or portion thereof and form no part of the claimed design. The dashed broken lines depict portion of the display screen and example environment of the display screen that forms no part of the claimed design.
