(57) **CLAIM**
The ornamental design for a portable article carrier, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a portable article carrier showing my new design;
FIG. 2 is a front elevational view of the portable article carrier of FIG. 1;
FIG. 3 is a rear elevational view of the portable article carrier of FIG. 1;
FIG. 4 is a left side elevational view of the portable article carrier of FIG. 1;
FIG. 5 is a right side elevational view of the portable article carrier of FIG. 1;
FIG. 6 is a top plan view of the portable article carrier of FIG. 1;
FIG. 7 is a bottom plan view of the portable article carrier of FIG. 1;
FIG. 8 is a front, right-side perspective view of the portable article carrier of FIG. 1, showing the carrier in an alternate configuration in an open position;
FIG. 9 is a front, left-side perspective view of the portable article carrier of FIG. 1, showing the carrier in an alternate configuration in an alternate configuration in an open position;
FIG. 10 is a rear, left-side perspective view of the portable article carrier of FIG. 1, showing the carrier in an alternate configuration in an open position; and,
FIG. 11 is a rear, right-side perspective view of the portable article carrier of FIG. 1, showing the carrier in an alternate configuration in an open position.
The lines on the inner and outer surfaces of the dispensing apparatus represent contour line shading. In contrast to the solid lines that define the claimed design, the contour lines do not contact other lines and are provided with a reduced thickness. These contour lines are provided merely to highlight the contour of the design and are not intended to be illustrative of texture or surface ornamentation.

1 Claim, 11 Drawing Sheets
