(57) **CLAIM**

We claim the ornamental design for a camera tripod, as shown and described.

DESCRIPTION

FIG. **1** is a front-left-upper isometric view of a camera tripod in a first configuration.
FIG. **2** is a lower-right-upper isometric view of the camera tripod in the first configuration.
FIG. **3** is a front view of the camera tripod in the first configuration.
FIG. **4** is a right-side view of the camera tripod in the first configuration.
FIG. **5** is a back view of the camera tripod in the first configuration.
FIG. **6** is a left-side view of the camera tripod in the first configuration.
FIG. **7** is a top view of the camera tripod in the first configuration.
FIG. **8** is a bottom view of the camera tripod in the first configuration.
FIG. **9** is a back view of the camera tripod in a second configuration.
FIG. **10** is a front-left-upper isometric view of the camera tripod in a third configuration.
FIG. **11** is a top view of the camera tripod in the third configuration; and,
FIG. **12** is a right-side view of the camera tripod in the third configuration.

Broken lines shown in the FIGURES depict boundary lines and additional features of the camera tripod. However, no
