(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first image in a first embodiment of the claimed design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof;

FIG. 4 is a front view of a first image in a second embodiment of the claimed design;

FIG. 5 is a second image thereof; and,

FIG. 6 is a third image thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3, and FIGS. 4-6, respectively, for each of the illustrated embodiments.

The process or period in which one image transitions to another image forms no part of the claimed design.

The dashed broken lines show a robotic device and form no part of the claimed design.
