(57) **CLAIM**

The ornamental design for a protective case for electronic tracking device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view including the front, top, and side of a protective case for electronic tracking device showing our new design.

FIG. 2 is a perspective view including the rear, bottom, and the opposite side of the protective case for electronic tracking device of FIG. 1;

FIG. 3 is a front elevation view of the protective case for electronic tracking device of FIG. 1;

FIG. 4 is a rear elevation view of the protective case for electronic tracking device of FIG. 1;

FIG. 5 is a side elevation of the protective case for electronic tracking device of FIG. 1;

FIG. 6 is an opposite side elevation view of the protective case for electronic tracking device of FIG. 1;

FIG. 7 is a top plan view of the protective case for electronic tracking device of FIG. 1;

FIG. 8 is a bottom plan view of the protective case for electronic tracking device of FIG. 1;

FIG. 9 is a perspective view including the front, top, and side of a protective case for electronic tracking device shown in a configuration of use.

FIG. 10 is a perspective view including the rear, bottom, and the opposite side of the protective case for electronic tracking device of FIG. 9;

FIG. 11 is a front elevation view of the protective case for electronic tracking device of FIG. 9;

FIG. 12 is a rear elevation view of the protective case for electronic tracking device of FIG. 9;

FIG. 13 is a side elevation of the protective case for electronic tracking device of FIG. 9;

FIG. 14 is an opposite side elevation view of the protective case for electronic tracking device of FIG. 9;

FIG. 15 is a top plan view of the protective case for electronic tracking device of FIG. 9;

FIG. 16 is a bottom plan view of the protective case for electronic tracking device of FIG. 9;

(Continued)

FIG. 17 is an exploded perspective view including the front, top, and side of a protective case for electronic tracking device.

FIG. 18 is an exploded perspective view including the rear, bottom and opposite side of a protective case for electronic tracking device.

FIG. 19 is an exploded front elevation view of the protective case for electronic tracking device;

FIG. 20 is an exploded rear elevation view of the protective case for electronic tracking device;

FIG. 21 is an exploded side elevation of the protective case for electronic tracking device;

FIG. 22 is and exploded opposite side elevation view of the protective case for electronic tracking device;

FIG. 23 is an exploded top plan view of the protective case for electronic tracking device; and,

FIG. 24 is an exploded bottom plan view of the protective case for electronic tracking device.

The dashed broken lines throughout the drawing figures depict portions of the protective case for electronic tracking device that form no part of the claimed design. The dot-dash broken line in FIGS. 17-24 represents the course along which the elements of the protective case are separated from each other.
