(57) **CLAIM**

The ornamental design for a fluid mixture dispensing system display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a first embodiment of a fluid mixture dispensing system display screen with animated graphical user interface, showing a first image in the sequence;
FIG. **2** is a second image thereof; and
FIG. **3** is a third image thereof.
FIG. **4** is a front view of a second embodiment of a fluid mixture dispensing system display screen with animated graphical user interface, showing a first image in the sequence;
FIG. **5** is a second image thereof; and
FIG. **6** is a third image thereof.
FIG. **7** is a front view of a third embodiment of a fluid mixture dispensing system display screen with animated graphical user interface, showing a first image in the sequence;
FIG. **8** is a second image thereof; and
FIG. **9** is a third image thereof.
FIG. **10** is a front view of a fourth embodiment of a fluid mixture dispensing system display screen with animated graphical user interface, showing a first image in the sequence;
FIG. **11** is a second image thereof; and
FIG. **12** is a third image thereof; and,
FIG. **13** is a perspective view of a fluid mixture dispensing system display screen with animated graphical user interface, showing the claimed design applied to a fluid mixture dispensing system.
The broken lines in FIGS. **1-3**, **4-6**, **7-9**, and **10-12** depict portions of the animated graphical user interface that form no part of the claimed design.
The broken lines in FIG. **13** depict environmental structure and portions of the animated graphical user interface that form no part of the claimed design.
The appearance of the animated images sequentially transitions between the images shown in FIGS. **1-3**, FIGS. **4-6**, FIGS. **7-9**, and FIGS. **10-12**. The process or period in which one image transitions to another forms no part of the claimed design.

1 Claim, 13 Drawing Sheets
