(57) **CLAIM**

The ornamental design for a baby carriage, as shown and described.

DESCRIPTION

FIG. 1 is a top, front and right side perspective view of a baby carriage, embodying my new design;
FIG. 2 is a front perspective view thereof;
FIG. 3 is a rear perspective view thereof;
FIG. 4 is a left side perspective view thereof;
FIG. 5 is a right side perspective view thereof;
FIG. 6 is a top perspective view thereof;
FIG. 7 is a top, front and right side perspective view thereof, with the rear toddler seat in a stowed non-used position;
FIG. 8 is a top, front and right side perspective view of the baby carriage of FIG. 1, with exemplary structures of a hood and infant seat attached;
FIG. 9 is a front elevation view thereof, with exemplary structures of a hood and infant seat attached;
FIG. 10 is a rear elevation view thereof, with exemplary structures of a hood and infant seat attached;
FIG. 11 is a left side elevation view thereof, with exemplary structures of a hood and infant seat attached;
FIG. 12 is a right side elevation view thereof, with exemplary structures of a hood and infant seat attached; and,
FIG. 13 is a top plan view thereof, with exemplary structures of a hood and infant seat attached.

The ghosted and overexposed showings of the seat canopy hood and top infant seat are provided for the purpose of illustrating environmental structure and form no part of the claimed design.

1 Claim, 13 Drawing Sheets
