See application file for complete search history.

FIG. 1 is a front perspective view showing the head and neck support pillow with hood and veil, where the veil is secured under the hood;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a front perspective view thereof showing the invention as it appears when worn where the veil is secured under the hood;

FIG. 9 is a front perspective view showing the invention with the veil unsecured from under the hood; and,

FIG. 10 is a front perspective view showing the invention as it appears when worn with the veil.

The partial human figure outlined by broken lines assists in illustrating the claimed design in a position of use, but forms no part of the claimed design. The appearance of any portion of the article between the symbolic break lines defined by broken lines forms no part of the claimed design. The broken lines of the head and neck support pillow with hood and veil depict portions of the head and neck support pillow with hood and veil that form no part of the claimed design.
