(57) **CLAIM**

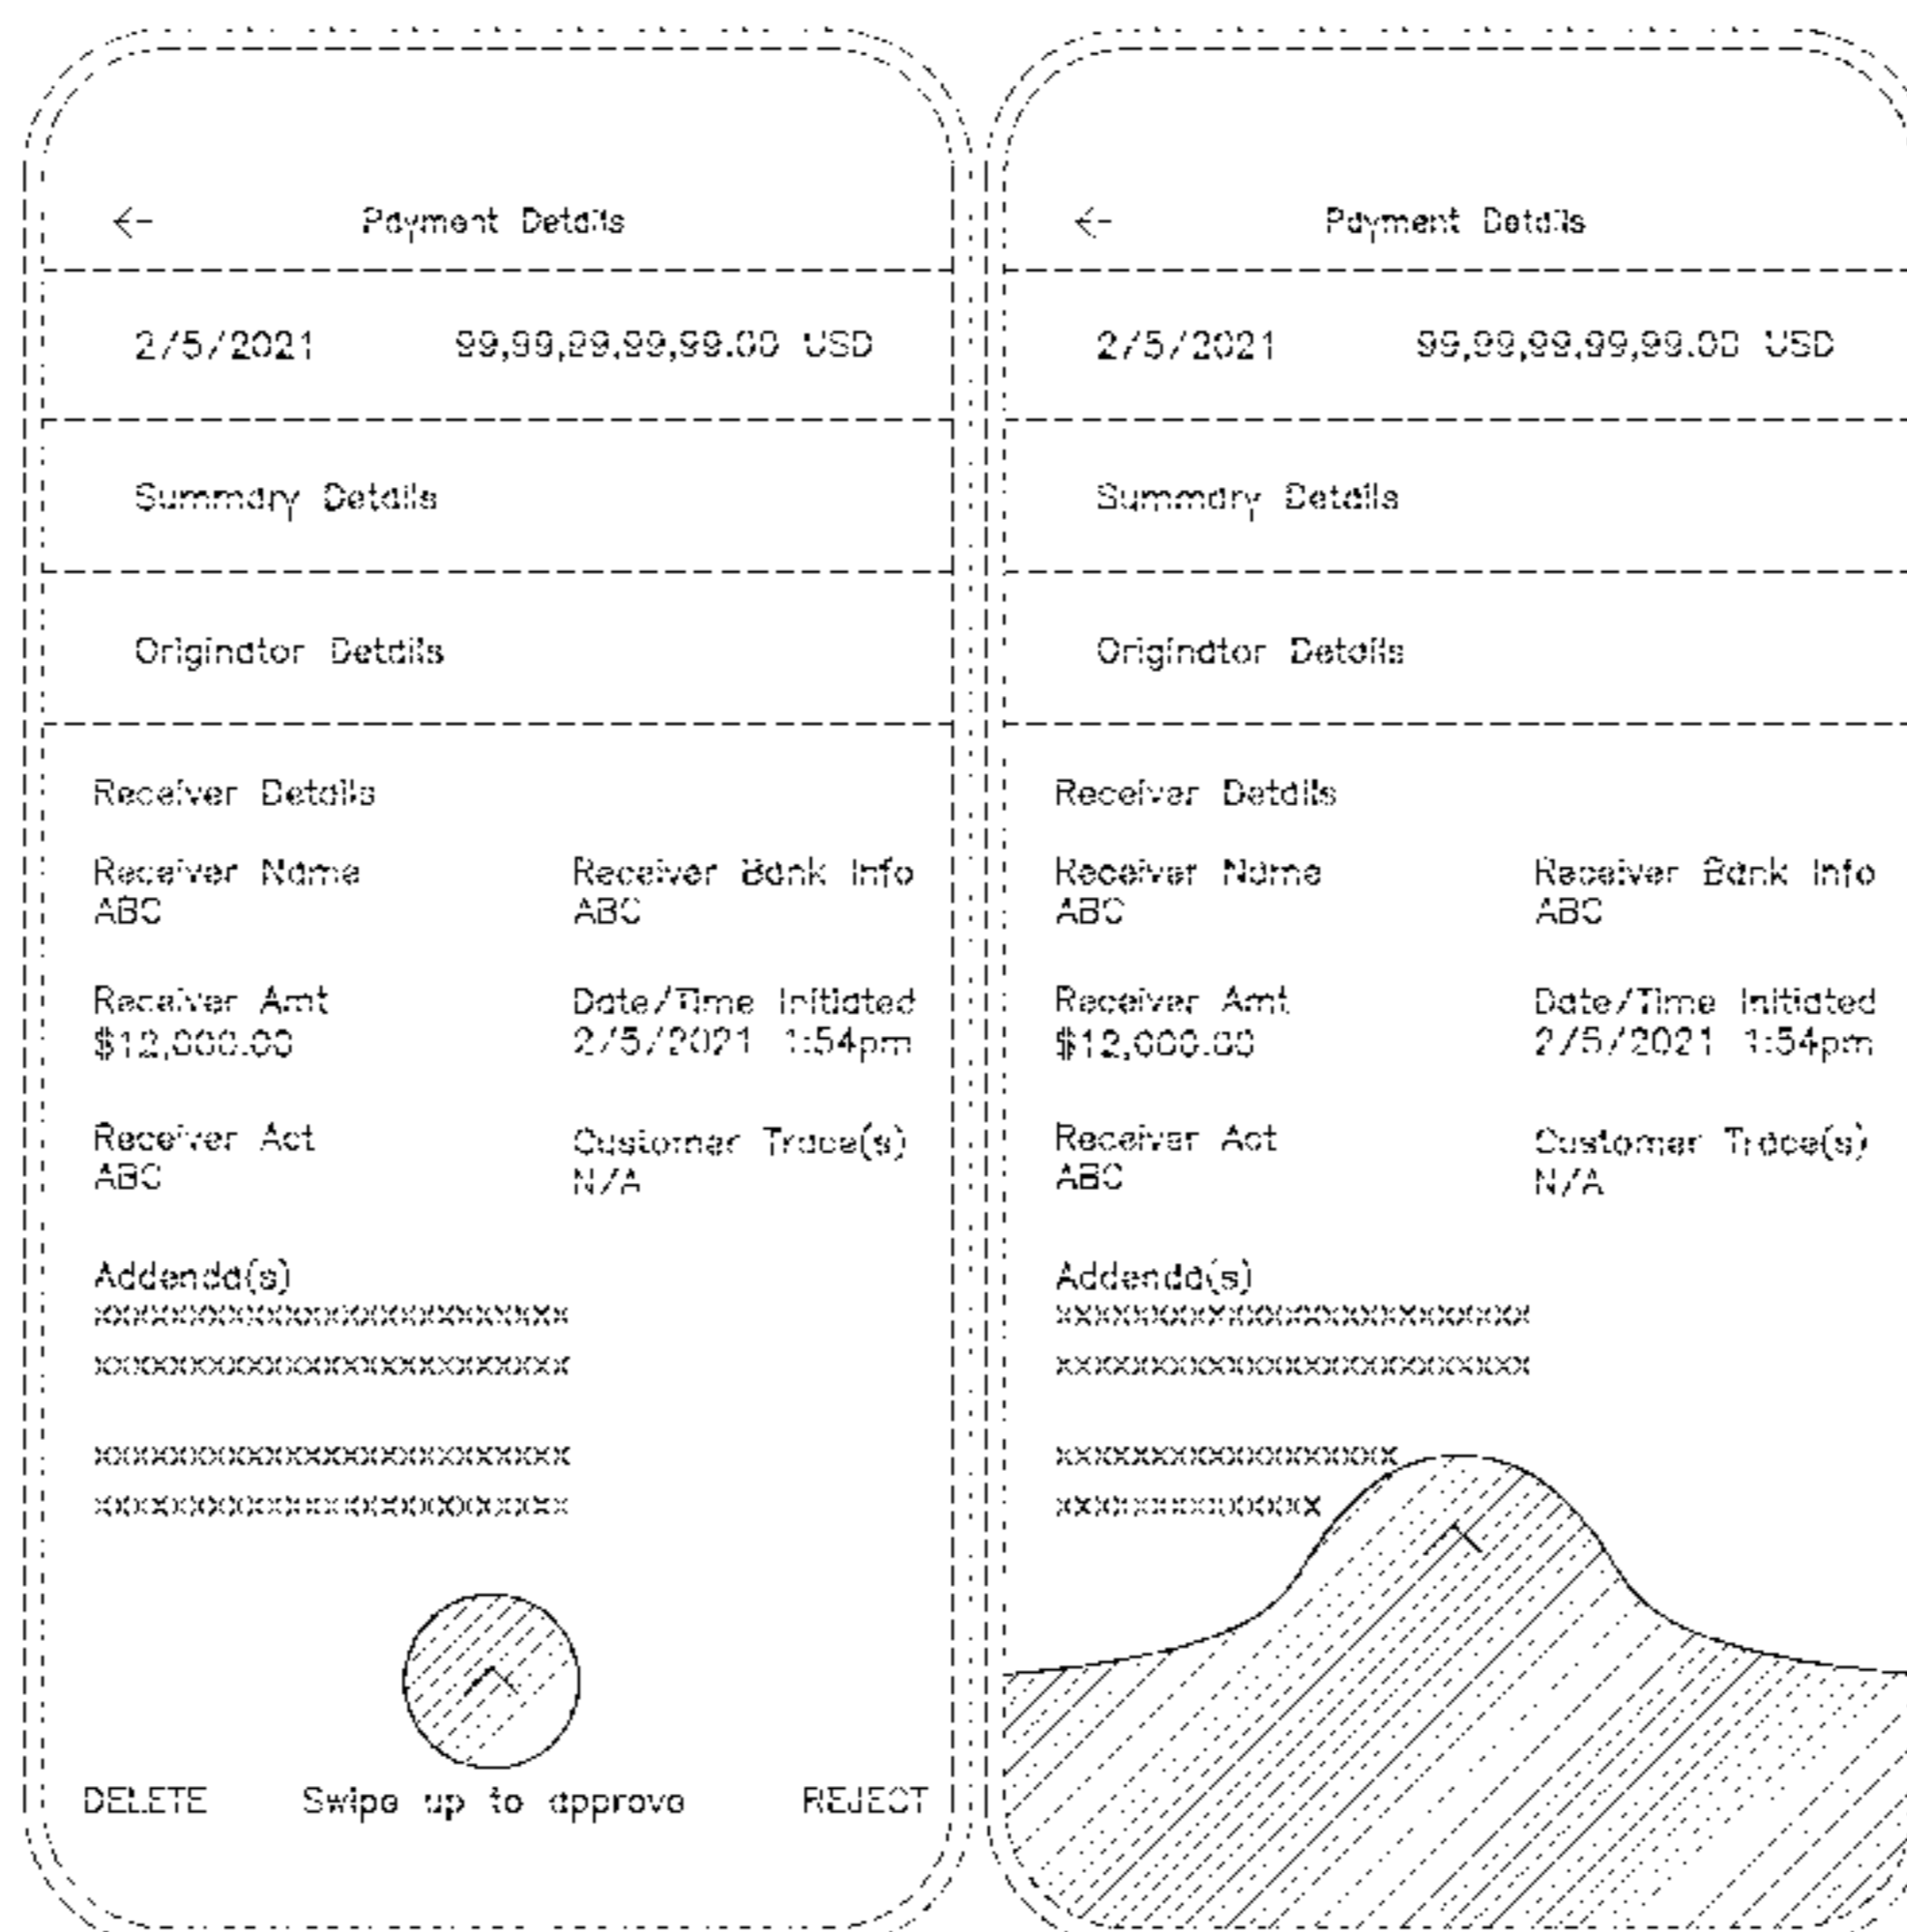

An ornamental design for a display screen with animated graphical user interface.

**DESCRIPTION**

FIG. 1 is a first image in a sequence of a display screen with animated graphical user interface; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; FIG. 4 is a fourth image thereof; and, FIG. 5 is a fifth image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1, 2, 3, 4 and 5. The process or period in which one image transitions to another image forms no part of the claimed design. The outermost set of broken lines illustrate the display screen, and the remaining broken lines, including the closely-spaced broken line showing of text, number and symbols, illustrate portions of the animated graphical user interface. None of the broken lines form part of the claimed design. The hatching in the drawings illustrates a contrast in appearance.
