(57) **CLAIM**

The ornamental design for ranging reticle for an optical device, as shown and described.

DESCRIPTION

FIG. 1 is a view of the ranging reticle for an optical device embodying the new design, as viewed through an eyepiece end of an aiming device; and, FIG. 2 is a perspective view showing an environment of use for the ranging reticle for an optical device. Features are shown in certain figures in broken lines. The features shown in broken lines do not form any part of the claimed design. Broken lines immediately adjacent the solid-line portions of the design form the boundary of the design, with the broken lines forming no part of the claimed design.
