(57) **CLAIM**
The ornamental design for a display screen or portion thereof with a graphical user interface for displaying agricultural data, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment of a display screen or portion thereof with a graphical user interface for displaying agricultural data in accordance with the claimed design;

FIG. 2 is a front view of a second embodiment of a display screen or portion thereof with a graphical user interface for displaying agricultural data in accordance with the claimed design; and,

FIG. 3 is a front view of a third embodiment of a display screen or portion thereof with a graphical user interface for displaying agricultural data in accordance with the claimed design.

The outermost broken lines in the figures show a display screen or portion thereof, and form no part of the claimed design.
