(57) **CLAIM**

The ornamental design for a wearable device module for heating and cooling, as shown and described.

DESCRIPTION

FIG. 1 is a front and bottom perspective view of a wearable device module for heating and cooling;
 FIG. 2 is a front elevation view of the wearable device module for heating and cooling of FIG. 1;
 FIG. 3 is a rear elevation view of the wearable device module for heating and cooling of FIG. 1;
 FIG. 4 is a top view of the wearable device module for heating and cooling of FIG. 1, the bottom being a mirror image thereof;
 FIG. 5 is a right side elevation view of the wearable device module for heating and cooling of FIG. 1; the left side elevation being a mirror image thereof;
 FIG. 6 is a cross sectional view of the wearable device module for heating and cooling, taking along line 6-6 of FIG. 2;
 FIG. 7 is a front perspective view of an alternate embodiment of the wearable device module for heating and cooling;
 FIG. 8 is a front elevation view of the alternate embodiment of the wearable device module for heating and cooling of FIG. 7;
 FIG. 9 is a right side elevation view of the alternate embodiment of the wearable device module for heating and cooling of FIG. 7; the left side elevation being a mirror image thereof; and,
 FIG. 10 is a cross sectional view of the alternate embodiment of the wearable device module for heating and cooling taking along line 10-10 of FIG. 8.
 The broken lines illustrate environmental structure and form no part of the claimed design.

1 Claim, 5 Drawing Sheets
