(57) **CLAIM**

The ornamental design for a two-part container for a vaginal device, as shown and described.

DESCRIPTION

FIG. 1 is an upper perspective view of a two-part container for a vaginal device in accordance with the new design, where the top and bottom parts are opaque.

FIG. 2 is a front elevational view thereof; the rear, right, and left views being identical to the claimed features shown herein.

FIG. 3 is a top plan view thereof.

FIG. 4 is a bottom plan view thereof.

FIG. 5 is an upper perspective view of a two-part container for a vaginal device in accordance with the new design, where the top and bottom parts are transparent or translucent.

FIG. 6 is a front elevational view thereof; the rear, right, and left views being identical to the claimed features shown herein.

FIG. 7 is a top plan view thereof.

FIG. 8 is a bottom plan view thereof.

FIG. 9 is an upper perspective view of a two-part container for a vaginal device in accordance with the new design, where the top part is transparent or translucent, and the bottom part is opaque.

FIG. 10 is a front elevational view thereof; the rear, right, and left views being identical to the claimed features shown herein.

FIG. 11 is a top plan view thereof.

FIG. 12 is a bottom plan view thereof.

FIG. 13 is an upper perspective view of a two-part container for a vaginal device in accordance with the new design, where the top part is opaque, and the bottom part is transparent or translucent.

