(57) **CLAIM**

The ornamental design for a display system or portion thereof with a virtual three-dimensional animated graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is a front view of a display system or portion thereof with a virtual three-dimensional animated graphical user interface showing a first image of the claimed design;
FIG. **2** is a second image thereof;
FIG. **3** is a third image thereof; and,
FIG. **4** is a fourth image thereof.
The outermost broken lines in the figures show a display system or portion thereof, and form no part of the claimed design. The other broken lines in the figures show portions of the virtual three-dimensional animated graphical user interface that form no part of the claimed design.
The shaded claimed portions in the figures show a contrast in appearance with the non-shaded claimed portions.
The appearance of the animated image sequentially transitions between the images shown in FIGS. **1-4**. The process or period in which one image transitions to another forms no part of the claimed design.
