(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for video conferencing, as shown and described herein.

DESCRIPTION

The FIGURE is a display screen with graphical user interface for video conferencing.

The rectangular solid line in the drawings represents a display screen. The broken lines outside the display screen show an electronic device and form no part of the claimed design. All other broken lines inside the display screen show portions of the graphical user interface and form no part of the claimed design.
