(57) **CLAIM**

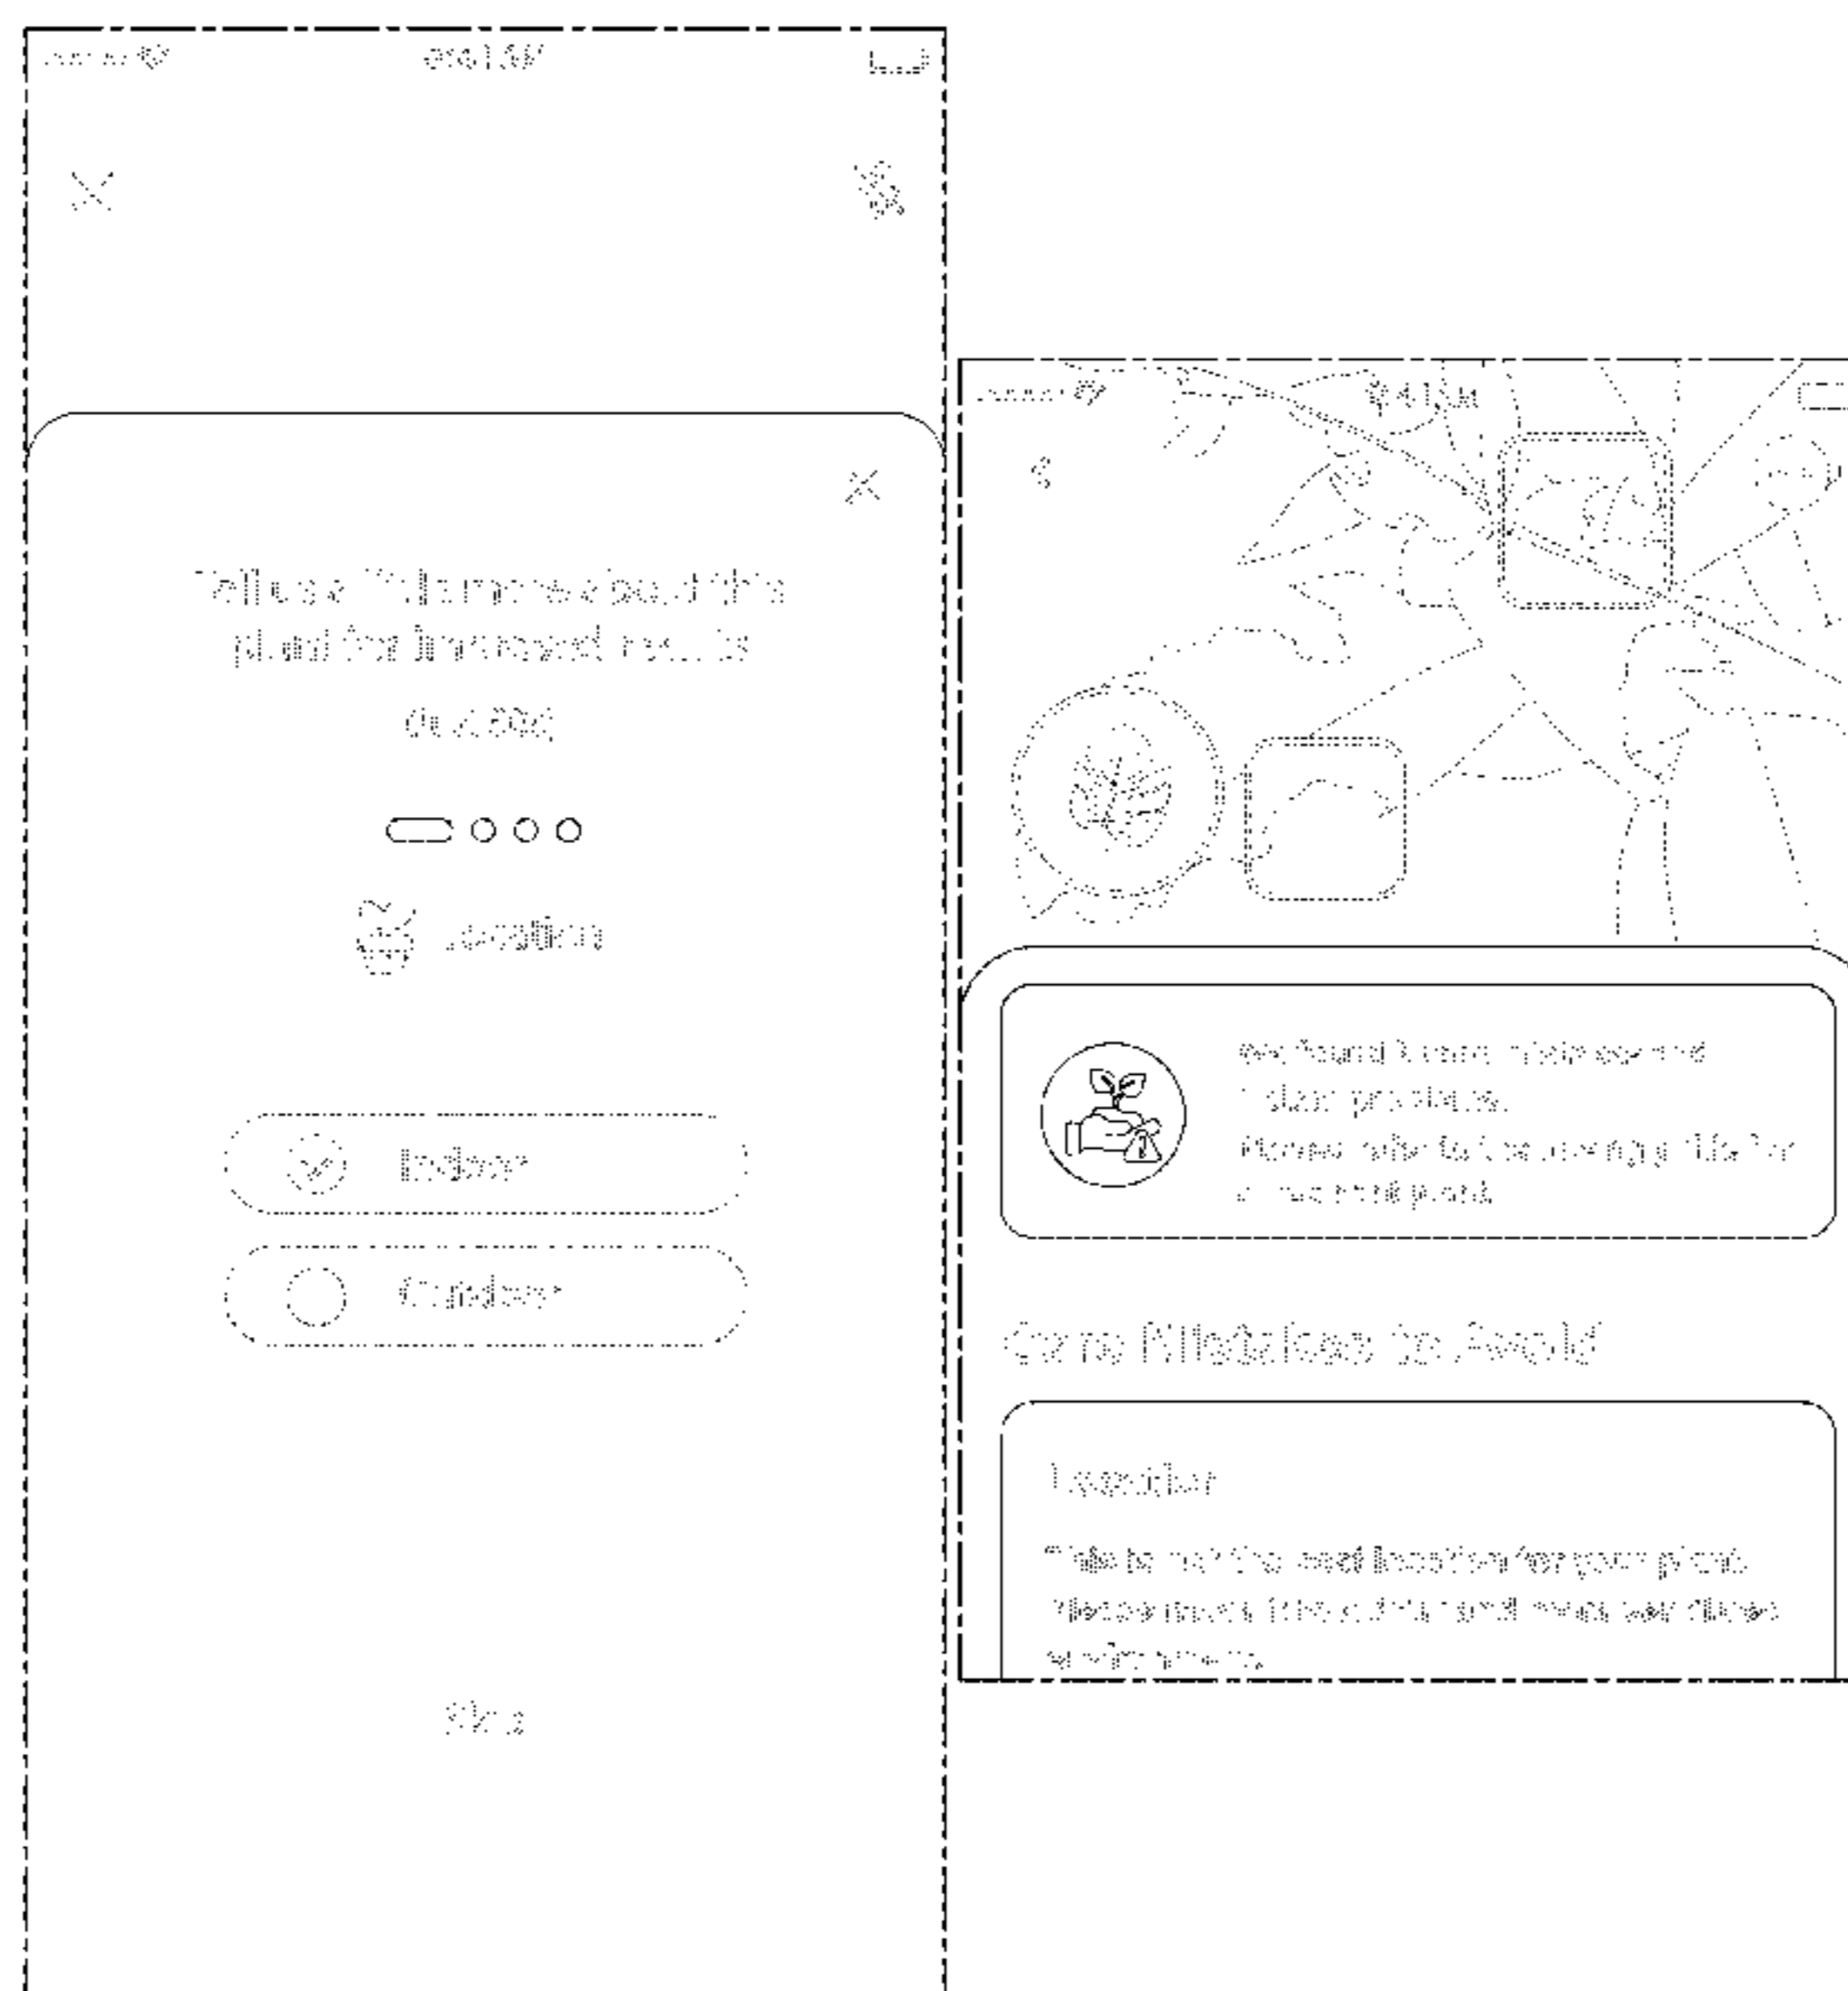

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen showing a first image of a graphical user interface;
FIG. 2 is a front view of a display screen showing a second image of the graphical user interface;
FIG. 3 is a front view of a display screen showing a third image of the graphical user interface;
FIG. 4 is a front view of a display screen showing a fourth image of the graphical user interface;
FIG. 5 is a front view of a display screen showing a fifth image of the graphical user interface;
FIG. 6 is an enlarged front view of the area indicated in FIG. 5; and,
FIG. 7 is an enlarged front view of the area indicated in FIG. 5.

The appearance of the graphical user interface of the display screen transitions between the images shown in FIGS. 1 to 5. The process or period in which the graphical user interface transitions forms no part of the claimed design. The dot-dash broken lines illustrate the display screen and form no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.

