(57) **CLAIM**

The ornamental design for a digital camera display screen having a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a digital camera display screen having a graphical user interface, showing the new design;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a top view thereof;

FIG. 5 is a left side view thereof;

FIG. 6 is an enlarged view taken from FIG. 3 showing a first image of the graphical user interface; and,

FIG. 7 is a second image thereof.

The broken lines illustrate portions of the digital camera display screen having a graphical user interface and form no part of the claimed design. A bottom view and a right side view do not depict portions for which design patent is sought, and are omitted.

The appearance of the graphical user interface transitions sequentially between FIGS. 6 and 7. The process or period in which one image transitions to another forms no part of the claimed design.

1 Claim, 7 Drawing Sheets
