(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

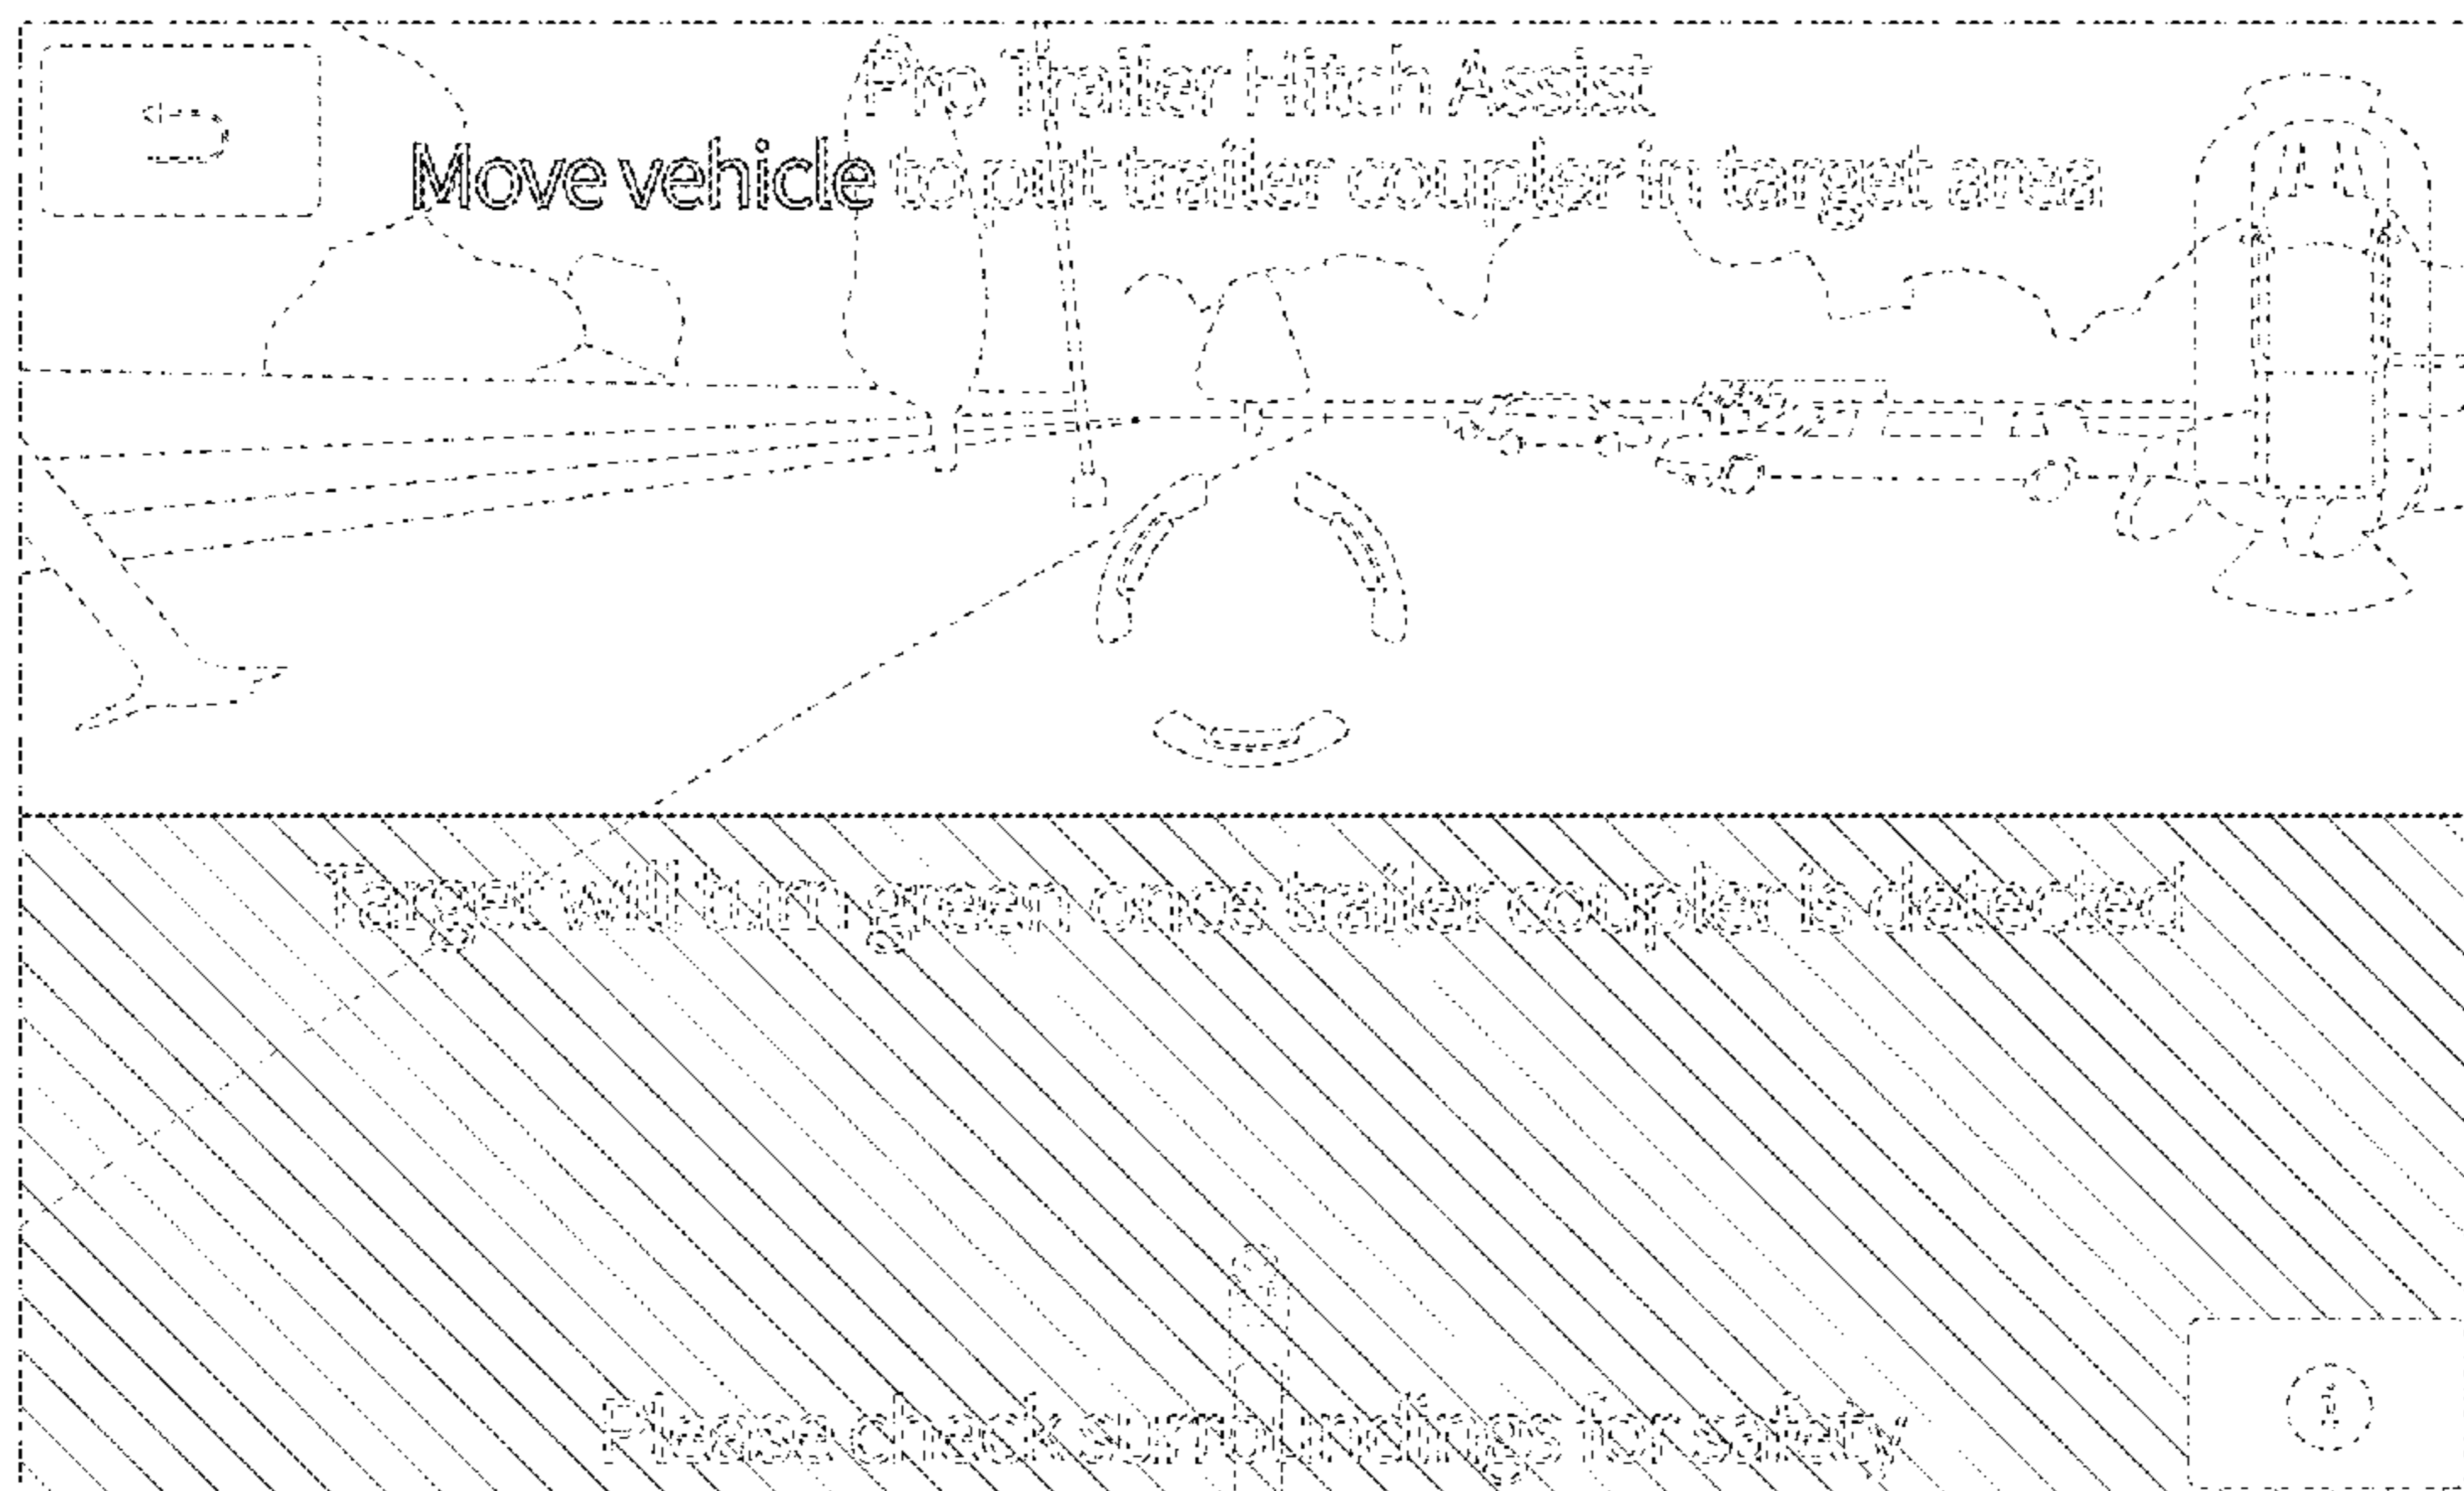

FIG. 1 is a front view of a first image of a display screen with graphical user interface according to the design; and, FIG. 2 is a front view of a second image thereof.

The outermost dash-dot-dash broken line rectangle showing a display screen forms no part of the claimed design.

The portions of the graphical interface shown in broken line form no part of the claimed design.

The appearance of the image sequentially transitions between the images shown in FIGS. 1 and 2. The process or period in which one image transitions to another image forms no part of the claimed design.

1 Claim, 2 Drawing Sheets