1 Claim, 7 Drawing Sheets

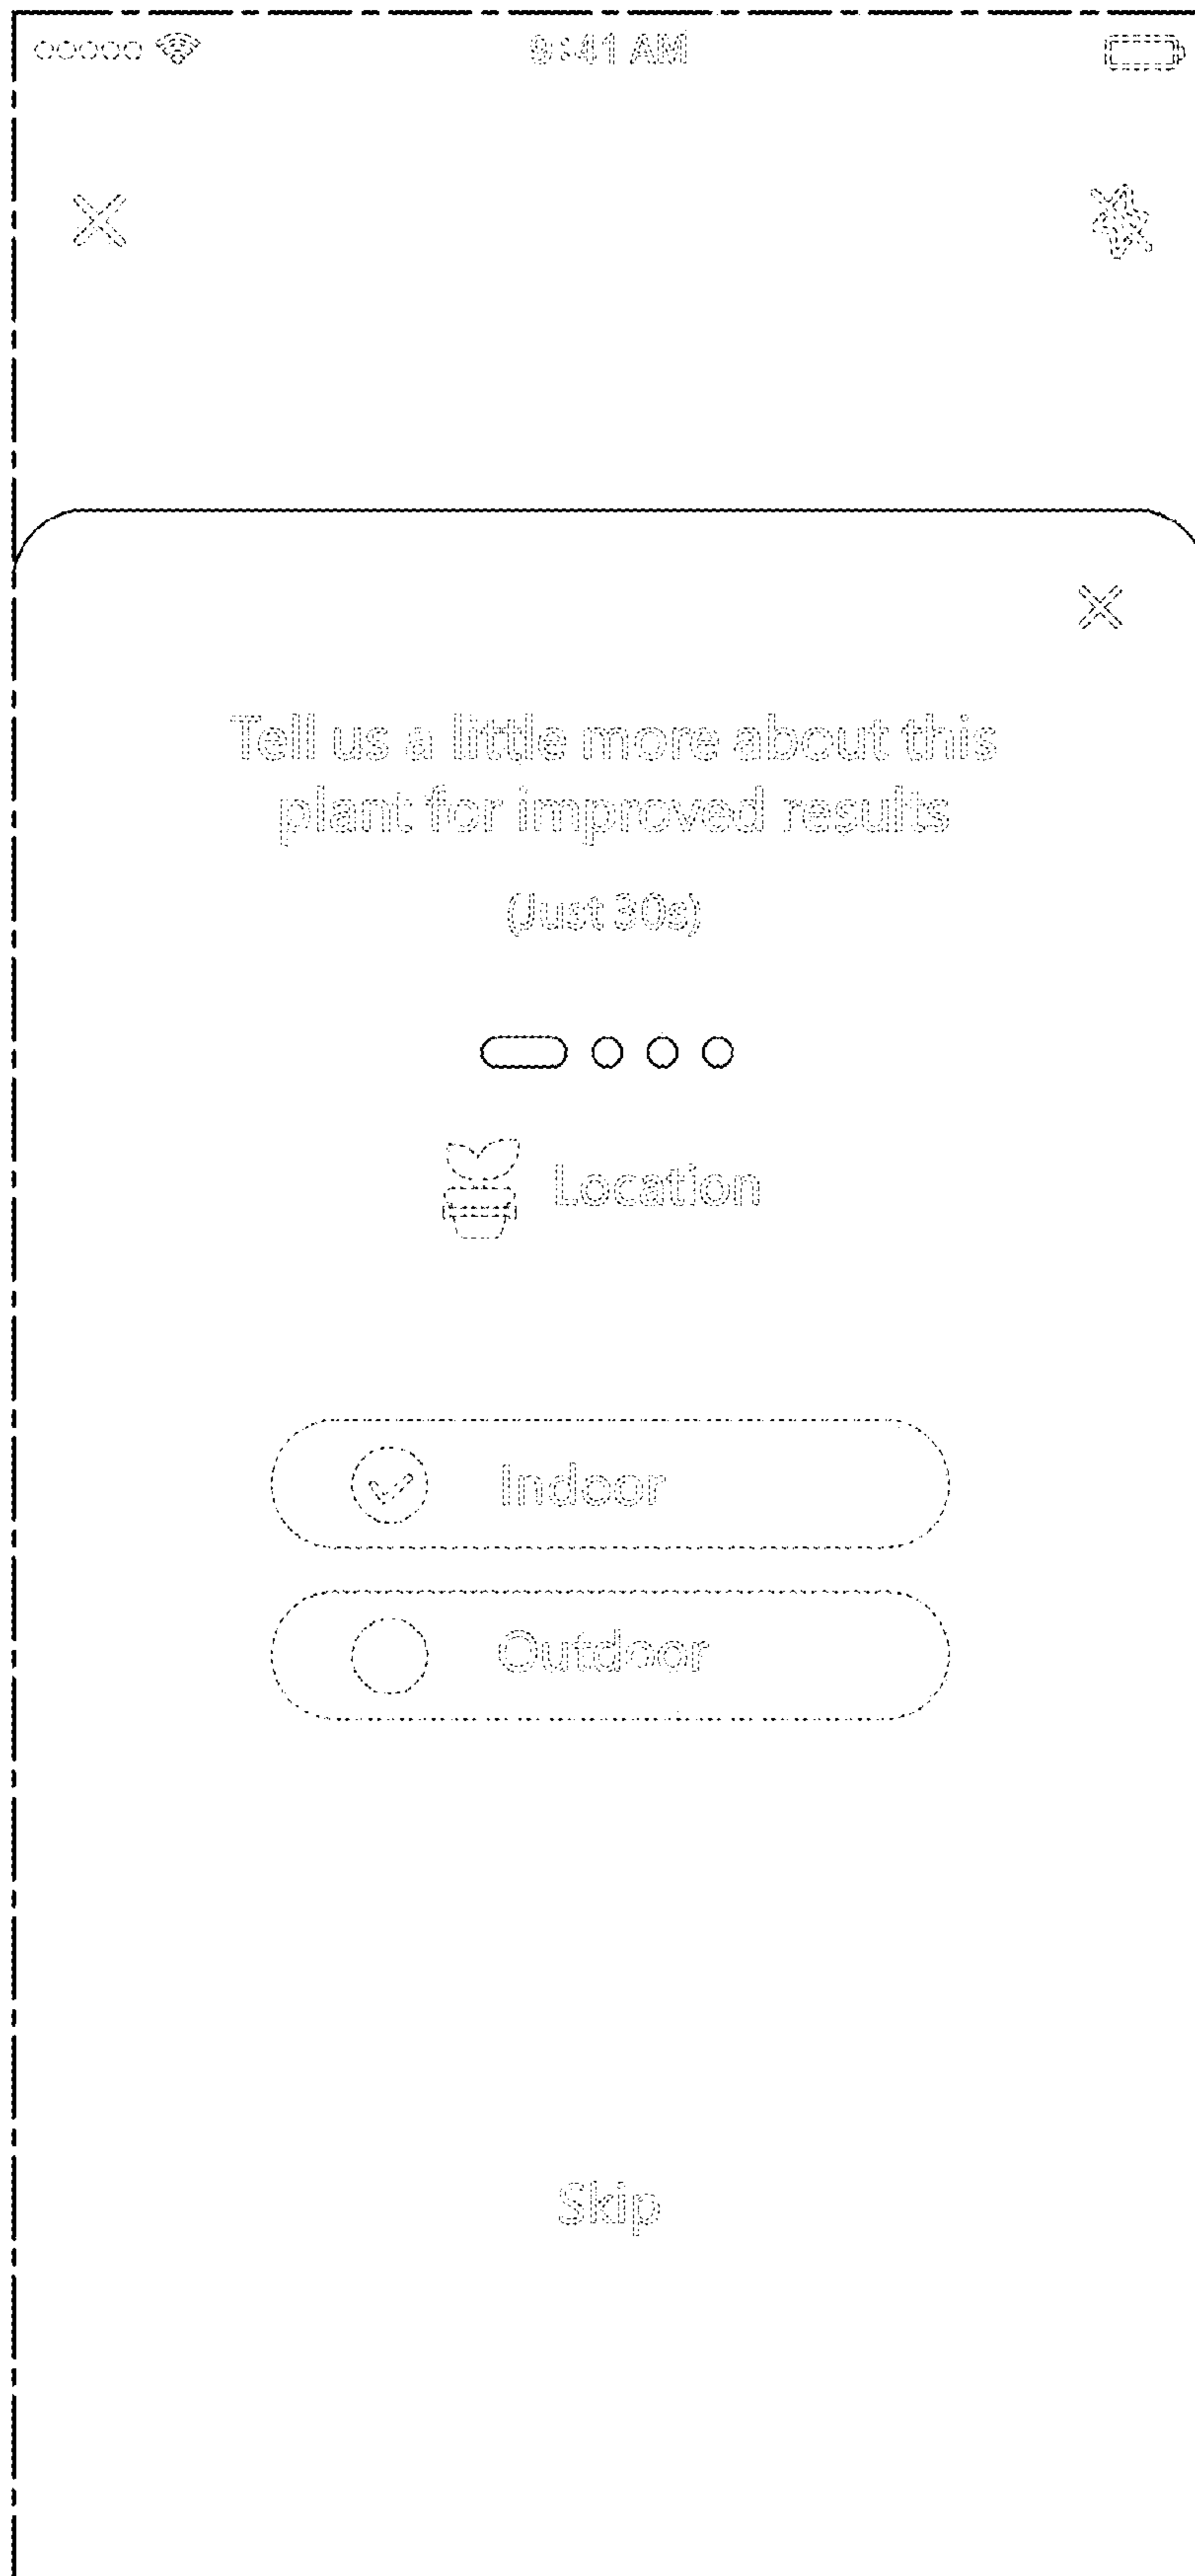

FIG. 1

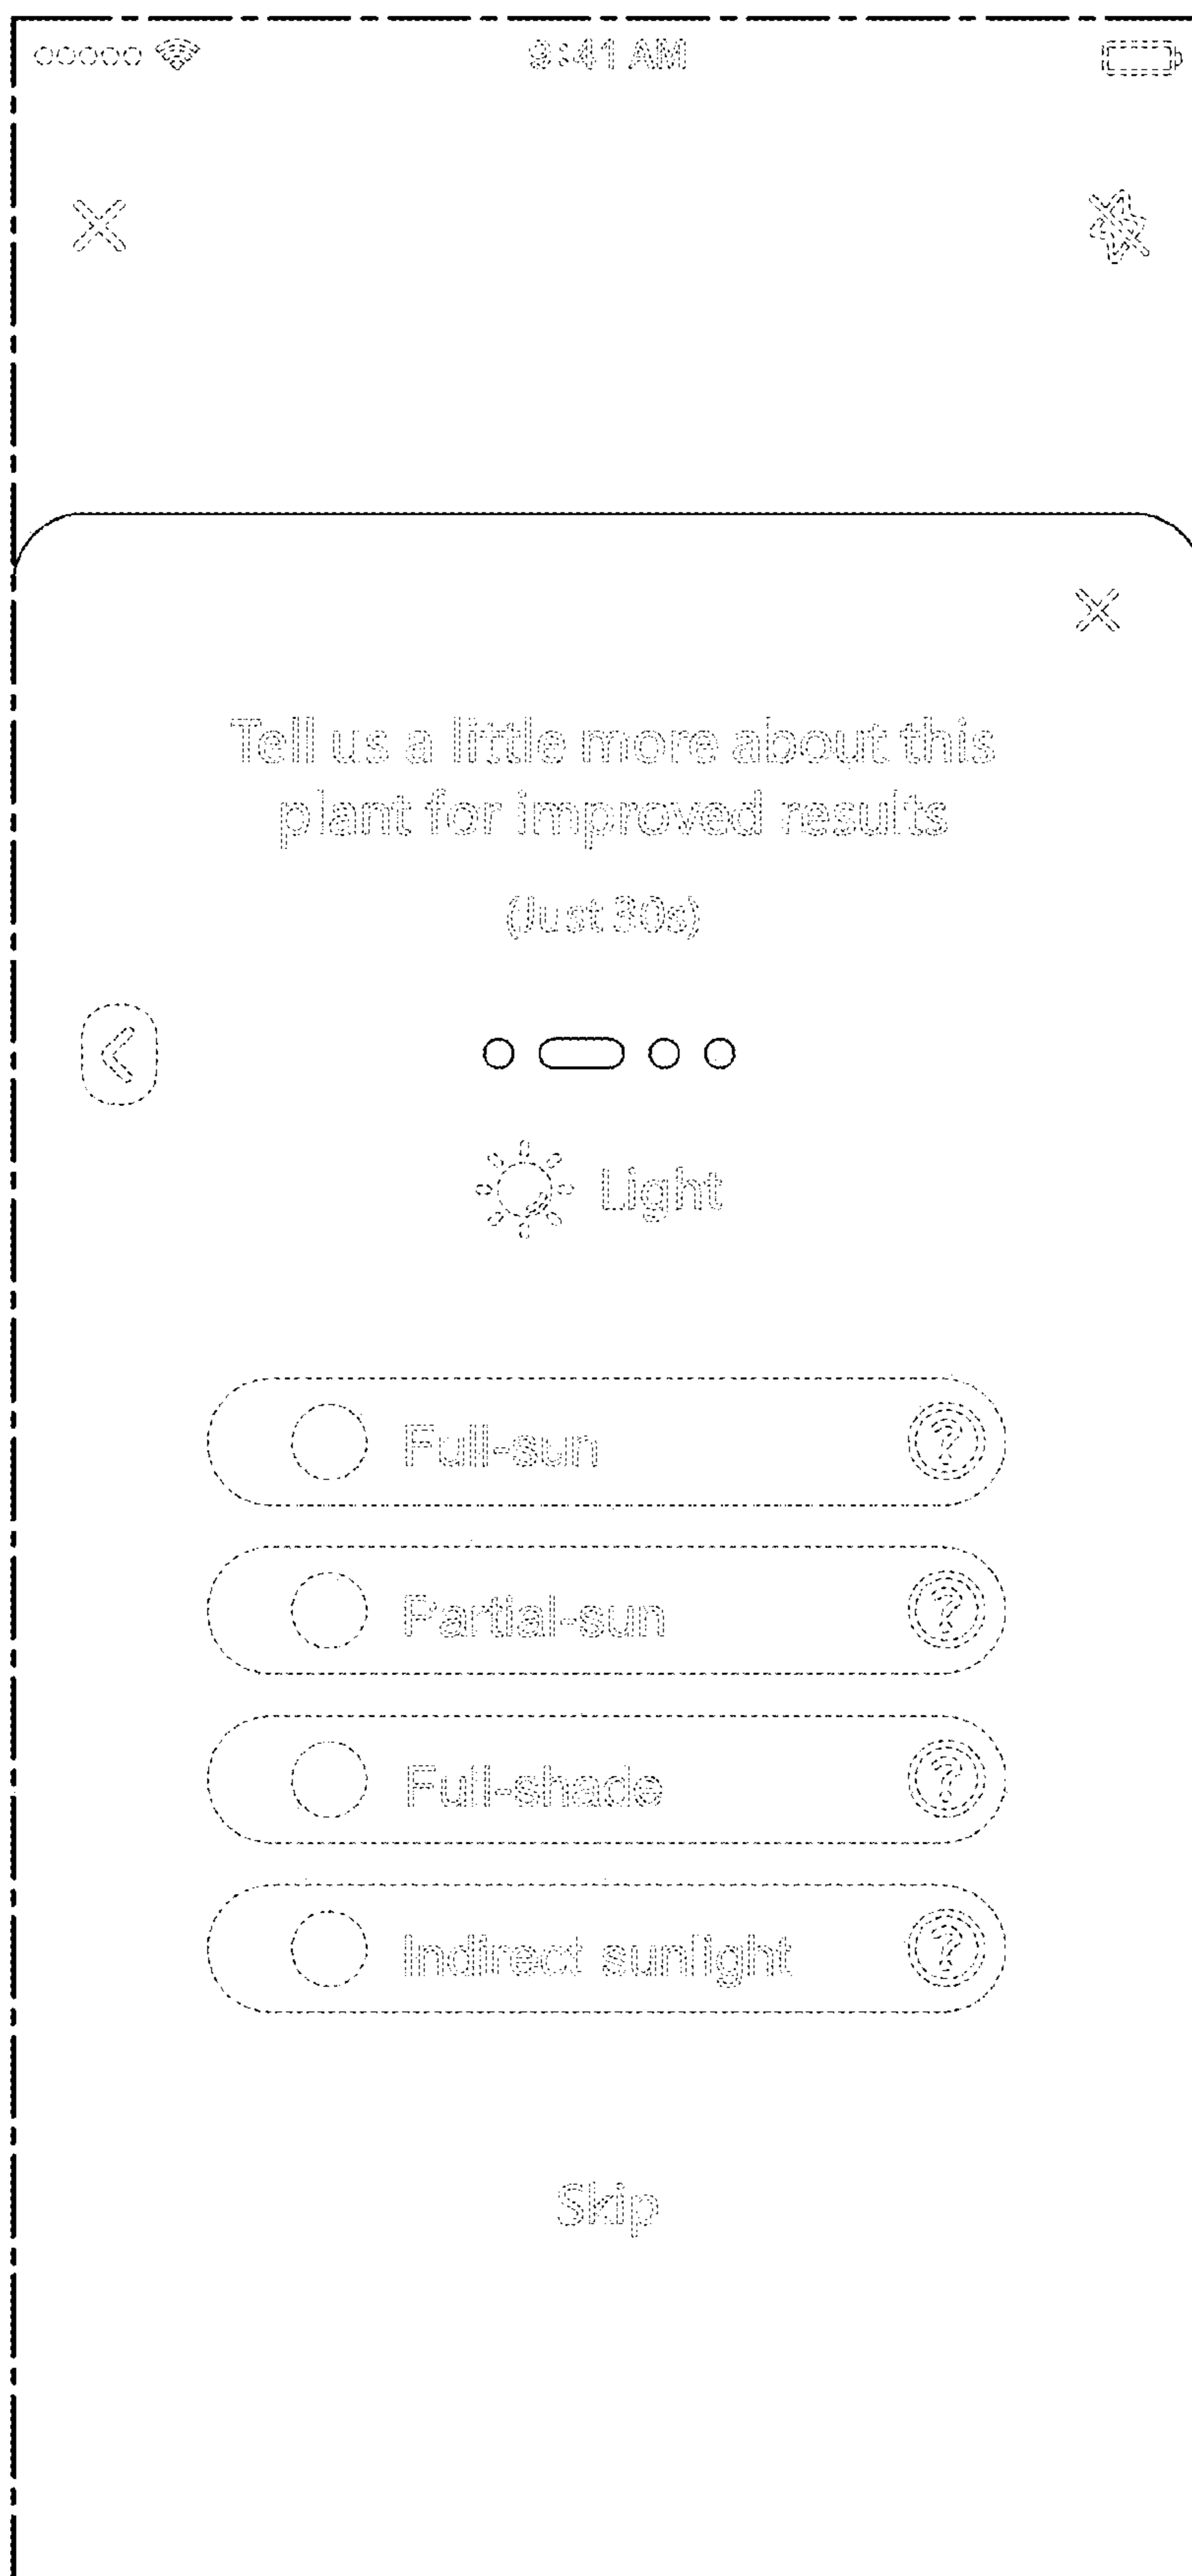

FIG. 2

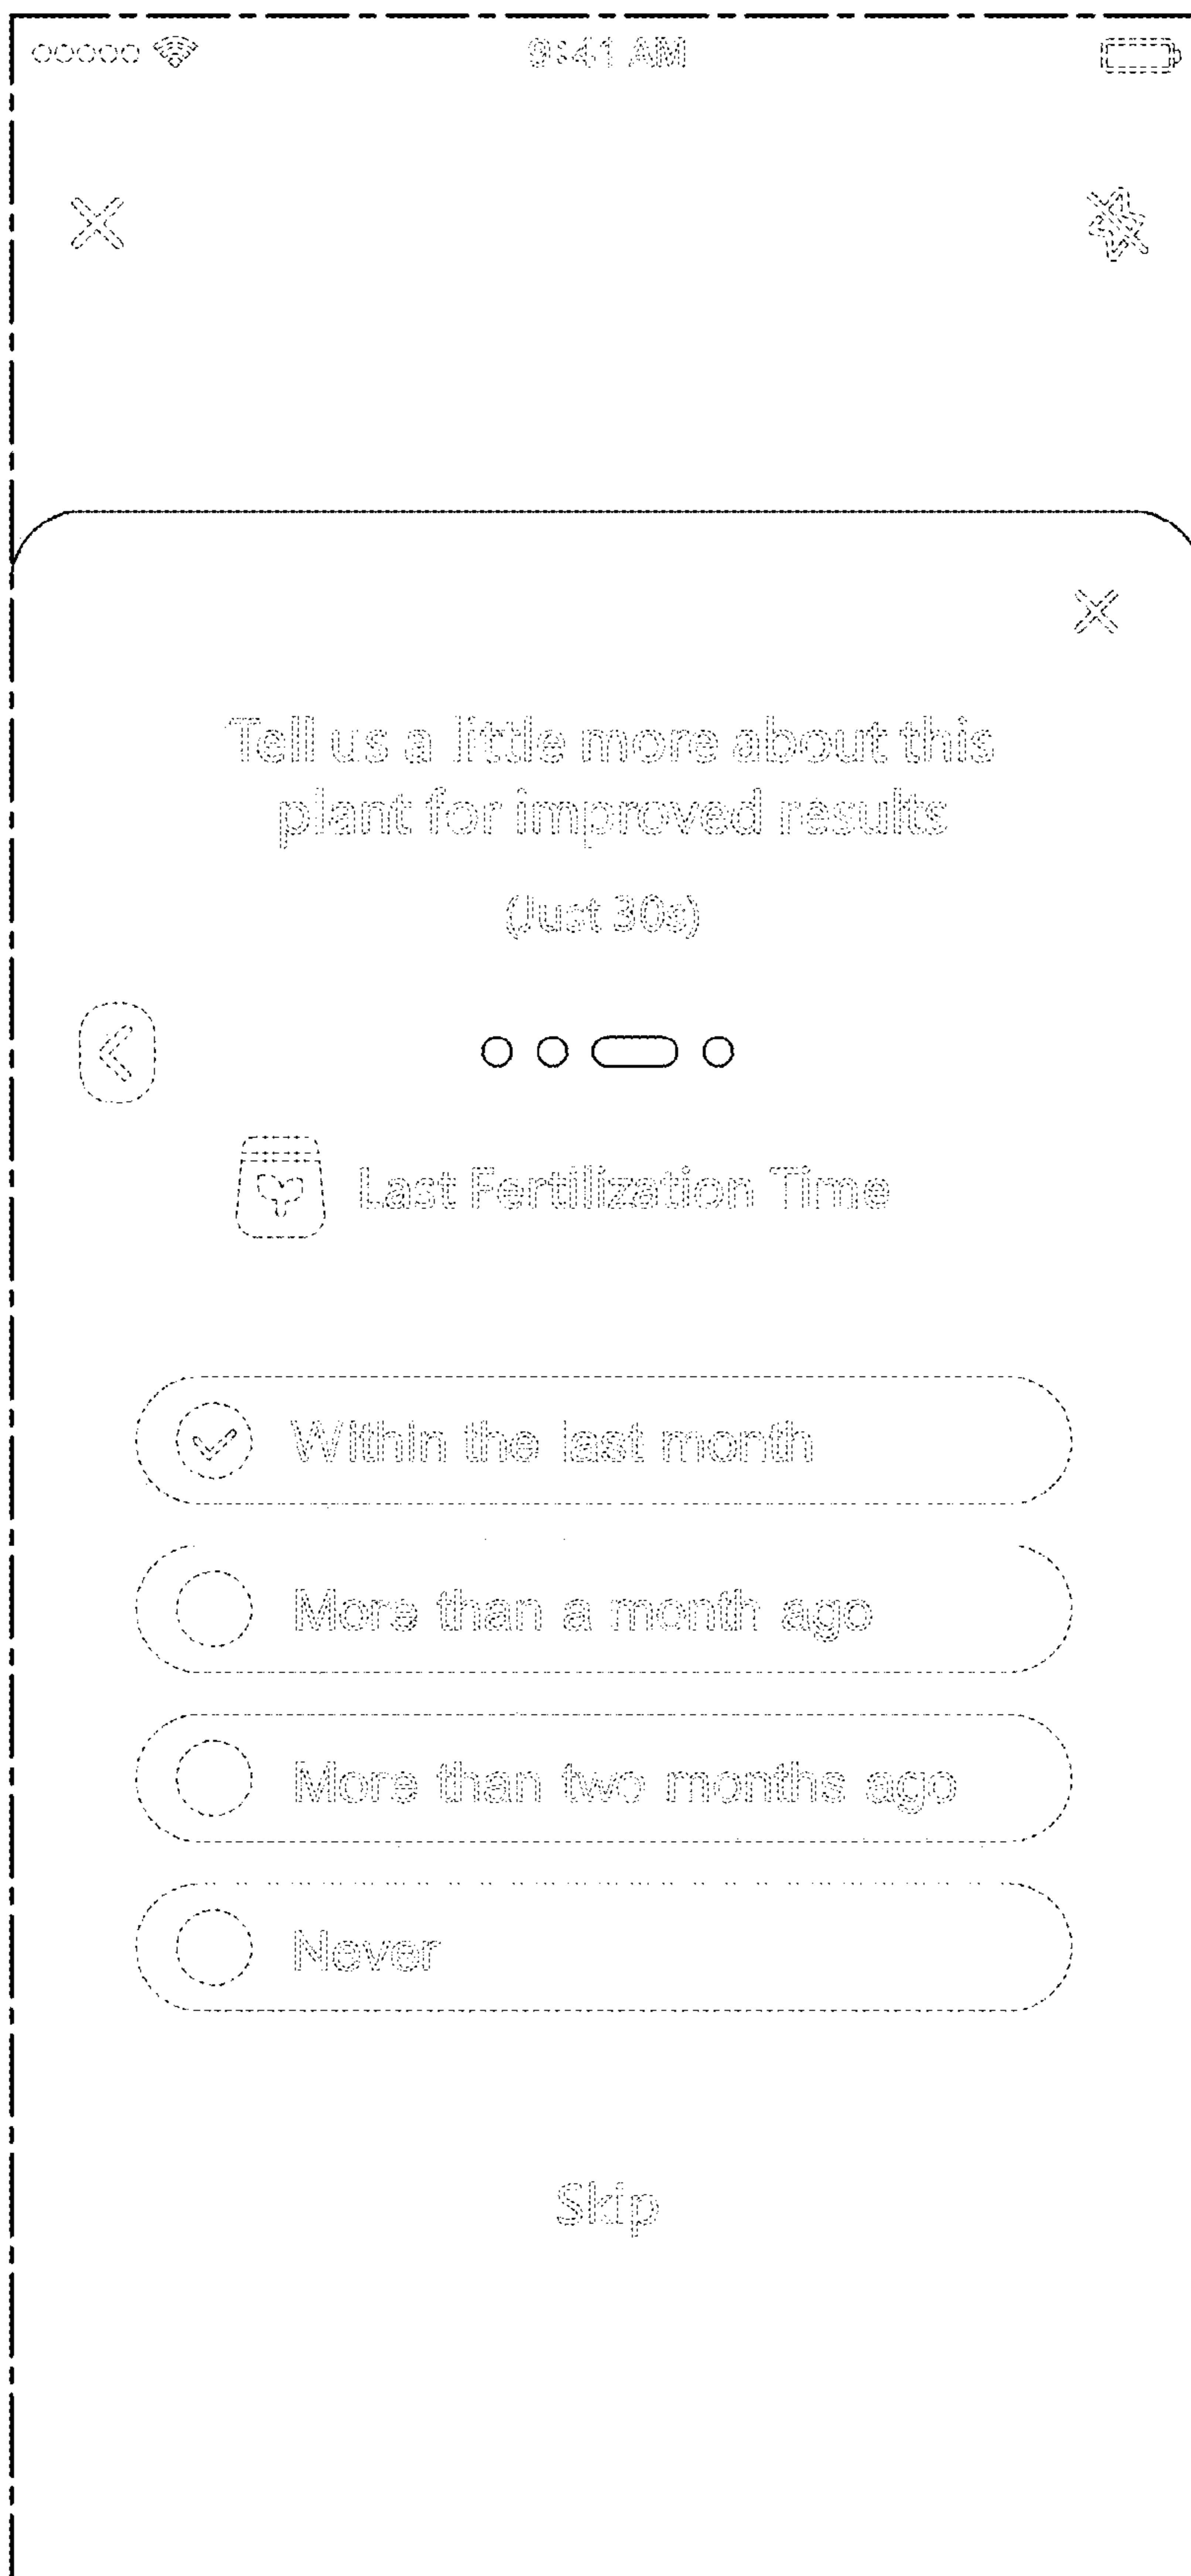

FIG. 3

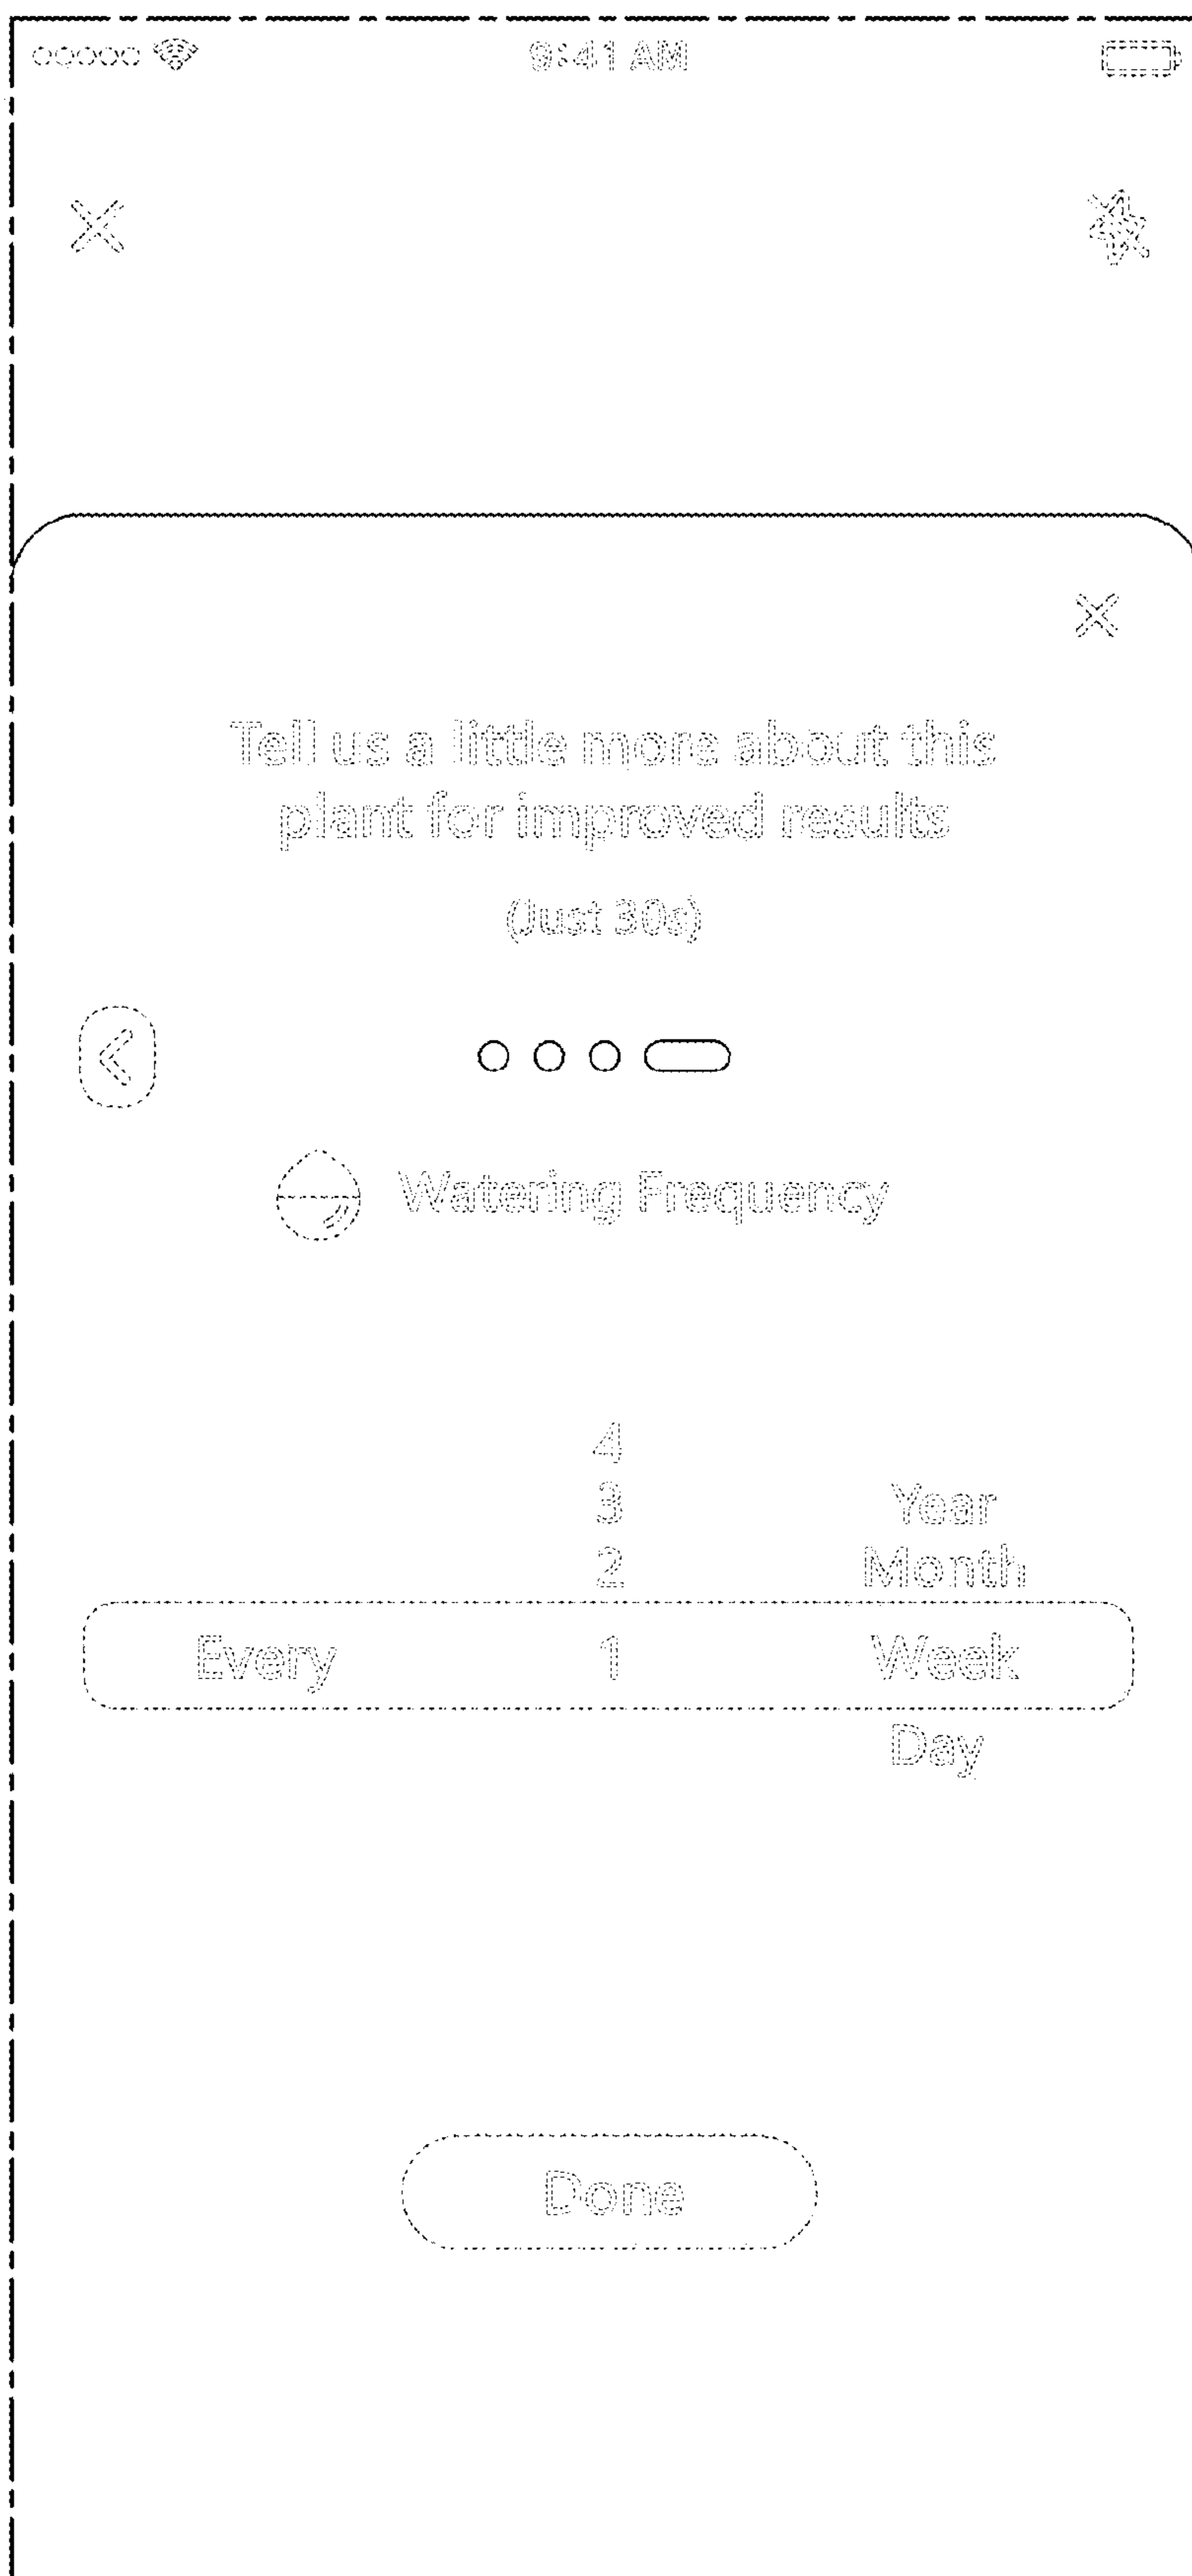

FIG. 4

6

Use the plant care instructions and 1 plant nutritional product to the best of your ability for a healthy plant.

