(57) CLAIM

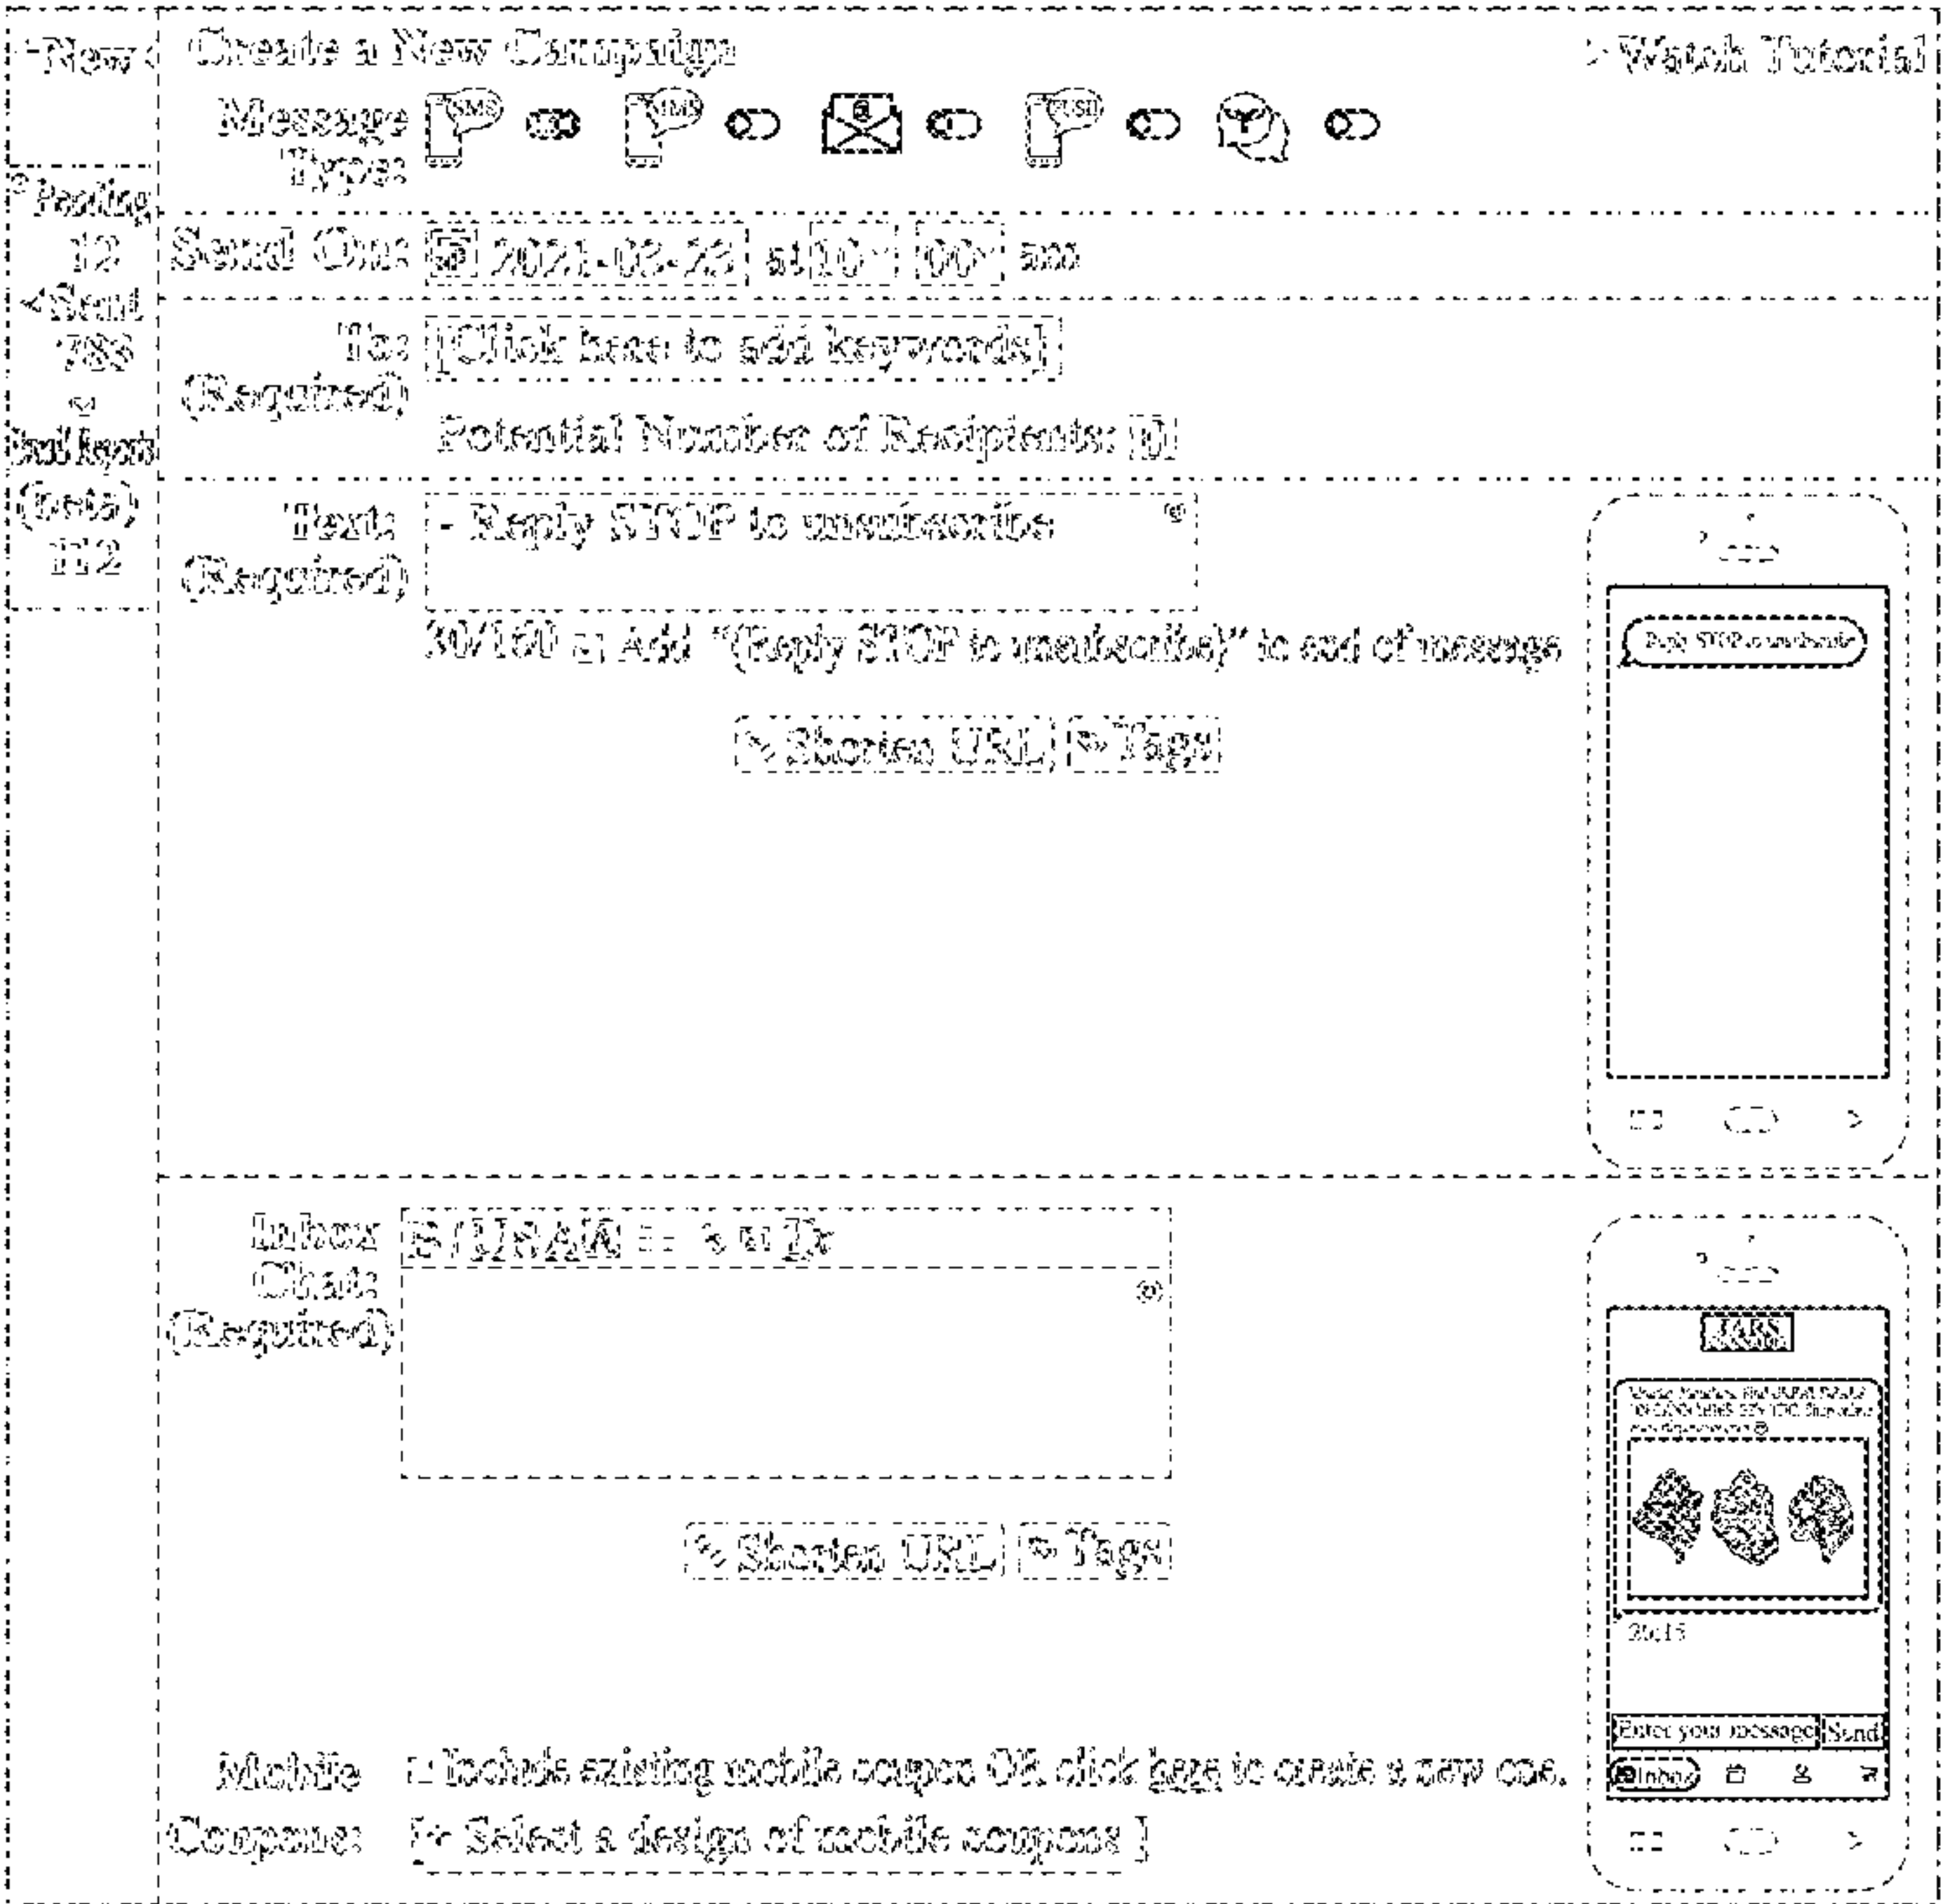

The ornamental design for a computing device display screen with graphical user interface for generating an omni-channel message, as shown and described.

