(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

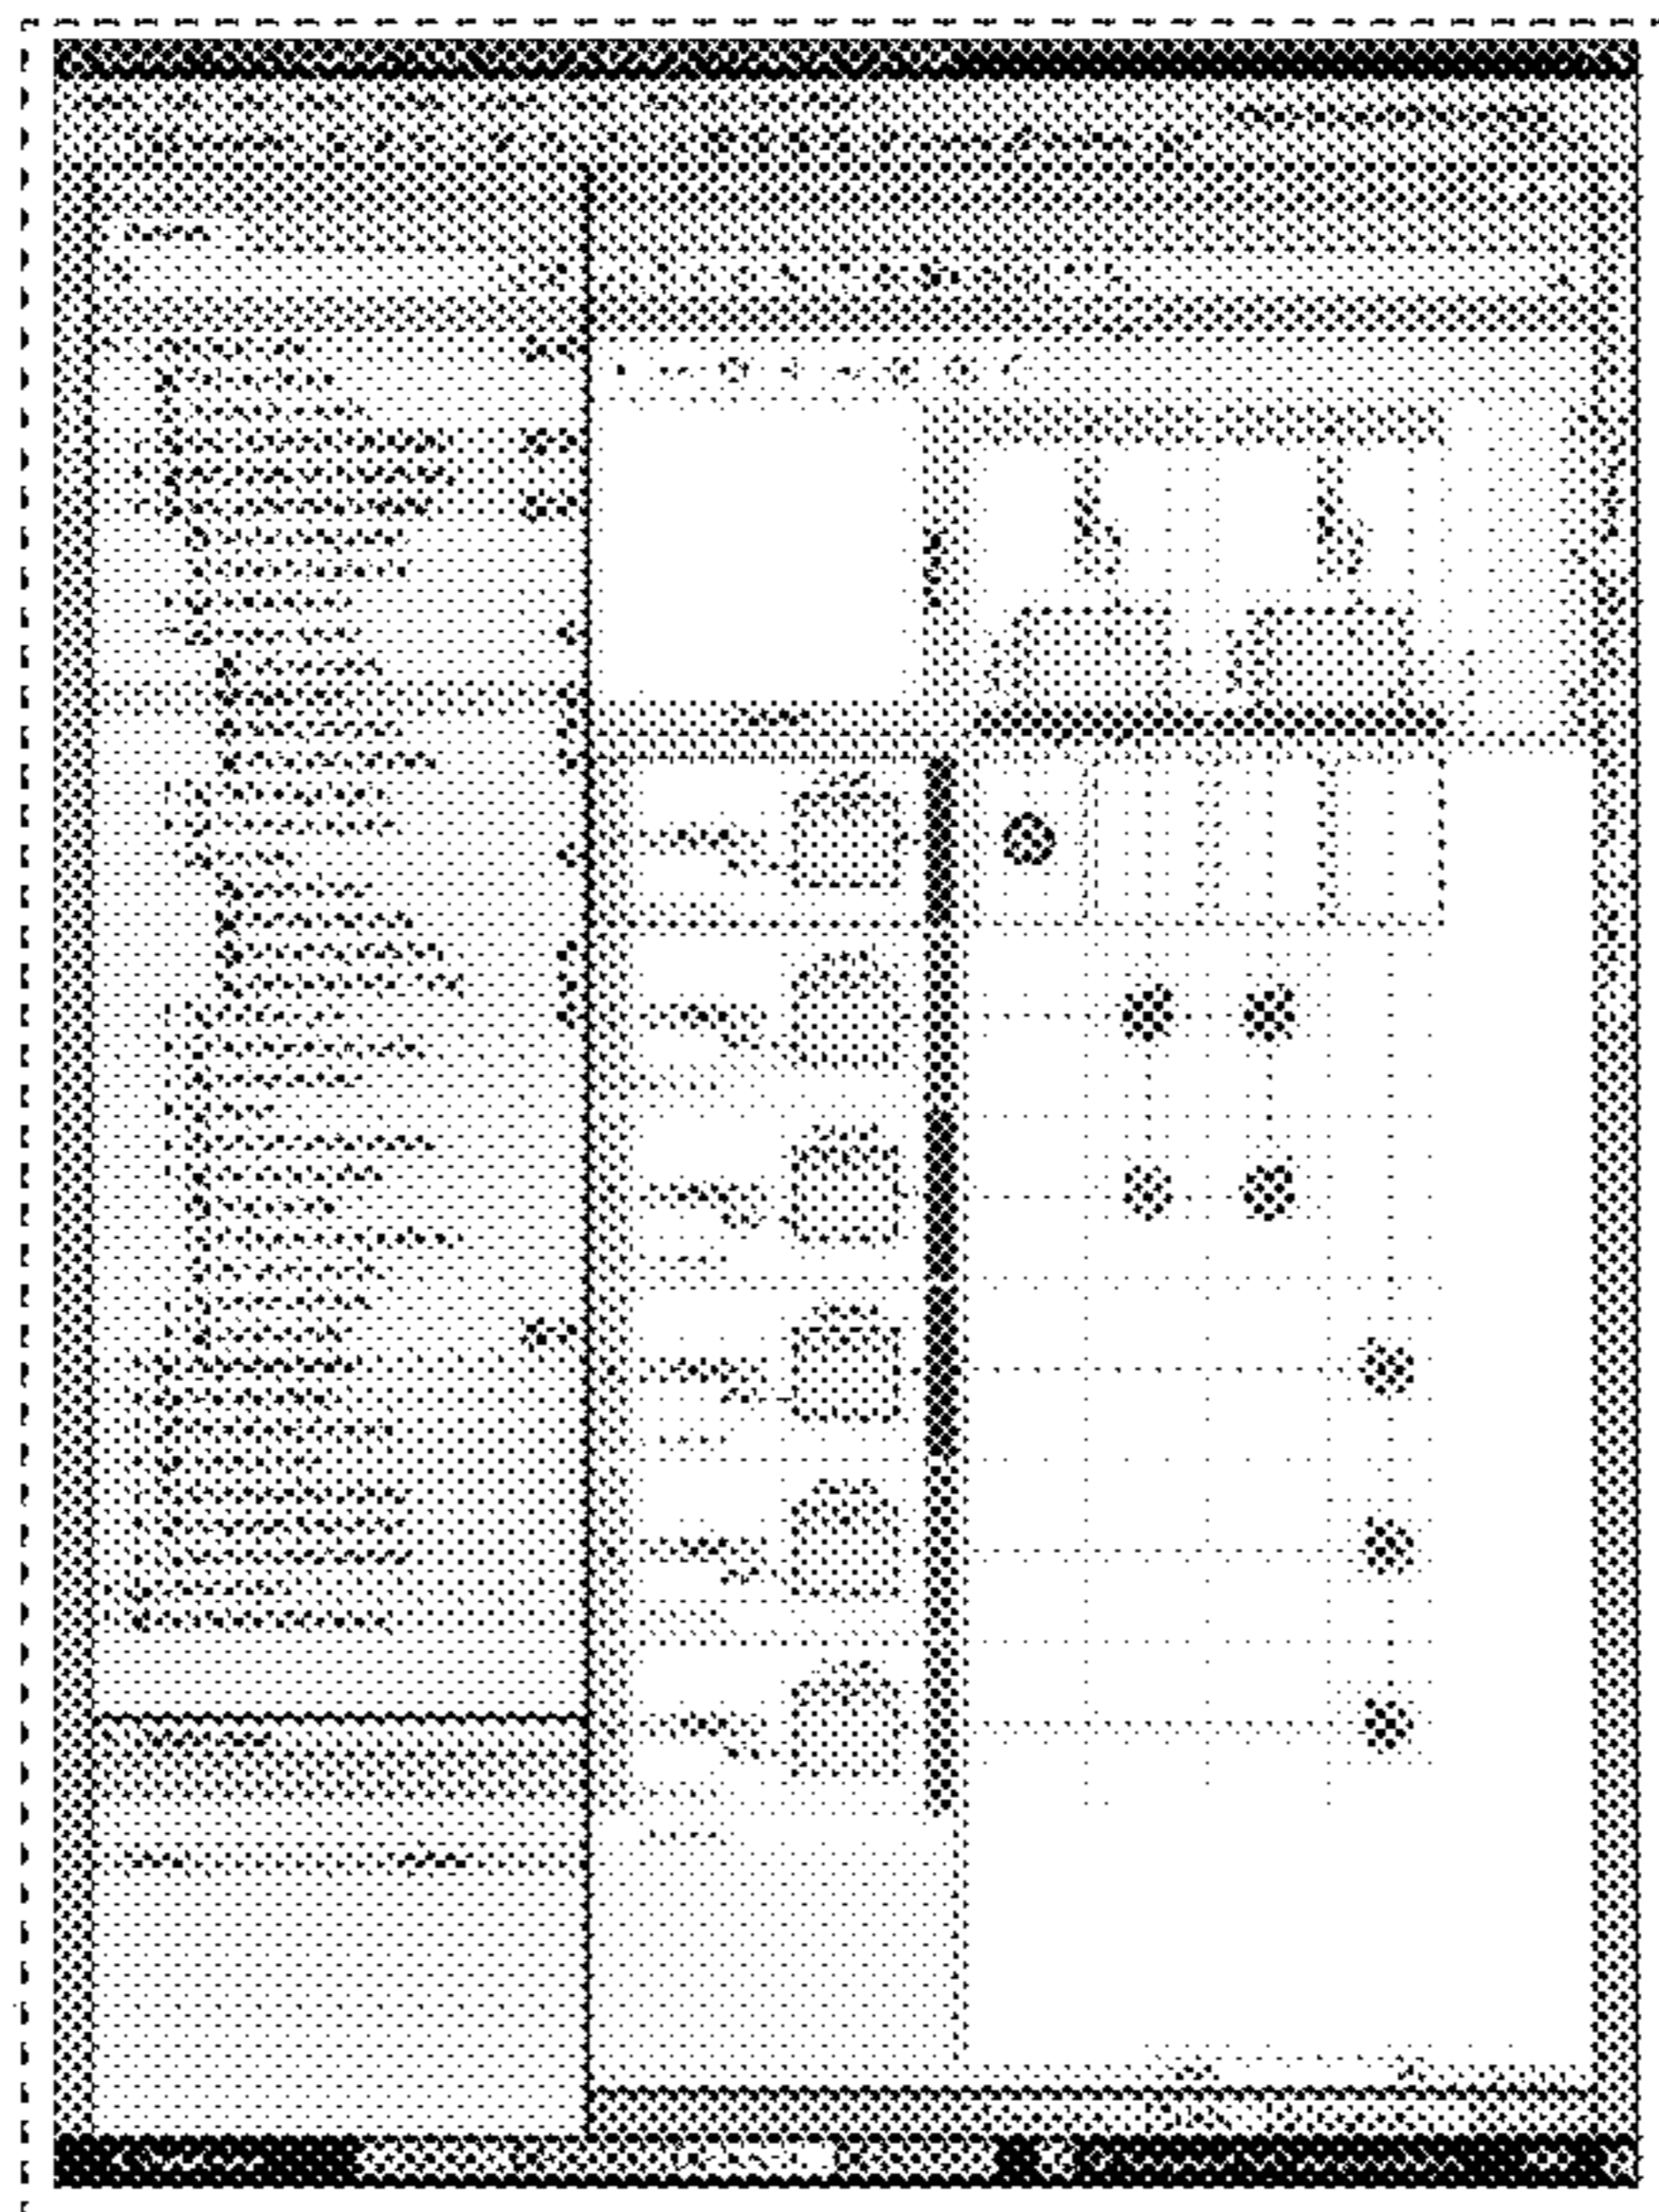

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

The FIGURE is a front elevational view of a display screen with graphical user interface showing our new design.

The broken lines illustrate a display screen and form no part of the claimed design.

The blue dashed lines within the graphical user interface form a part of the claim.