Care Mistakes to Avoid

Location
This is not the best location for your plant. Please move into a brighter area with indirect sunlight.

Water
Please try to water the roots of the plant and avoid wetting the leaves. How you water the plant is crucial to its growth and well-being.

Light
Partial sun (10-14 hours of indirect sunlight per day).

Water
Every 10th day in February
Your plant needs to be watered. Please do not overwater.

Fertilizer
Every 10th day liquid fertilizer
Every 10th day three-in-one fertilizer
Please refer to the suggested frequency above.

Plant Problems

Plant Distress
There is a red spider or red spots on your plant, which suggests it suffers from a disease.

* The red is to diagnosed please make sure your plant problem is same as the symptom described above before using any advice.

Product tips

Don't overwater plants, but they can overwater them and leaves them susceptible to other diseases. You should water them as soon as you see it.

1. Remove infected leaves: eliminate fungal spores by plucking off leaves with visible spotting or dead spots. Do not compost them. Also remove spotted foliage from other plants.

2. Use fungicide: A fungicide may help prevent, reduce or eradicate fungal disease on plants. Be sure to read the usage instructions carefully before applying.

3. Water smarter: Keep plants from drying out by watering in the morning. Cut the watering amount by half. If you cannot be sure a water level is high enough, water only at the soil level.

is the diagnosis correct?