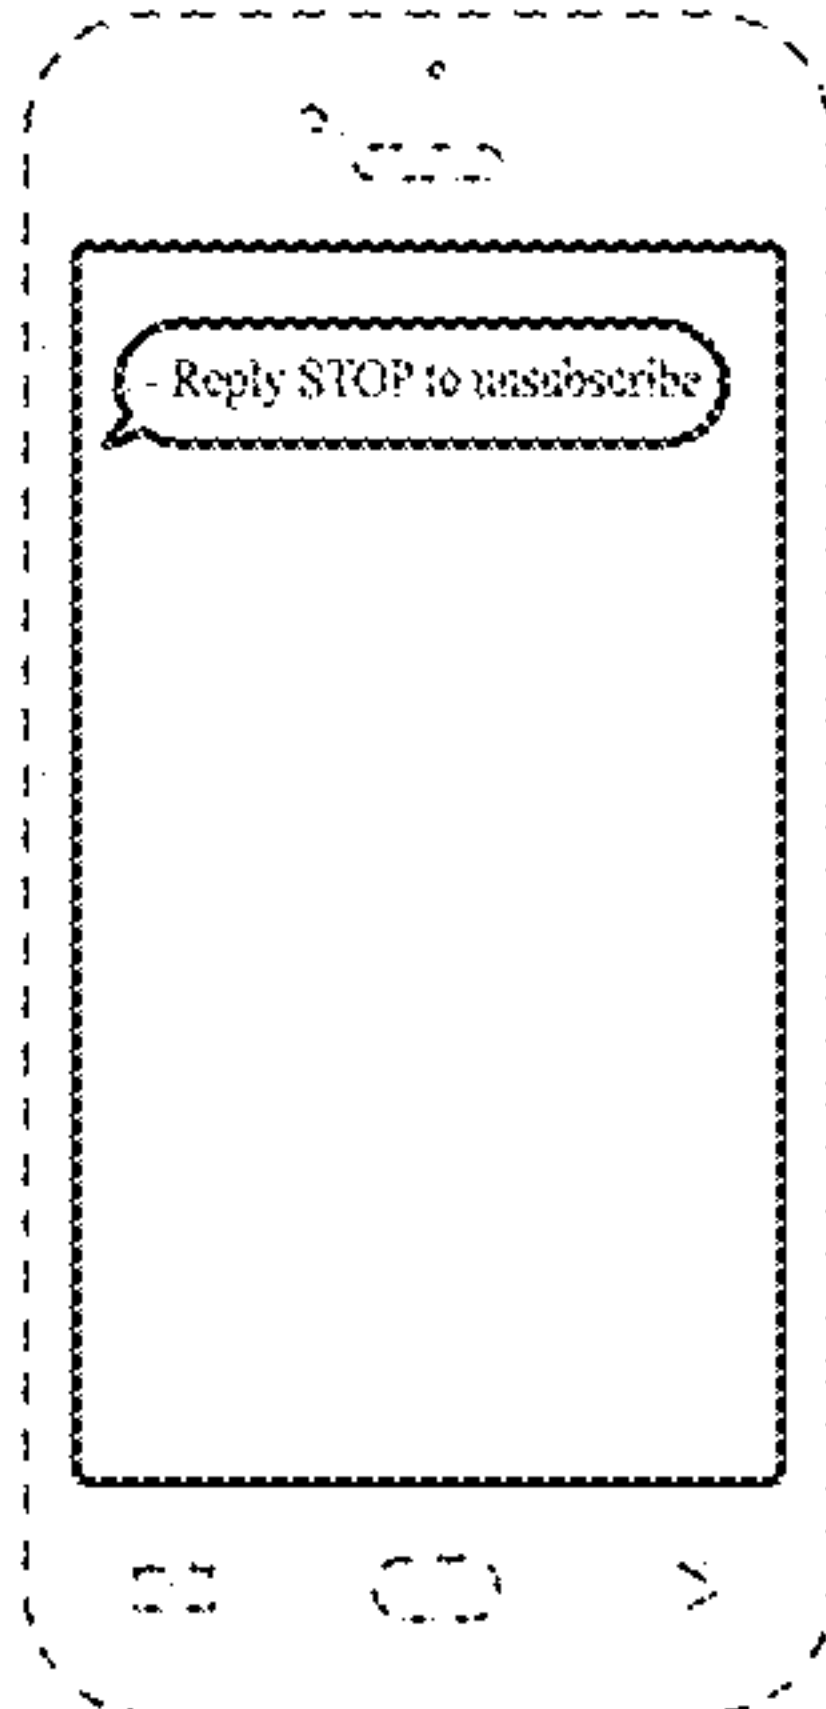

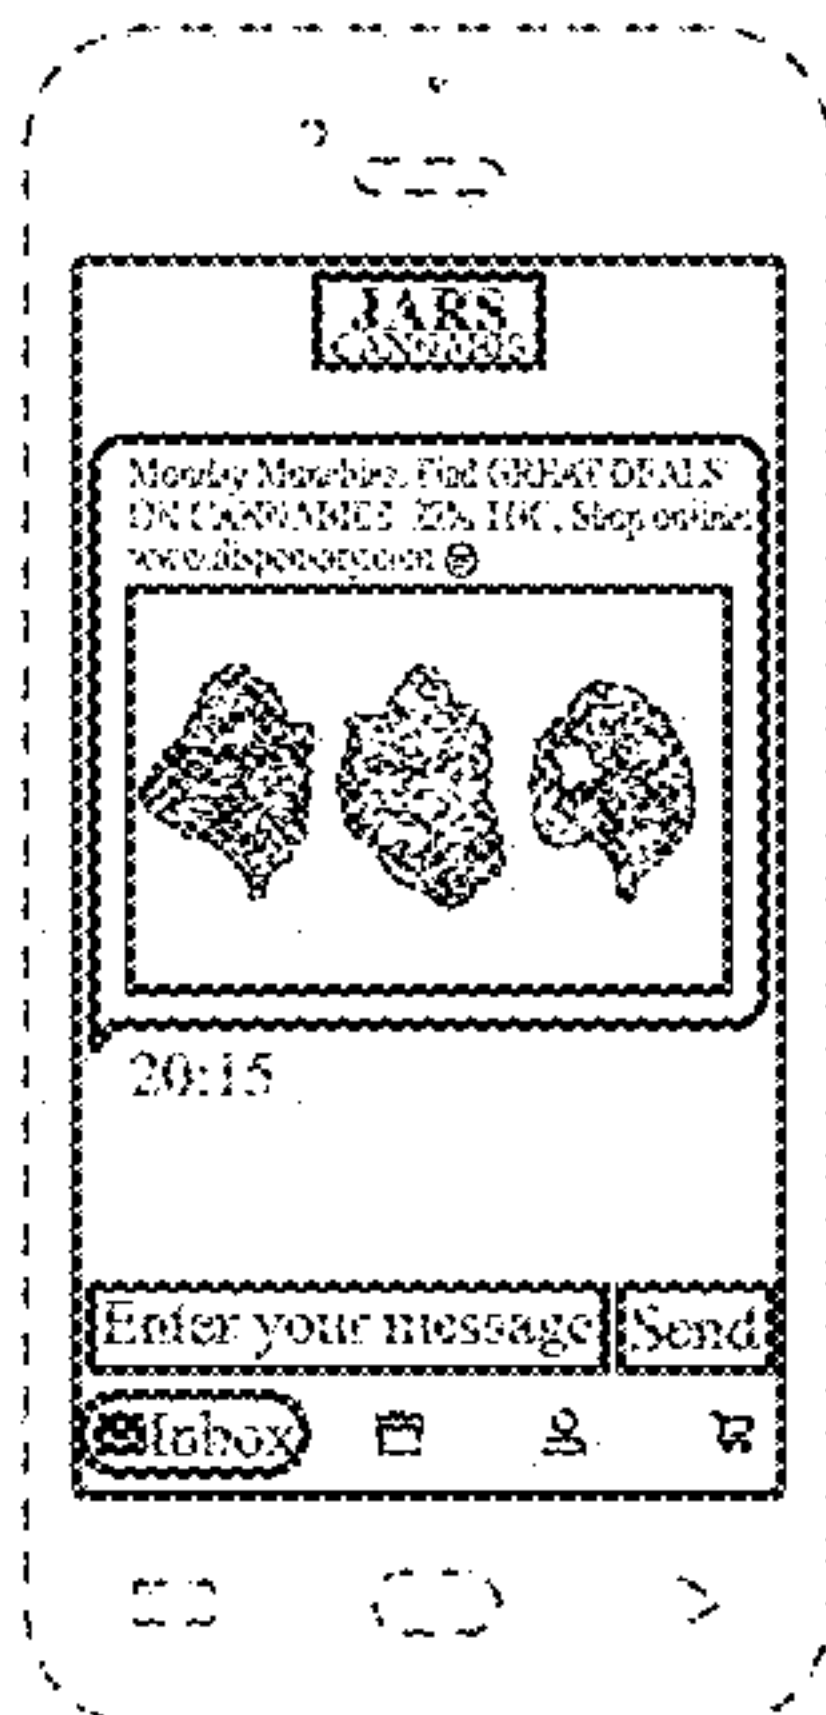

DESCRIPTION

The sole FIGURE is a front view of the computing device display screen with graphical user interface for generating an omni-channel message showing the new design.

The evenly spaced broken lines showing portions of the graphical user interface form no part of the claimed design. The dot-dash line showing the display screen form no part of the claimed design.