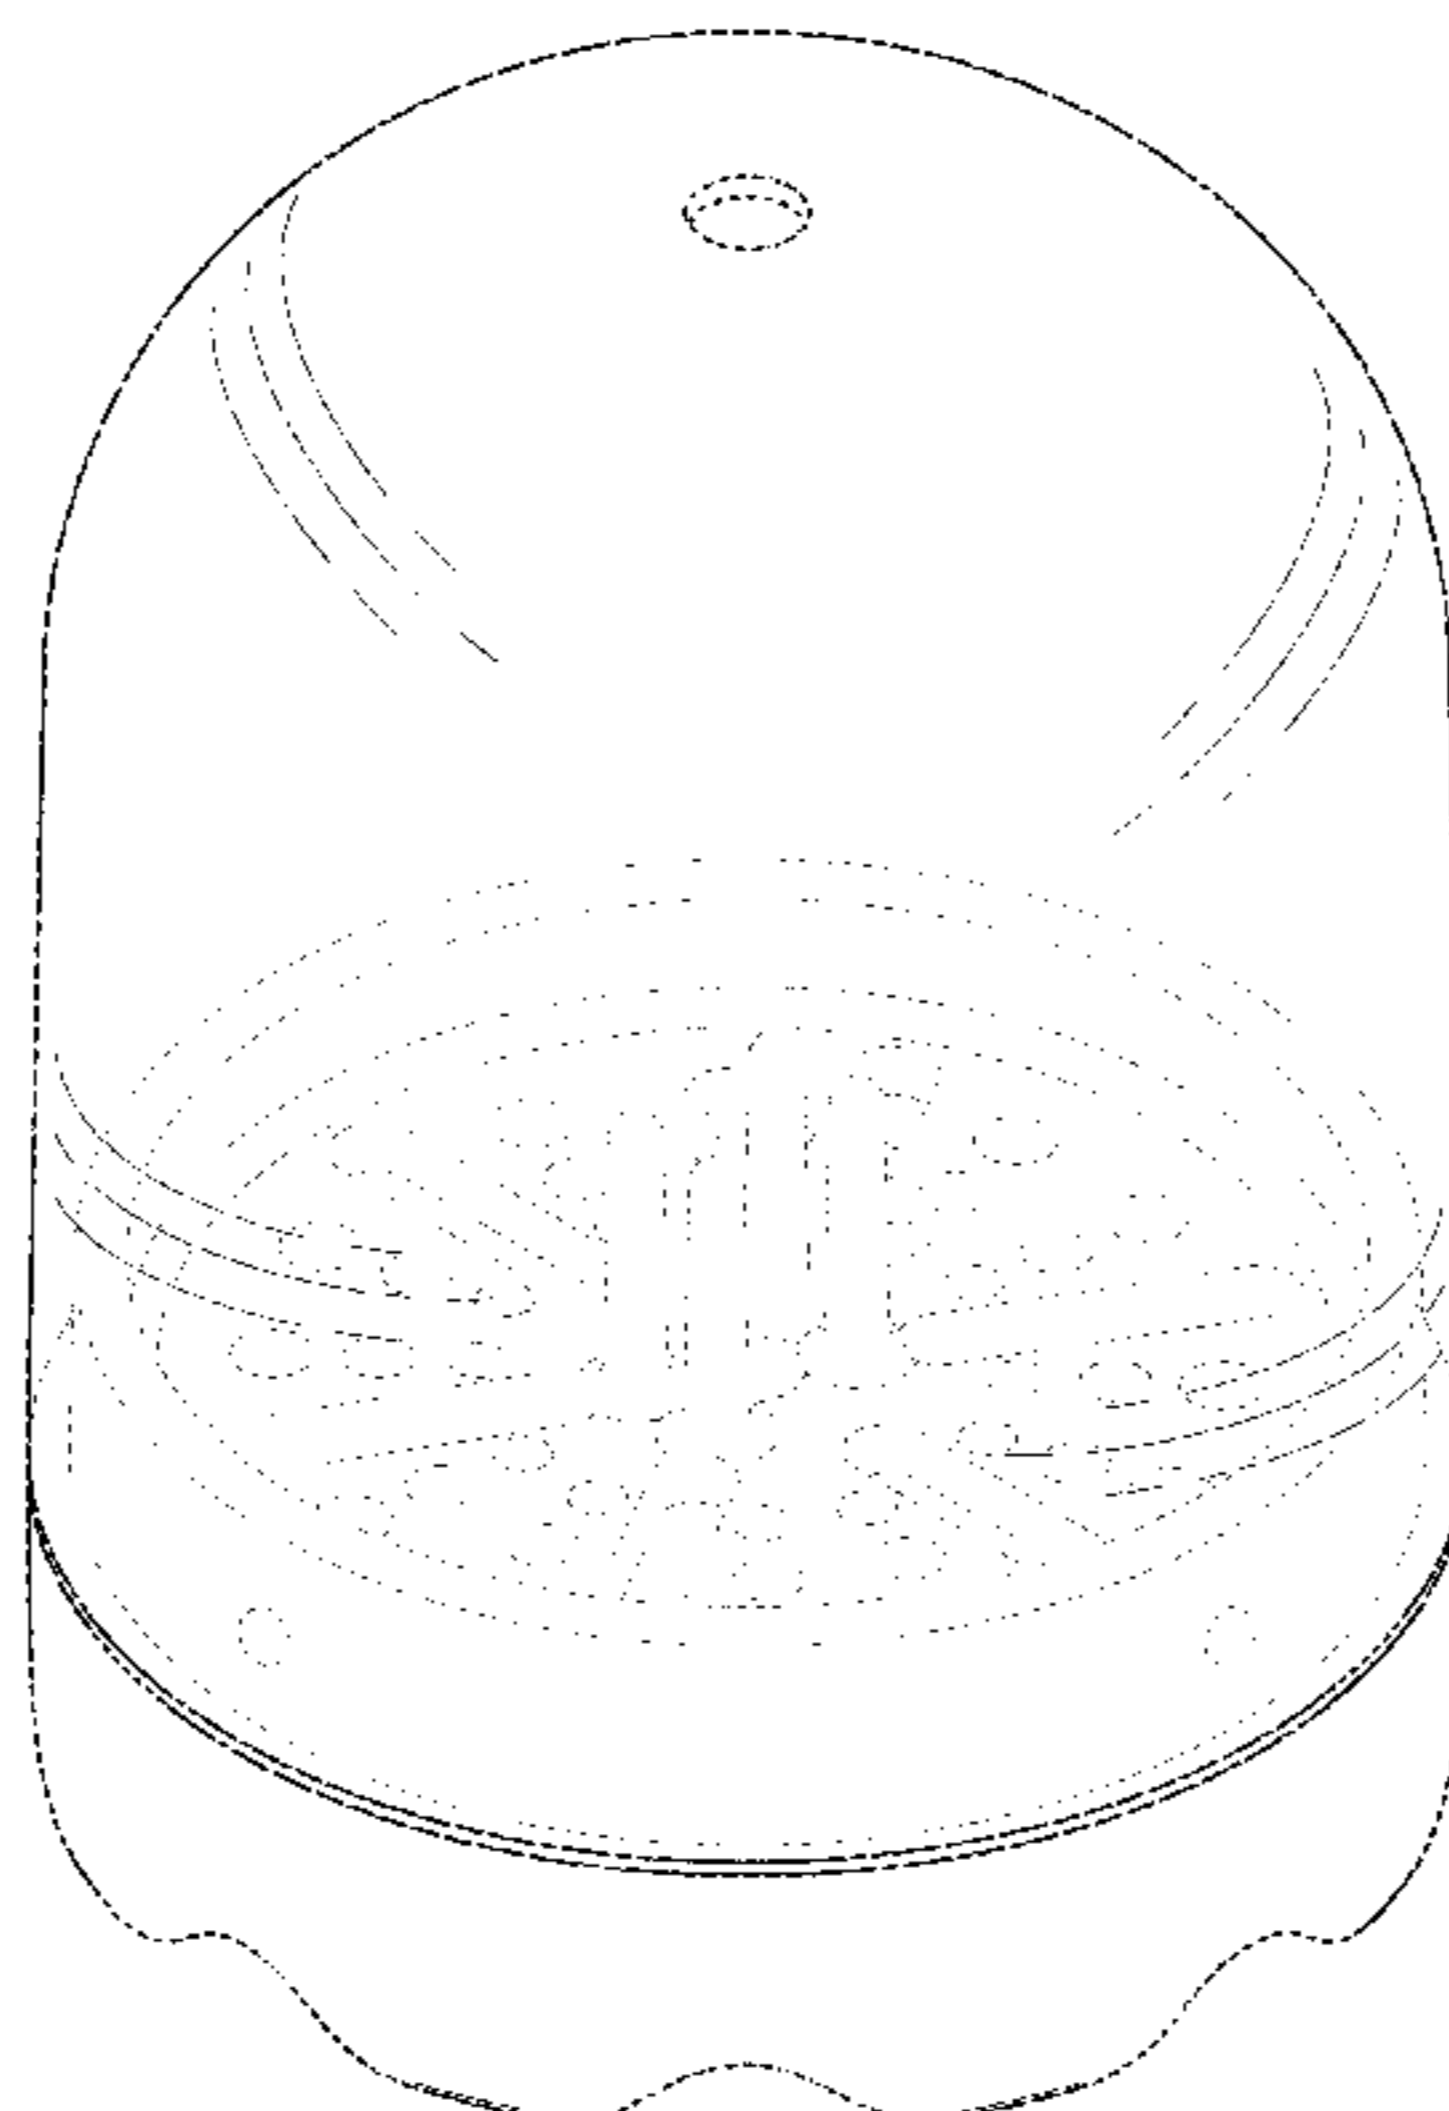

FIG. 14 is a front elevational view thereof; the rear, right, and left views being identical to the claimed features shown herein.

FIG. 15 is a top plan view thereof; and,

FIG. 16 is a bottom plan view thereof.

The broken lines in FIGS. 1-16 illustrate portions of the two-part container for a vaginal device that form no part of the claimed design.
